NEW ADVERTISEMENTS. Garden Seeds etc.—John A. Roy. Sotice to Mechanics.

Lost! Lost American Hotel—E. Freeman. Farmers wishing a good article of Cloer Seed, can find it at D. P. Roberts' Agricultural Implement Store.

We learn from the Corning Journal that Mr. I.W. Hungerford has established in that village a new individual Bank, bearing his name. The capitol is \$50,000 and is secured by pledge Public Stocks and Real Estate. Mr. Denton, formerly teller in the Corning Bank is appoint-Cashier. The Bank is in the stone building in the office recently occupied by Mr. W. M.

Mallory. Parson Brownlow, who publishes the Knoxrille (Tenn.) Whig, calls upon his subwribers to "pay up." He says he is willing to take shanghai chickens, hoop skirts, boot jacks, broom corn, baby jumpers, fishing tackle, patent medicines, sucking pigs, frozen cabbage, d clothes, Colt's revolvers, second hand tooth brushes, ginger cakes, parched corn, circus ukets, or any other article in a retail store .-We would not object to do the same, only leave cut the hoop skirts, second hand tooth brushes and baby jumpers-these we have no use for c! present.

A few evenings since we saw a young man in a state of beastly intoxication. He was so grank that he could not "navigate," and had to at down perfectly helpless as he, was in front fadry goods store. He held in his hand a bttle of liquor nearly full, which must have leen sold to him long after he was beastly crunk. He was unable to say where he got it, and some person kindly took it from him.

The question occurred to us: which of the 180 is the most despicable—the poor drunken stetch before us, or he who sold him the liquor? yo one can hesitate with the reply. It is bad mough to sell to "moderate drinkers" as habittal tiplers call themselves, but to sell to a drankard is away down among the lowest of cimes. We saw the poor fellow an hour afterward pursued by a lot of boys who wanted to ček him. He took refuge in an old store up wan and probably slept off the "drunk." We understand he has respectable connections, and fir the present we will suppress his name. He lives a few miles from town. We hope he will nod this article and profit by it. All we ask of him in return for the good intended to be done him by this article, is to call at our office and leave the name of the man who sold him the last bottle of whiskey on the day he was so drunk.

Adjoining Counties.

WARREN.-We find in the Ledger the following item, illustrating the scriptural maxim that "the way of the transgressor is hard":--

"Instances very frequently happen which vividly place before us the imperious duty of regarding the wise laws of the CREATOR of the Universe, and experience teaches us that "the way of the transgressor is hard." We have a thort story to relate which is literally true in every respect. Several years ago there lived in an adjoining-county a man engaged in a lucrative business-he was worth thousands of dolars-but he had forgotten the command laid down in the Decalogue, "Honor thy father and mother.' His love of gain had grown upon him to such an extent that he regarded the suppart of his aged mother as not incumbent upon him, and she who had given him life and nursed him and raised him, was sent to the County poor house, where she out of very shame, committed tanile by jumping from a window. Soon after this, the large manufacturing establishment of the son was burned down. Removing to anothtt place, he erected a similar establishment, and in the course of a few years, this manufacfor was destroyed by fire. Occupying another feel of operations he built a large establishment to continue the same business, four years ago, and in less than nine months from that time, the devastating element had for the third time swept his building out of existence, and he was left penniless.

We have refrained from giving names and places in the above story, for fear of injuring the feelings of the unfortunate's friends. He is now wandering, we know not where, but he cannot but discover the hand of God in all his afflictions. "Honor thy father and thy mother that thy days may be long upon the land which the Lord thy God giveth thee.' POTTER.-Owing to a suggestion of ours made

some weeks since, the Democrat comes out with

a "Patent Office Report" and it is really a good

one. It may not be known to our readers that Mr. C. B. Cotter the editor of the paper above tamed, is also an inventor, and has recently succeeded in bringing to perfection a "Self-connecting, self-disconnecting Car-Coupler and Friction-Bumper" for which he has received letters pattat. This invention is highly spoken of by Practical and scientific railroad men, and we hope Mr. Cotter will realize a fortune from it. Mr. Cutter states that he has worked hard for thirty-two years for "the party" (the Loco-(e) party) for nothing, and he thinks "that is quite enough." We think so too. Yet we belete if Mr. C. should realize nothing from his latent, he will continue to work thirty-two lears more (if he should live so long) for just the same wages. "Party" is a very poor master to work for, and the "party" for which Mr. Cotter is at present employed, although backed by the Administration, is poverty-stricken to the last degree: bankrupt in principle, in power,

and in the confidence of the people. We wish Mr. Cotter success with his invention, and we trust that railroad men will contalt their own interests and the public safety, by at once adopting the "Patent-Coupler."-For particulars apply by letter or in person to C. B. Cotter Esq., Editor of the Democrat, Condersport, Pa.—A cricket club has recent-I been formed at Coudersport. Down over

the river about half a mile South of Coudersport, a beautiful spring brook comes tumbling down the hill, and at one place falls perpendicularly over a bed of rocks, forming a delightful cascade. It is on the farm of Judge Ross and is in sight of the village. A poet has written a description of a visit to it, in the Atlantic for March, and the Journal thinks it might have been Miss Caroline Cheesbro, who was in that locality last Summer, fishing trout. No person should ever visit Coudersport without visiting the cascade. But here is the poem: THE WATERFALL

