The news from Harrisburg is of no interest to anybody.

Mr. II. P. Erwin has removed from his cld stand, to the store formerly occupied by Messrs. B. B. Smith & Son, where he will be glad to wait upon customers as usual.

To Correspondents .- "Frank." Your paper is mailed regularly every week. Your subscripuon expires July 13, 1860. We will cut you of then, unless you renew. Your communication will appear next week.

Mr. William E. Secor gives notice in another column that the second and last term of his Writing School will begin on Monday erening next. He is an excellent penman and we are told by those who attended his first school that he is a very successful teacher. Next to learning to read, children should be taught to write and to write well.

Mr. F. K. Wright has opened a wholetale and retail Flour and Feed Store, on Main Street, first door below the United States Hotel. Lumbermen and farmers will find Mr. Wright always on hand to wait on them, and he thinks that by adopting the cash system he can afford to sell cheaper than anybody else. Give him a

We publish in its appropriate place, a letter from D. G. EDWARDS, Esq., to the School Directors of Charleston. We trust that the suggestions therein contained will engage the attention of every School Board in the County, and be acted upon.

Mr. Edwards, as will be seen by his letter, is sgentleman of intelligence and practical abilin, and we shall be glad to hear from him

We have received under the frank of Stephen A. Douglas, his great speech on Non-Intervention and Popular Sovereignty. As we have had some experience of the practical apdication of these theories, so far as they relate tithe Territories, and as we have a faint recollection of the circumstances which brought forth from the lips of that aspiring gentleman, the vords "We will subdue you!" we have carefully laid away his speech, wherewith to refresh ourselves during the dog-days, not having time to devote to a perusal of it at present.

AFRIL FOOL!—The custom of sending people on silly errands, and then laughing at them for their pains, prevails in every country in Europe, and in this country wherever the European races have settled. As to the origin of the custom, "doctors disagree," and we shall not undertake to decide which are right. Some authorities say that it originated with a feast of the Hindoos, called huli, while others say that it originated in a ceremony of the early Christian Church, commemorative of the time when Christ was sent to and fro, between Caisphas, Pilate, and others, to find out, whereof he was accused. But whatever may have been its origin it is in our opinion a senseless cusicm, nearly the last which civilization has as yet failed to overshadow. The unlucky victims of last Friday (although we were not victimuel, will agree with us in saying that it is short time the silly custom was done away with

About half past eleven o'clock last Friday right, an alarm of fire was given, the Court House bell was rung and some who happened to be awake, grabbed pails, and ran for the scene of disaster. Some ran up the Avenue, and some ran to Main Street-all anxious to know where the fire was. It appears that some wags who had not the fear of the Burgess and Council before their eyes, burned some dry goods boxes, &c. in the rear of one of the stores, and gave the alarm to see how many would be "fooled." Quite a number who heard the alarm, did not pay much attention to it, as they feared a "sell;" but still it is hinted that if that mythical personage the "fool-killer" had been around at the time, our village would have lost some of its worthiest citizens.

We are a friend to the "Fine Arts" generally, and we number Fun among them, but we do not like to see it cultivated at the expense of the very best impulses of human nature, and we hope this kind of fun will never be tried here again.

Adjoining Counties.

McLEAN.-The Potter Democrat recently publisted a blatant "leader" against Free Negroes. The "local" of the Cilizen sums up the argument in said leader as follows:

Precisely so. The anti-Democratic ramifications of the pre-dispositioned meanderings of the colored population tends to a heterogeneousthe of incomprehensibility which is an unconintuitional prognostication, at once extravigaing the primeral intention of our illustrious Progenitors, approximating as it does towards in ignominious bustification of the unfortunate colored individual, and decoys him into the exclamation, "I'm the victim of misplaced confi-

POTIER.—We see by the Cosmopolitan Art Jarnal, that Mr. Cotter has been lucky enough b draw a prize. We are glad to hear it.-

The Democrat of last week closes an article as follows:

"But Goudersport is the town of all towns. Healthy, happy, fat, ragged and "sassy.". See the pretty ladies promenading!"

Are these adjectives intended by you to be applied to the town or to the ladies?

Hon. C. Lyman acted as Senatorial, and J. Sherwood, Esq., as Representative Delegate from this District in the late State Convention, the Delegates appointed by the County Committee being unable to attend. It is needless to add that they truly represent the Democracy of the County and District.— Wellstern Democracy. boro Democrat.

