

THE AGITATOR.

WELLSBORO PENNA. Thursday Morning, April 14, 1859.

Address before the Tioga County Agricultural Society, at its Annual Fair, on the 30th of September next.

We are glad to be able to announce that Hon. C. GREELY has consented to deliver the Address before the Tioga County Agricultural Society, at its Annual Fair, on the 30th of September next.

We desire to call attention to the new arrangements. It will be seen that the mail to Tioga, closes an hour earlier than before, in consequence of a change of time on the Blossburg and Corning Rail Road.

Most of our merchants have gone to the cities to purchase their Spring stock of Goods. Of course, they intend to let the readers of the Agitator know what they have bought. Look out for the advertisements next week.

The National Era and the McKean Citizen acknowledge that publishing a chapter of a sensation story and referring to the N. Y. Ledger for the balance is nothing less than humbugging their readers. They are on our list of informed advertisers.

The Republicans of Susquehanna county held a Mass Convention at the Court House in Montrose, on Monday evening the 11th inst., for the election of delegates to the Republican State Convention. Hon. G. A. Grow was advertised to address the meeting. It is not time the Republicans of Tioga County were doing something in this direction?

We have received from Messrs. Fowler & Wells of New York the Water Cure Journal and Phenological Journal for April. The latter gives Biographical and Phenological sketches of Ward, the inventor of the steam ice-cream, and Rev. J. W. Jackson the great Indiana Methodist preacher. It also contains a scorching article on Free Love. Subscription \$1 a year each.

Have you seen the Traveling Drug Store? If you have not, you will be gratified to know. Dr. Watts, (not the man who wrote the hymns but the other one) the late gentlemanly clerk of Messrs W. A. Roe & Co. has fitted up a handsome establishment of this kind, and is freighted with almost everything needed in a family. The Doctor intends visiting every part of the County. We wish him success.

Mr. D. W. Canfield of Naaroo, showed us a model of a patent adjustable double mould-board plow, invented by John M. Burke, a farmer living near Dansville, N. Y. For hilling corn, it is represented to be far superior to any horse plow, Plow or Cultivator now in use. Some of the most prominent and practical farmers in the Genesee Valley have certified to its superior usefulness, and with such vouchers it cannot fail to secure a fair trial. Mr. Canfield has secured the patent right for this, and some of the adjoining counties. Farmers will do well to examine this machine before purchasing elsewhere.

We have received from a Wholesale Liqueur Dealing Firm in Rochester, N. Y., an advertisement which describes in all the eloquence of advertising phrase, the different beverages which are kept constantly on hand, from the choicest vintages of the Rhine, down to that peculiar American beverage which is supposed to kill at forty rods. We are always glad to receive paying advertisements but we decline this favor. We are opposed to the Ram traffic in every shape and form, believing as we do, that the use of intoxicating beverages is a curse to society and a blot upon civilization. It is true that we number among those engaged in the business of selling liquors, some warm personal friends; nevertheless we despise the business, and we hope to see the day when not a drop of liquor will be sold in this county. We need not now repeat the evils to which this traffic gives rise—how it desolates hearthstones—how it robs men of their energy, morals, and even their very lives. Neither need we point to the common drunkard, his abused wife and children—how he is despised, and they commiserated by the best part of every community. These are old stories, but they are true. No; we cannot take money for such an advertisement.

TO CORRESPONDENTS. "Leaves by the Wayside" will appear next week. Thanks. The person who looked through his (or her?) window, and saw "too beautiful dars," etcetera, must send his name. "Fair Play" is too late for this week.

A "Constant Reader" will be gratified. The music must not be "dragged." Here are the words:

THE MOCKING BIRD. I'm dreaming now of Italy, sweet Italy, sweet Italy; I'm dreaming now of Italy, sweet Italy, sweet Italy; For the thought of her is one that never dies; She's sleeping in the valley, the valley, the valley; And the mocking-bird is singing where she lies. Chorus.—Listen to the mocking-bird, Listen to the mocking-bird, The mocking-bird still singing 'er bor grave; Listen to the mocking-bird, Listen to the mocking-bird, Still singing where the weeping willows wave. All well I yet remember, remember, remember; All well I yet remember, When we gathered in the cotton side by side; 'Twas in the mild September, September, September; 'Twas in the mild September, September, September; And the mocking-bird was singing far and wide. Chorus.—Listen to the mocking-bird &c.

When the charms of spring awaken, awaken, awaken, When the charms of spring awaken, awaken, awaken, I feel like one forsaken, forsaken, forsaken, I feel like one forsaken, forsaken, forsaken, Since my Italy is no longer with me now. Chorus.—Listen to the mocking-bird &c.

AYER'S SARSAPARILLA.