Down across the green and sunny meadow, Where the grass hangs thick with glistening dew,— In the birch-wood's fickering light and shadow, Where, between green leaves, the sun shines thro'-

Plunging deeper in the wood's dark coolness,
Where the path grows rougher and more steep,
Where the trees stand thick in lenfy fulness,
And the moss lies green in shadows deep:—

Hark! the wind amid the tree-tops rushing
In a sudden gust along the hills!—
No,—the leaves are still,—'tis water gushing
From some hidden haunt of mountain rills. Upward through the rugged pathway struggling,

Loud and louder yet the music grows; Near and nearer still, the water's gurgling Guides me where o'er moss-grown rocks it flows. Breathless, for its welcome coolness thirsting,

On I haste, led by the rushing sound, Till upon my fall sight sudden bursting, Lo, the forest's hidden treasure found!

See the gathered waters madly leaping,
Plunging from the rocks in headlong chase,
Boiling, eddying, whirling, downward sweeping
All that meets them in their foaming race!

From the broken waters riseth ever,
Fresh and cool, a soft and cloud-like spray!
And where through the boughs slant sunbeams quiver,
On the mist the sudden rainbows play.

On a branch high o'er the torrent swinging Sits a bird, with a joyful swelling throat;—Only to the eye and ear he's singing;
Through the roar below I hear no note. All the forest seems as if enchanted

Seems to lie in wondrous stillness bound; Hushed its voices, silenced and supplanted, Interwoven with this ceaseless sound. Gazing on the whirl of waters meeting, Dizzy with its rush, I stand and dream,
Till it almost seems my own heart's beating,
And no more the voice of mountain-stream.

McKean .- The Citizen says that an old building near the residence of Dr. M'Coy in the Boro of Smethport was destroyed by fire on Friday night of last week. The occupant, Mr. Chas. Guenther, lost everything except a few pieces of pork. The people subscribed \$80 for him on the spot. The Citizen says:

The Tioga Agitator enquires if we don't exchange with Porter's Spirit of the Times, and some other fighting papers—the names of which we have forgot-ten. We meekly reply that we exchange with the Christian Embassador, and papers of that ilk only.

Bradford.—The Argus states that a company of young men were about to leave Towanda for Pike's Peak .-- The Susquehanna Collegiate Institute examinations closed on the 16th ult. This institution although financially embarrassed is otherwise in a prosperous condition The Spring Term began on the 29th ult.

Peterson's Magazine for April contains several well executed engravings and colored fashion plates. The literary contributions are from the pens of such writers as Mrs. Ann S. Stephens and Charles J. Peterson-writers of acknowledged ability. Mrs. Jane Weaver continues her Hints to Housekeepers, and there is a piece of music in every number. Subscription \$2 a year. Address C. J. Peterson, 306 Chestnut St. Philadelphia. For sale by Smith & Richards.

The Atlantic Monthly for April is received. Price 25 cents. For sale by Smith & Richards. We will send the Agitator and Atlantic to any address for Three Dollars.

The Pennsylvania School Journal for March is received, and is a good number. We publish from its columes the following letter from this county:

Hon. T. H. Burrowes :- I have the pleasure of reading your valuable Journal and am highly pleased with its contents generally, but more especially with the portion which recommends the visiting of schools. I have reason to fear, however, that this part of the school duty is sadly neglected. I hear of whole districts that omit it entirely. The reading of the Journal is also too much overlooked. Would that every director, teacher and parent might read and study it. There are valuable lessons in it for all.

Elk is a very small district, containing but two schools; yet they are interesting. I visit them regularly and encourage parents to do so, all I can. One of the schools may be considered a model. The exercises are highly interesting :- 1st. The reading of a portion of the Scriptures; 2. Singing by the whole school; 3d. The reading classes; 4th. Exercises on the blackboard, in arithmetic and gramar, &c .-Then comes a class of little boys and girls to learn figures, and how to enumerate them, on the blackboard. During all this, the teacher faithfully explains every step and process, at the same time asking the pupils the hows and whys. Then come the spelling classes, and last of all, the singing again, the interest con-

tinuing to the end. My manner is to encourage them all alike, by remarks suited as nearly as possible to the capacities of the children, and by saying that all who try are equally meritorious, according to the motto: "He does well that tries."

AYER'S SARSAPARILLA.

