The scion looks quite healthy. The Sivil Poor is just receiving from New York aren fine assortment of Groceries and Provisions, a rely must be up in his new store. He says he intends to let the public know what he has on hand

G. H. Avery, Esq. of Owego, N. Y., a young man of good business tact, has become associated in the proprietorship and business management of the New York Saturday Press. The paper is edited by T. B. Aldrich, the Poet, and is devoted exclusively to Liurature and Art.

The readers of the Democrat will be glad to tearn that C. G. Williams, Esq., the Editor, has returned to his post after an absence of some weeks. Mr. W. looks as if he had been among friends, We hope that the next time he goes away, he will leave some one in his place who understands the common reles of English Grammar, and the common courtesies are from one member of the editorial traft to another.

Accident .- On the afternoon of the 5th inst., while ereral boys were amusing themselves in a swing near own, one of the number, Oris Sofield, son of John Sofield, in attempting to swing while standing upon his feet, was unable to retain his hold and fell to the gound, breaking his leg by the fall. He was immedistely conveyed to the residence of his brother, Mr. L. J. Sofield, where the broken limb was set. It was the right leg that was broken, above the knee.

We regret to learn that about 2 o'clock on the perning of the 27th ultimo, a fire occurred at Lawenceville in this county, by which the Foundry and Machine Shop of Jas. Kinsey, Esq., were entirely desmoved. The fire originated in the rear end of the gain building, and the flames spread rapidly to the cher buildings. The Lawrenceville Fire Company vere on the ground with their engine, and though they were unable to save the Foundry, they undoubtedly prevented the spread of the fire, and thereby actually mved at least \$20,000 worth of other property which mut have been burned had they not been present. Refore bed time Mr. Kinsey went into the Foundry and satisfied himself that all was right, as usual, and from this circumstance as well as the fact that the fire boke out in the main building and not in the boiler room, the belief prevails that the fire was the work of a meendiary. Some castings and patterns only were gred. Loss \$7,000. No insurance.

23 The weather for the past week, has, to say the but of it, been quite interesting. Saturday was cold, ad chilly, and seemed more like the last day of Octibet or the first day of March, than the 4th of "leafy Jane." Everybody knew a "freeze" was soon to be "on hand," and preparations were made accordingly. Blankets, quilts, boxes, dishes, tubs and pails were brought into requisition, and inverted over the more tenier plants, flowers and vines in the gardens. But the frost was so severe, that even these precautions did but little good. The mercury fell to 26 degrees, and a friend informs us that ice formed in a tub of water in his door-yard to the thickness of one-fourth of an inch. There was also a frost on Sunday night, though less severe. Of course, "garden sass" suffered, and we fear that the wheat and rye crops are entirely killed in this vection.

We learn that our Bradford County neighbors on the East, and Steuben County neighbors on the North did not suffer so severely and we are glad to know that the frest was not general.

Adjoining Counties.

CLINTON.-The Lock Haven Watchman comes to us this week in new type, an evidence of its prosperity which we are glad to notice .- The Clinton Democra and the Montrose Herald both claim to have originally mitten the following apology, which is as old as coun

"We intended to have a death and a marriage to publish this week, but a violent storm prevented the widing, and the doctor being taken sick himself, the patient recovered, and we are accordingly cheated out of both." We see by an exchange that there were over thirty

Commonwealth cases presented for trial at the last tem of Court at Lock Haven. This state of things my be accounted for by the fact that there is a railtad being built through that county.

We presume the following reasons would come much tener to the truth :

I because the Gazette was afraid that the Buchanu Bemocrate would start a new paper in Williamsport, a opposition to Packer, Forney and Douglas, which hould soon run the Gazette "into the ground."

