BRADFORD .- There is a fair prospect that the Legislature of New York will pass a law at its present session, authorizing a survey to be made with a view to extend the Chenango Canal to the Pennsylvania State line near Athens. This measure if carried out according to the original design, will connect the Pennsylvania to the

New York canals and materially add to the value of both. --- Speaking of the late freshet. the Reporter says: "It seems to be generally conceded that the amount of lumber manufactured in the lumber-producing regions, will fall far below the usual quantity. ### State Legislature.

March 11. We find the following among the proceedings of this date:

The House went into committee of the whole, (Mr. Zoller in the chair, on bill No. 131, entitled "An Act preventing the intermarriage of the white and black races.

The first section was read. Mr. WILLISTON moved to amend the same by striking out the word "white" wherever it occurs, and insert in lieu thereof the word 'Democrat."

The CHAIRMAN ruled the amendment out

Mr. HAMERSLY moved that the committee rise, report progress, and ask leave to sit again, which was agreed to: whereupon the committee rose, and the Chairman reported the same to the House; and On the question, "Shall the committee have

leave to sit again?" it was not granted. The first section of the bill was read the sec

Mr. WILLISTON moved to amend the amendmen by striking out the word "white" wherever it occurs and insert in lieu thereof the word "democrat."

Mr. WILLISTON gave his reasons for his amendment as follows: Some gentlemen, I do not know who, has deemed it of sufficient importance to report this bill to the House. can conceive of no reason for the passage of a bill of this kind, except to prevent the degeneracy of our race. Now, as it is known that the black or colored population in this country is an enslaved race, and equally a despised and degraded race, and as it is known that a section of the Democratic party residing north of the fortieth parallel of latitude are likewise despised and down-trodden, therefore, to bring the enslaved species together, I offer this amend ment.

The amendment was not agreed to.

The further consideration of the Bill was indefinitely postponed.

They have a committee in our Legislature on Vice and Immorality. All Bills relating to rumselling are appropriately referred to it.

## For the Agitator.

Our Academy. MR. EDITOR: I wish through the columns o your paper to call public attention to the Wells boro Academy. I have no disposition to go in to its history or to detail its ups and downs since its first establishment in 1817. Like almost everything else it has had its seasons of prosperity and depression; its good teachers and its poor teachers; its efficient boards of trustees and its basswoods. All these things are incidents of most literary institutions, whose wealth is not sufficient at all times to purchase efficiency. Our institution labored at first un der difficulties incident to a sparse and poor pop ulation, yet in its very infancy it had a powerful influence upon the character of our county and there are many among us past the middle age of life, who can look back to their school days at the Wellsboro Academy with

most pleasing recollections. It has sent out into the world many who have done honor to themselves and the county by their intelligence and high moral character could point to many names, which many of your readers would at once recognize as once on the list of the students of the Wellsboro Academy which are recollected only to be hon ored, and they are found among the farmers, mechanics, merchants, clergy, physicians, lawyers, teachers and civil engineers. In fact, this academy has at all stages of its existence exert ed a healthy influence upon the morality and

educational operations of our county. But my object in writing this article is to call attention to its present position and claims. The buildings have been entirely remodled and new additions made to them. The inside arrangements are of the very best kind. It has good philosophical apparatus, and means l understand are about being taken to establish within its walls a good library, and over and above all it has a most excellent body of teachers. The village is healthy and the situation

of the school pleasant. I had the pleasure of attending the examination at the close of the last term, and though l have attended most of the examinations for the last thirty years, I have no hesitation in saying that this has surpassed all that I have witnessed, in its evidence of thoroughness of training, intellectual skill and mental progress. The present Preceptor, Mr. Burlingame, in the two terms he has had the Academy under his charge, has shown himself eminently fitted for the post; and from my own observation of the progres made not only by my own children, but by others, I am satisfied that no school of the kind in Pennsylvania exceeds this. The moral influences upon the schoool, though mostly silent in theoreted.—The same day while a man absence of all rough conduct, and a strict attentheir operation, have shown themselves by the absence of an rough contains, and that had broke tion on the part of the pupils to all those amen-

My ideal of a good school is somewhat high, and I am not apt to speak well of an educational institution that does not deserve it. I can, therefore, more freely and earnestly recommend to the people of the county the Wellsboro Academy under its present admirable or ganization.

