AYER'S SARSAPARILLA.

AVER'S SARSAPARILLA.

A compound remety, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated exerct of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an affective autidate for the diseases Satsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens.—How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—Sciofula end Scrofulous Complaints, Eruptions and Finpire Diseases. Ulcers, Pinpies, Blotches, Timnors, Sait Rheum Scald Head, Sphillis and Syphilic Affections, Mercudal Disease, Dropey, Neuralgia or Tie Doulomeux, Debility, Dyspepsia and Indigestion, Errsipelas, Rose or St. Authony's Fire, and indiced the whole class of complaints aising from impririy of the blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will stire to rid itself or corruptions, if not assisted to do this through the natural channels of the body by an alterative modicine. Cleanse out the victually which the system will stire to rid itself or corruptions, if not assisted to do this through the natural channels of the body by an alterative modicine. Cleanse out the victual has and alterative modicine, or or learer something must go wrong, and the great machinery of life disordered, there can be no lasting health. Soonor or later something must go wrong, and the great machinery of life disordered in overthown.

Sarsaparilla has, and deser

tracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pietending to give a quart of Extract of Sarsaparilla for one dellar. Most of these have been frunds upon the sick, for they not only contain little if any Sarsaparilla, but often us curative properties whatever. Hence, bitter and panfold disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name uself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the discuses it is incaded to corne. In order to secure their complete cradication from the system, the remedy should be judiciously taken according to directions on the bottle.

THE Subscriber is selling this valuable machine and invites all who want a really good Mower and Reaper, to examine it before purchasing any other machine. It is superior to all other Mowers and Reapers in use, in the following particulars: It is the lightest in use; is strong and durable; requires less draft than any other machine; has no side draft though it cuts a wide swath; will work on rough ground where no other machine can follow it; very difficult to be elogged in any kind of grass, be it wet or dry; is simple in construction and not liable to get out of repair; is a perfect combined machine; working equally well, whether mowing or reaping; and is the CHEAPEST in price, the Mower being only \$105 and the combined machine \$130-making it altogether the most desirable Mower and Reaper in market. Call at the Tin and Stove Store and examine for yourselves.

Philadelphia, April 12th, 1856.

Messas Evans & Warson.—Gentlemen.—It affords as the highest satisfaction to state to you, that owing, to the very protective qualities of two of the Salamander Safes which we purchased of you some two months since, we saved a large portion of our jewely, and all our books, papers, &c., exposed to the cal mittons fite in Ranstead Place, on the morning of the 11th instant.

When we reilect that these safes were located in the fourth story of the building we occupied, and that they fell subsequently into a heap of burning runs, where the vast concentration of heat caused the biase plates to melt, we cannot but regard the preservation of their valuable contents as most conviucing proof of the great security afforded by your Safes.

We shall take much pleasure it recommending them to men of business as a sine reliance against fire.

Gents: I am requested by Mr. T. A. C. Cochrane, of this place, to say to you that on the morning of the 4th inst., about 3 o'clock, his store took fire, and the entire stock of goods was destroyed. The heat hecame so suddenly intense that none of the goods could possibly be saved; but fortunately his books and papers which were in one of your Champion Safes were all preserved perfectly. And well they may be called Champion, for during the whole conflagration there was one incessant pouring of flame directly upon the Safe which contained them. And still upon opening it, the inside was found to be scarcely warm, while the outside was most severely scorched. Yours truly, N. A. McClure.
