To Correspondents.—We wish to direct the To Lucian of "Dandy Jim" of Lawrenceville, attention our local colwan last week. We take no notice of anonymous communications.

We are pleased to announce that our young friend H. N. Williams Esq., was last week amilted to practice at the Bar. We under rand that he intends removing to some other feld of labor. We wish him success.

THE Utica Observer positively announces that ELGOVERNOR Seymour would not accept the tomination for President, should it be tendered to him by the Charleston Convention.

We are also authorized to announce semimedally that Bill Snooks will decline also, if the Charleston Convention should tender him the nomination.

KICKED BY A HORSE.-We regret to learn that Mr. Archibald Walker of Charleston, was severely injured by a kick from a horse, on Wednesday of last week. He was engaged in drawing logs and the wounds were inflicted while Mr. W. was lifting the whiffletrees from the ground. The horse was sharp shod, the toeork penetrating the skull about two inches above the right eye inflicting a frightful wound. le is expected to recover.

Two Horses Killed and a Man Severely INJURED.-We learn some of the particulars of an accident which occurred Thursday last, on the log jub of Mr. Geo. M. Thompson, near Side Island, from a gentleman living in that teighborhood. William King was descending the mountain with a load of logs, and when maring a short turn in the road, the lock-chain troke, precipitating the load upon the horses and forcing them over the dug-way where they vere crushed by the logs. Mr. King was hurkd down the rocks about twenty feet, injuring him severely, if not fatally.

Monday was St. Valentine's day. We expected a few handsome pictures with appropriate poetry underneath. But we didn't get any. We got a billy-dux on gilt edged paper which readeth as followeth:

"Yes; loving is a painful thrill,
And not to love more painful still;
But oh it is the worst of pain
To lore—and not be loved sgain,"
Wellsboro, Feb. 14th 1859.

N. B. Ever since we received the above we have had our head tied up in a red bandana, with a plaster of Peleg White's sticking salve on the soles of our feet. Will the fuir anonymous save us a doctor bill, by sending us her address?

We have received the eighth number of The Century a weekly newspaper published in New York by Thos. McElrath, 37, Park Row. Single subscription per annum, in advance \$2,50; 2 copies \$4.

The Century in its elevated dignity of tone, in its enlarged views, in the elegance and force of its articles, and in in its typographical appearance fills our ideal of what a newspaper should be. Its editorship is impersonal, but a glance at its leaders will convince any man that us publisher employs only writers of the highest ability. The Century has taken a heretofore unoccupied field in American journalism. It is liberal and national in politics without being partizan. It cannot fail of success.

FIRE IN KNOXVILLE .- About one o'clock on Sunday morning 13th inst., a fire was discovered in the third story of the dwelling of John E. White Esq., and in spite of all offorts to arrest the flames, the building together with its contents was consumed. The first floor was occupied by Mr. White as a dwelling and Justice's office. The second story was accupied by the Society of Odd Fellows at that Place, and was used as a Hall and Lodge Room. Mr. White's loss is estimated at \$1000, nearly all of his clothing furniture, &c., being consumed. The loss sustained by the Odd Fellows is estimated at \$1.200, about \$700 being in notes, most of which will probably be recovered by renewal. We are sorry to learn that there was no insurance on the building nor any part of its contents. The fire is supposed to have originated from a defective stove pipe.

ENANUEL GUYER Esq., of Bradford County, lectured last Thursday evening before the Literary Association on "The Tendency of the Times." Owing to the increased interest in the Revival Meetings at the Methodist Church, the attendance was not so large as we could have desired. The lecturer confuted the idea that our young Republic was going to ruin on account of the isms and intellectual extravagance of our people. These were but the shadows of coming events, the early dawn of a New Pay. He showed how absurd it was to base this prediction of impending ruin upon an and gr with Rome whose institutions ours are popularly supposed to resemble. He showed from the pages of history how entirely dissimilat were the political, religious, and social inetitutions of the people of Rome from those of our own country, and traced the advance of cirilization step by step to the present time. The tendency of the times in his view, pointed to higher and nobler aims of life than the acquisition of wealth and power. The increased liberality of opinion, the religious aspects of the age, and the advanced state of our social life all proved this. The principles of peace and brotherly love taught by Jesus of Nazareth, would soon be triumphant.

J. Emery Esq., in behalf of the members of the Society and the audience, tendered his thanks for the intellectual treat to which they had listened, and the meeting adjourned.

Joshua Walbridge Esq., will lecture before the Society this (Thursday) evening. Subject-MIND AND MATTER.

"HARPERS" for Febuary comes to us freighted with good things as usual. As we look at it, we do not feel surprised at the astonishment of a British Journal that 144 double column octavo papers, printed on fine white paper could be sold for 25 cents. HOW TO GET RICH. .

The Ward of the Rich.

See the New Machine invented by E. A. Smead, to operate your common Dash Churns, it can be applied to any size. You can regulate the stroke to any required length from two to fourteen inches, by the adjustable wrist pin in the fly wheel by which motion is imparted to the dash. A child can operate it with ease. See that the Inventor's name is on the machine before you purchase. Price, Five Dollans. This machine is the result of three years experiments, and has been pronounced by scientific men to be perfect. I obtained a glass churn last year in which I could witness the agitation produced by the different length stroke, this showed the advantage of having the adjustable wrist pin, as the stroke must be having the adjustable wrist pin, as the stroke must be in proportion to the amount of cream or milk to be churned. Letters Patent of the United States are now pending, and all persons are cautioned not to in-fringe. It can only be had of Smead & Tabor, a

These BITTERS, as all classes of our fellow citizens, including Members of Congress. Lawyers, Physicians, Clergymen, Planters. Farmers and others testify, are the only safe, certain and sovereign spectric for the immediate relief and permanent cure of the many cruel complaints which phase or other of DYSPETSIA afflict our race.

These BITTERS were discovered by Dr. Genorg B. GREEN, and in their formula differ entirely from that of any other preparation of medicine. Containing no alcohol—and only on the complaints of a "combination and a form indeed" of Medicine which knows no rival in exterminating disease and restoring the system to its pristine vigor and health. No matter of how long standing, or however induced or chronic in its character the physician, and resisted the efforts of Medicine, a single tria of these Bitters will satisfy the sufferer that his diseases sil amenable to the proper remedy.