"Children and fools tell the truth,"-and the editor of the Democrat ranks well in one of these pitiable classes of humanity. The "Democracy of the County and District" are truly well represented by Charley Lyman—and so is the National Administration, with its "niggerdriving" aitributes .- Potter Journal.

What does the Warren Ledger say? Did Lyman represent the principles of the Warren Democracy, or did he not? Show your hand.

-The Journal wants to know of us, who the "Snakeville Poick" of the Philadelphia Press is. We refer him to Dr. Shelton Mackenzie. for further information.

WARREN .- The largest board raft that ever floated down the Allegheny river, passed this place on Thursday morning last. It contained 600,752 feet of boards, of which 390,000 were clear stuff. This single raft could not have been worth less than \$12,000. The lumber was manufactured by Mr. Joseph Hall at his celebrated mills in Mead township, on the Tionesta creek. The boards were rafted under the superintendence of Cant. James Martin, of Pine Grove, and he pilots the big raft himself .- Led-

LYCOMING .- The Muncy Luminary says that an Irishman named Michael Lyons was drowned in the dam in that town, on Friday night last. He walked off the embankment and being drunk at the time, was unable to get out. Another victim of Run. Fifty-three of the most prominent citizens of Jersey Shore have signed the call for the anti Buchanan Democratic Convention, to be held at Harrisburg on the 12th of April. Among them we notice James Gamble. formerly Representative to Congress from that District.—The Lycoming Gazette (Dem.) pitches into the late State Convention:

"The voice of the Democracy of Pennsylvania was stifled from the very outset, and the principles and welfare of the party openly scouted throughout. A total lack of everything assimilating to fairness characterized the actions of the presiding officer from the first to the last, so that honest sentiments could find no chance for expression. Even common decency was not observed, in the very madness which ruled the hour. Never before was the Democratic party so grossly outraged by an assemblage. Some of the very best and purest of its leaders-men who have spent their whole lives in promoting its welfare, were maligned, traduced, belied—insulted in every way."

CLEARFIELD .- An exchange says that a German named Crab, while out hunting came across a bear trap, and never having seen one before, he entered for the purpose of examining it, but unfortunately touched the trigger, and was shut up. In this predicament he remained two days,, nearly dead from hunger and cold. when the man who set the trap came to examine it, and found that instead of a bear, he had caught a Dutchman.

BRADFORD.-On Wednesday, the 23d, the body of Mrs. Beam, wife of Adam Beam, was found in Towanda creek, about seventy rods below her dwelling in Monroe township, a short distance south of Monroe borough. Marks of violence appearing on her person, a Coroner's inquest was summoned, and a post mortem examination made by Drs. Mason and Newton. The result showed that she had received several wounds upon the head, not sufficient, however, to produce death, and had probably been thrown into the water when insensible from the effect of the blows upon the head. The Coroner's In-

AYER'S SARSAPARILLA.

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an affective antidote for the diseases Sarsagarilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumons complaints and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens.—How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the

into the water when insensible from the effect of the blows upon the head. The Coroner's Inguest returned a verdict that the deceased came to the redeath by violence at the hands of some person unknown.

Suspicion does not point strongly enough to any person to warrant an arrest. Mrs. Beam was at home, alone, a short time before her body was found in the water, her husband being at work, rafting, at the mouth of the creek. A son, who had that day been released from jail, in the meantime, went to the house, but says his mother was not at home, and he left for another dwelling at some distance.—*Reporter.

invites all who want a really good Mower and keaper, to examine it before purchasing any other ma-chine. It is superior to all other Mowers and Reapchine. It is superior to all other Mowers and Ranpers in use, in the following particulars: It is the lightest in use; is strong and durable; requires less draft than any other machine; has no side draft though it cuts a wide wath; will work on rough ground where no other machine can follow it; very difficult to be clogged in any kind of grass, be it wet or dry; is simple in construction and not liable to get out of repair; is a perfect combined machine; working equally well, whether mowing or renping; and is the CHEAPEST in price, the Mower being only \$105 and the combined machine \$130-imaking it altogether the most desirable Mower and Reaper in market. Call at the Tin and Stove Store and examine for yourselves.