## AYER'S SARSAPARILLA.

A XERC'S SARRARABLICA.

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alternitive power as to afford an affective antidote/for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Striumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens.—
How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—
Screefin and Screefings Complaints Empires and Error.

following complaints:—
Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulceus, Pimples, Blotches, Tumors, Salt Rheum Scald Head, Syphilis and Syphilitic Affections, Mercural Disease, Dropsy, Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's

Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's irre, and indeed the whole class of complaints arising from impurity of the blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will stive to rid itself of corruptions, if not assisted to do thus through the natural channels of the body by an alterative medicine. Ceanse out the vitated blood whenever you find its inpurities bursting through the skin in pimples, eruptions, or sores; cleause it when you find it is obstructed and sluggish in the veins; cleause it whenever it is foul, and your teclings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood.—Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these cade. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla

cause many preparations, pretending to be concentrated ex tracts of it, contain but little of the virtue of Sarsaparille

racts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

\*During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Myst of these have been frauds upon the sick, for they not only contain little if any Sarsaparilla, but often no enrative properties whatever. Hence, bitter and painful disappointpent has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become sy nonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is mended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Wilere the above preparation is known, it is a well established as an infallible Hemedy for the cure of-Coughs, Colds, Sore Theoat, Hoarseness, Bronchitis, Spitzing of Superfixed Physician more than twenty of supercregation to speak of its merits.

Discovered by a celebrated physician more than twenty years since, it has by the wonderful cures it has effected been constantly appreciating in public favor, until its use and its use and its reputations are alike universal; and it is now well known and cherished by all (and their "manne's legion") who have been restored to health by its use as the Great-Remedy. for all the discusses which it professes so cure.

Sir James Clarke, physician to Queen Victoria, has given it as his opinion that

it as his opinion that CONSUMPTION CAN BE CURED. The whole history of this medicine fully confirms the opinion of that eminent man. Thousands can testify, and have testified, that when all other remedies had failed, this had completely cured; that when the sufferer had well nigh despoired, this had afforded immediase relief; that when the physician had pronounced the disease incurable, this has re-The virtues of this Balsam are alike applicable to cure a slight cold or a Confirmer Consumerton, and its power as a safe, certain, speedy, pleasant and effectual remedy cannot be equalled.

SE the New Machine invented by E. A. Smead, to operate your common Dash Churns, it can be applied to any size. You can regulate the stroke to any required length from two to lourteen inches, by the adjustable wrist pin in the fly wheel by which notion is imparted to the dash. A child can operate it with ease. See that the Inventor's name is on the machine before you purchase. PRICE, Five DOLLARS.

This machine is the result of three years experiments, and has been pronounced by scientific men to be perfect. I obtained a glass churn last year in which I could witness the agitation produced by the different length stroke, this showed the advantage of having the adjustable wrist pin, as the stroke must be in proportion to the amount of cream or milk to be in proportion to the amount of cream or milk to be churned. Letters Patent of the United States are now pending, and all persons are cautioned not to in fringe. It can only be had of Smead & Tabor, a

THE Subscriber is selling this valuable machine and invites all who want a really good Mower and keaper, to examine it before purchasing any other machine. It is superior to all other Mowers and Rapers in use, in the following particulars: It is the lightest in use; is strong and durable; requires less draft than any other machine; has no side draft though it. than any other machine; has no side draft though it cuts a wide swath; will work on rough ground where no other machine can follow it; very difficult to be clogged in any kind of grass, be it wet or dry; is simple in construction and not liable to get out of repair; is a perfect combined machine; working equally well, whether mowing or reaping; and is the CHEAPEST in price, the Mower being only \$105 and the combined machine \$130—making it altogether the most desirable Mower and Reaper in market. Call at the Tin and Stove Store and examine for vourselves.