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an affective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens.—
How complaints this compound will do it has been power. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints.— Scrofula and Scrofulous Complaints, Eruptions and Erup-

following complaints:—
Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Satz Rheum Scald Head, Sphilis and Syphilitic Affections, Mercaruat Disease, Dropsy, Neuralgia or The Douloureux, Debility, Dyspepsia and Indigestion, Eryspeplas, Rose or St. Anthony, Fire, and indeed the whole class of complaints arising from impurity of the blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and nlecrous sores, through which the system will stive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. C'eanso out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood.—Keep the blood healthy, and all is well; but with this paburour of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of the content of the property of the content of the content of the property of the felt of the property of the felt of the property of the property of the content of the property of the felt of the propert of the property of the felt of the property of the felt of the

lum of life disordered, there can be no lasting health. Soon-er or later something must go wrong, and the great machi-nery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of ac-complishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more be-cause many preparations, pretending to be concentrated ex-tracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

tracts of it, contain but little of the virtue of Sursaparilla, or any thing clse.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little if any Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is incaded to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PAMILY SEWING MACHINES.

NEW STYLES-PRICES FROM \$50 TO \$125.

EXTRA CHARGE OF \$5 FOR HEMMERS. 495 BROADWAY, - NEW YORK. 730 CHESTNUT STREET, PHILADELPHIA.

These Machines sew from two spools, as purchase from the store, requiring no re-winding of thread; they Hem, Fell, Gather, and Stitch in a superior man-ner, finishing each seam by their own operation, with-out recourse to the hand needle, as is required by other machines. They will do better and cheaper sewing than a seamstress can, even if she works for ONE CENT AN HOUR, and are, unquestionably, the best Machines in the market for family sewing, on account of their simplicity, durability, case of management, and adaptation to all varieties of family sewing—executing either heavy or fine work with equal facility and without special adjustment.

As evidence of the unquestioned superiority of

their Machines, the GROVER & BAKER MACHINE COMPANY beg leave to respectfully refer to the fol-

Dr. Wistar's Balsam of Wild Cherry. WISTAT'S BAISAM OF WING UNDERTY.

WHERE the above preparation is known, it is so well es
tablished as an infallible Remedy for the cure of—
Couchs, Colds, Sort Theoat, Hoarsenss, Rhoschwis, String of Blood, Pain in The Braker, Croup, Whooping Cough, and every form of Pulmonary Complaint, that if were a work of supercrogation to speak of its merits.

Discovered by a celebrated physician more than twenty years since, it has by the wonderful cures it has effected been constantly appreciating in public favor, until its use and its requation are alike universal; and it is now well known and cherished by all (and their "name is legion") who have been restored to health by its use as the Great Remedy for all the discases which it professes to cure.

Six James Clarke, physician to Queen Victoria, has given it as his opinion that

CONSUMPTION CAN BE CURED.

CONSUMPTION CAN BE CORED.

The whole history of this medicine fully confirms the opinion of that eminent man. Thousands can testify, and have testified, that when all other remedies had failed, this had completely cured; that when the sufferer had well nigh despaired, this had afforded immediase relief; that when the physician had pronounced the disease incurable, this has removed it entirely.

The virtues of this Balsam are alike applicable to cure a slight cold or a Continued Consumption, and its power as a sate, certain, speedy, pleasant and effectual remedy cannot be equalled.

equalled.

A large stock—embracing nearly every slyle and price. N B. No numbers over 14, at November, 11, 1858. Osgood's.

HOW TO MAKE BUTTER.

Use the New Machine invented by E. A. Smead, to operate your common Dash Churns, it can be applied to any size. You can regulate the stroke to any required length from two to fourteen inches, by the adjustable wrist pin in the fly wheel by which mo-tion is imparted to the dash. A child can operate it with ease. See that the Inventor's name is on the machine before you purchase. Price, Five Dollars.

This machine is the result of three years experiments, and has been pronounced by scientific men to be perfect. I obtained a glass clumn last year in which I could witness the agitation produced by the different length stroke, this showed the advantage of having the adjustable wrist in as the stoke pust he having the adjustable wrist pin, as the stroke must be in proportion to the amount of cream or milk to be churned. Letters Patent of the United States are

now pending, and all persons are cautioned not to in-fringe. It can only be had of Smead & Tabor, at Persons wanting the above machines for the Jan. 27, 1859.

Maintag the movie interints for the coming season will please order soon, which will enable us to supply at call:

KIRBY'S MOWER & REAPER

THE Subscriber is selling this valuable machine and livites all who want a really good Mower and kenper, to examine it before purchasing any other machine. It is superior to all other Mowers and Reap-Reaper, to examine it before purchasing any other machine. It is superior to all other Mowers and Reapers in use, in the following particulars: It is the lightest in use; is strong and durable; requires less draft than any other machine; has no side draft though it cuts a wide swath; will work on rough ground where no other machine can follow it; very difficult to be clogged in any kind of grass, be it wet or dry; is simple in construction and not liable to get out of repair; is a perfect combined machine; working equally well, whether mowing or reaping: and is the CHEAPEST in price, the Mower being only \$105 and the combined machine \$130—making it altogether the most desirable Mower and Reaper in market. Call at the Tin and Stove Store and examine for yourselves.

227—This Reaper took the first prize at the State Fairs of New York and Indiana against all competitors. It also took the prize at the Tioga County Fair last Fall.