A most eminent remedy, in which we have labored to produce the most efficient and effective medicine. It is a concentrated extract of Para-Sarsaparilla, so combined with other substances of still greater alternative power as to afford an effective and permanent cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one who has been afflicted with this disease, and who has been unable to procure relief from any other medicine, will find in this compound what he has been seeking in vain elsewhere.

This compound will be found a great promoter of health, whether in the spring, to keep the four humors which fester in the blood at that season of the year. By the timely application of this medicine, the most distressing eruptions of the skin, through which the system will strive to rid itself of impurities, are prevented, and the system is purified by a natural process of the body by an alternative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when to do so.

During the winter the public have been misled by large bottles, pretending to give a quart of extract of Sarsaparilla for one dollar. Most of these have been found upon the shelves of the druggists, and it is a pity that any person who has not a charitable property whatever. Hence, bitter and painful disappointments have followed the use of the various preparations of Sarsaparilla which find their way to the name of Ayer's Sarsaparilla, and has become synonymous with imposture and cheat. Still we call this compound Sarsaparilla, and we do so because it is the only one that we have known to be of any benefit to the human system. In order to secure their complete eradication from the system, the remedy should be judiciously continued until the blood is completely purified.

PREPARED BY DR. J. C. AYER & Co., Lowell, Mass. Price, \$1 per bottle; Six bottles for \$5.

PARRELL, HERRING & CO'S PATENT CHAMPION SAFE.

LATE FIRE AT DUBUQUE, IOWA. Gents: I am requested by Mr. T. A. Cochran of this place, to say to you that on the morning of the 4th inst., about 3 o'clock, his store took fire, and the entire stock of goods was destroyed. The loss was not estimated, but it is believed that the loss could have been saved; but unfortunately his books and papers were preserved in one of your Champion Safes, which were preserved perfectly. And well they may be called Champion, for during the whole conflagration there was no inconstant pouring of flame directly upon the safe, and it was not until the fire had subsided, that the inside was found to be severely scorched. Yours truly, N. A. McCLURE.

HOW TO MAKE BUTTER.

USE the New Machine invented by E. A. Smead, to operate your common Dash Churns, it can be applied to any size. You can regulate the stroke to any required length from two to fourteen inches, by the adjustable wrist pin in the fly wheel by which motion is imparted to the dash. A child can operate it with ease. See that the inventor's name is on the machine before you purchase. PRICE, FIVE DOLLARS.

This machine is the result of three years' experiments, and is believed to be the best in the world to perfect. I obtained a glass churn last year in which I could witness the agitation produced by the different length stroke, this showed the advantage of having the adjustable wrist pin, as the stroke must be in proportion to the size of the churn. On my first trial I think the machine would be hard to beat.—[W. J. Davis, Memphis, Tenn.]

"I find the machine easily managed, very durable, and take pleasure in recommending it to all who wish convenience, economy, and pleasure.—Mrs. F. Titus, Memphis, Tenn."

"The Grover & Baker sewing machines have given such satisfaction that we cheerfully recommend them to all who wish a good and substantial sewing machine. It executes work with much care and speed, and more finely than any other machine I have seen.—[Mrs. R. Mitchell, Memphis, Tenn.]

"I am happy to give my testimony in favor of Grover & Baker's sewing machine, and of the perfect satisfaction it gives in every respect. It sews neatly, and is by no means complicated, and I prefer it to all others I have seen.—[Mrs. Bryan, wife of Rev. A. M. Bryan, Memphis, Tenn.]

"It affords me much pleasure to say, that the Machine works well; and I do not hesitate to recommend it as possessing all the advantages you claim for it. My wife is very much pleased with it, and we take pleasure in certifying to this effect.—R. C. Brinkley, Memphis, Tenn."

"Having seen, examined, and used many other kinds of sewing machines, I feel free to say that the Grover & Baker machines are far superior to all others in use.—[M. Francis Selig, Nashville, Tenn.]

"I consider my sewing machine invaluable, and would not take five times its cost, if I could not supply it. With it I can do all my family sewing in about one-fourth the time I could with my hands.—[M. J. Scott, Nashville, Tenn.]

"It gives me pleasure to find the Grover and Baker sewing machine giving so much satisfaction. I have it in constant use, and find it all that could be desired. It is the most simple and durable machine I ever saw. I heartily recommend it.—[F. M. White, Memphis, Tennessee.]

"If Homer could be called up from his murky shades, he would sing the advent of Grover & Baker as a more benignant miracle of art than was ever Vulcan's snuff. He would denounce midnight shirt-making as the direful spring of woes unnumbered.—[Prof. North.]

"I take pleasure in saying, that the Grover & Baker Sewing Machines have more than sustained my expectation. After trying and returning others, I have three of them in operation in my different places, and, after four years' trial, have no fault to find.—[J. H. Hammond, Editor of South Carolina Courier.]
