# THE AGITATOR.

WELLSBORO' PENNA.
Thursday Morning, February 3, 1859.

See new advertisements. Revival meetings are still continued at the Methodist Church in this Borough. Much in-

terest is manifested. Subscribers whose time of subscription has expired, or is about to expire, will find their papers marked hereafter with an X.

We are requested to say that Prof. D. E. Maxon, of Alfred University, will lecture on the subject of Slavery, at Tioga, on the evening of Saturday the 5th inst.

A Wisconsin paper made a prediction that we were going to have a mild winter "because the muskrats had built their habitations high is the marshes."

We understand that some of the citizens of Tiega have succeeded in organizing a Brass Band in that village. They have secured a competent teacher and are progressing finely.

The Atlantic Monthly for February is on hand. and is overflowing with literature, as usual. Mr. Stowe's new novel, "The Minister's Wooing is continued. The Professor at the Breakfast Table must be a "near relation" of the late Autocrat as they talk very much alike.

We understand from persons in attendance that the Musical Festival at Gray's Valley, on Thursday, Friday, and Saturday, of last week. was a success. About 125 singers were preent and the occasion will be long and pleasantly rememberd by those who mingled in the festivities. Not less pleasant was the hospitality of the people of Gray's Valley.

We have received the third number of The Highlander, a neutral paper published at Highland, Doniphan County, Kansas, by J. E. Faulkper, formerly of Mansfield in this County. It hoks well typographically, and its editorials erince much ability. We wish it success. Subscription \$2,00 a year. Mr. J. C. Root is the authorized agent for this place.

We call attention of young men and women to the article on our first page on Stephen Girard copied from Household Words. It illustrates what fixedness of purpose coupled with industry can do. There are a thousand nobler aspirations than the acquisition of wealth mercly for the power it confers. But the way to success is the same. Patience and perseverence, udustry and a fixed purpose never fail.

We have received from Phinney & Co., Publishers, Buffalo, a copy of "The Spencerian, or Semi-angular System of Penmanship," just published by that firm. We have no hesitation in pronouncing this the best work on practical penmanship ever published in this country. The work consists of fifty-four engraved plates, giving full illustrations of the several principles upon which this system is based. Added to these are full directions by which any person, having this book before him, can become a good penman without a teacher. Price by mail \$1,75.

We gladly give place to the following correspondence which explains itself; the procedings of the Literary Association will be found below:

#### HOW TO GET RICH.

USE the New Machine invented by E. A. Smead, to operate your common Dash Churns, it can be applied to any size. You can regulate the stroke to any required length from two to fourteen inches, by the adjustable wrist pin in the fly wheel by which mo-tion is imparted to the dash. A child can operate it with ease. See that the Inventor's name is on the mawhile tast. See that the Inventor's name is on the machine before you purchase. Price, Five Dollars.

This machine is the result of three years experiments, and has been pronounced by scientific men to be perfect. I obtained a glass churn last year in which I could witness the agitation produced by the different length stroke, this showed the advantage of having the adjustable wrist pin, as the stroke must be in proportion to the amount of cream or wilk to be n proportion to the amount of cream or milk to be churned. Letters Patent of the United States are now pending, and all persons are cautioned not to in-fringe. It can only be had of Smead & Tabor, at

ioga.

Persons wanting the above machines for the coming season will please order soon, which will ena-ole us to supply at call.
