"Not far from Mount Pleasant back in the to all who will take pains to examine it. country like, there is a tavern called the Franklin House. Mr. Franklin the proprietor, has two deaf and dumb daughters, sprightly intelligent, and interesting. By signs they often carry on animated conversations, especially with each other, and members of the family.

"Last week two foot travelers stopped for the night at this house, and after supper with the family, were shown to a room, in which was a good fire and bed for their accommodation. The kind host, on entering the room in the morning, found that the bed not been occupied, and that his guests had flown. He, however found on the table money for their supper, and a note stating that, in conrequence of signs made at the supper table by the young ladies, they did not think it tafe to go to bed, and therefore paid the bill and took theirdeparture."

The Oxygenated Bitters.

The Oxygenated Bitters,

For the cure of Dyspersia or Industries, Liver Complaint, Asthma, Costiveness, Loss of Appetite, Fever and Ague, Heart Burn, Water Brach, Acidity, Sea Sickness, Scurvy, Nausea, Headache, Ennui, and General Debility, or any disease having its origin in imperfect digestion.

These Bitters, as all classes of our fellow citizens, including Members of Congress, Lawyers, Physicians, Clergymen, Planters, Parmers and others testify, are the only safe, certain and severeign spectru for the immediate relief and permanent cure of the many cruel complaints which in some phase or other of Dyspersia afflict our race.

These Bitters were discovered by Dr. George B. Green, and in their formula differ entirely from that of any other preparation of medicine. Containing no alcohol—no mineral—no poison—no noxious drug,—in their nature tonic, not stimulating,—retaining their vittues in any clime; they are a "combination and a form indeed" of Medicine which knows no rival in exterminating disease and restoring the system to its pristine vigor and health. No matter of how long standing, or however induced or chronic in its character the disease may be—no matter that it has baffled the skill of the physician, and resisted the efforts of Medicine, a single tria of these Bitters will satisfy the sufferer that his disease sil amenable to the proper remedy.

In testimony of the many cures effected by this Remedy reference is had to the written certificates from distinguished individuals known all over the land.

From among the many letters we are constantly receiving we take the following.—

The New York Tribune. 1858-59.

The New York Tribune.

1858-59.

—The New York Tribune, now more than seventeen years old, which was the first journal in the world that appeared regularly on an imperial eight-page sheet at so low a price as two cents, and which has attained the unpafalleled aggregate of more than 200,000 subscribers, respectfully solicits its share of the patronage which the Metropolitan Press is henceforth to receive. It asks especially the patronage and citive favor of Repeblicans—of those who hate all forms of oppression, and desire that every rational being shall be free to employ his faculties in such innocent manner as he shall deem bost—of those who would extend Liberty and limit Slavety; but it further appeals likewise to all who look and labor for the return of National thrift, plenty, prosperity, through the Protection of American Industry by wisely discriminating duties on Imports—all who favo allow for the return of National thrift, plenty, prosperity, through the Protection and extension—all who would rather have the National resources devoted to the construction of a railroad to the Pracific than to the purchase or conquest of Mexico. Nicaragua or Cuba—all who would return handled your present inordinate Fedi rall expenditures by abolishing or immensely reducing the Army and Navy, and expending the money thus saved on works of beneficence which will endure to bless our children—all who profoundly realize that "light-courses exalteth a nation," and that no real advantage can ever accrue to any person or community from acquisitions or successes achieved by means which contravene the laws of Federal Right. The free allotment of limited portions of the Public Lands to Actual Settlers thereon, and every hopeful plan intended to diminish the sum of human misery from dearth of employment or inadequate recompense—every scheme especially that seems to help the unfortunate by enabling and teaching them to help themselves—must command our carnest sympathy and cooperation.