Because the Gazette has been so long accustomed to the Slave Power that it had become like Mond nature to it, and it did not know how to get

dong by doing anything else. The Jersey Shore Vedette says that an inventive

Takee has produced an apparatus which he claims hactre for snoring. It fastens upon the mouth, a Sth percha tube, leading to the tympanum of the Whenever the snorer snores, he himself receives the first impression, finds how disagreeable it is, and, of course, reforms. If the inventor would only get ent a patent for it, and give it some such name as
the Celebrated Self-connecting, Self-disconnecting Energy, he might make a fortune by selling it, and be tabled to start a Democratic paper with the proceeds We learn from the Vedette that last Friday morning Whit, David Reed, at Phelps' Mills, (late of Wells-

boro) was preparing to do some washing and had just poured out some boiling water into a tub, her little daughter, a child of about three years of age, came in and asked for a piece. Her mother turned round o get her a piece, when the child moved backwards and fell into the tub. Her mother was within reach and caught her out in an instant, but the water was so fearfully hot that she was fatally injured. She ling. ered in terrible suffering until Saturday morning when death kindly interposed and released her from her pains. She was a remarkably intelligent child.

Book Notices.

The Printer is a very neatly printed Monthly, devo-ted to the diffusion of intelligence in regard to "the art preservative of all arts." We have received the first number of the second volume. It is published by John Henry, No. 1, Spruce Street, New York, at the low price of One-Dollar a year.

MESSRS OLIVER DITSON & Co., 277 Washington St. Boston, have kindly sent us a number of excellent songs just published by them. We find among them "'Tis sweet to be remembered," a beautiful song by John S. Adams; "Lo vidi e'l primo palpito," by Verdi; "O take me from these marble halls," by Lilly Waters; "Dark day of horror," a Duet from Semiramide, with brilliant variations; "Mary May," and "What's a Fear?"-two very beautiful ballads.

Any of these pieces may be had free of postage by remitting 25 cents to the publishers.

Hints Toward Priston Perfection: On the

HINTS TOWARD PHYSICAL PERFECTION: OR THE PHILOSOPHY OF HUMAN BEAUTY; showing how to Acquire and Retain Bodily Symmetry. Health, and Vigor; secure Long Life; and avoid the Infirmities and Deformities of Age. By D. H. Jacques. New York: Fowler and Wells, publishers, 308, Broadway. Price one Doller. one Dollar.

This is a work which, if we mistake not is destined to command almost universal attention, and awaken everywhere a deeper interest in the physical improvement of the race than has yet been manifested; as it shows how certain and easy this improvement may be made by the use of the perfectly legitimate means therein pointed out. Its revelations of the laws of human configuration, on which symmetry and beauty depend, are not less interesting and important than they are novel and surprising; showing, as they do, that the form and features of even the mature man or woman (and much more those of the child) may be modified at will, and to an almost unlimited extentthat we have the power to change, gradually but surely, the shape and arrangement of bone, fiber, and fluid thus growing, day by day, more beautiful or more ugly, according to the direction given to the vital for

It will be found deeply interesting to both sexes (but especially to women) and to all ages; and we earnestly commend it to all for whom health, strength and beauty have any attractions; to parents, as a guide to the right performance of their all-important functions and duties; to teachers, who may learn from it how to develop the minds and bodies of their pupils harmoniously together; to young women, who will not look in vain in its pages for the secrets of that womanly beauty and personal attractiveness which they very properly desire to possess; and to young men, who will find it a manual of rules for the development of those high qualities of physical vigor and manliness which will command the admiration of their own sex no less than the love of the other. Illustrated with twenty plates and a large number of cuts, executed in the highest style of art.

IMPORTANT IMPROVEMENT.

In putting up FINE CUT CHEWING TOBACCO, has been adopted by Messrs. E. GOODWIN & BRO. of New York City.

Tobacco, of the best quality, is selected, neatly wrapped in Tin Foil, and Patent Pressed.

The great advantages of this over other brands con sist in the size of the packages, rendering it more con venient to carry in the pocket, and by being PRESSED Solid it keeps Moist and Fresh, and improves in quality as it is used; while in other brands, as soon quanty as 10 is used; while in other branes, as soon as the package is opened the quality rapidly deteriorates—the theace growing dry—and littering the pocket, to the great annoyance of the consumer. The Dressing which the Fine Cut Tobacco undergoes in the process of manufacture, frees it from all grit or impurities so objectionable in the use of Plug Tobacco Chewers will do well to give the Patent Pressed a trial

and judge for themselves. For sale by H. Westcott & Co., who receive it direc from the Manufacturers. E. GOODWIN & BRO., June 9, 1m. 207 & 209 Water st., New York.

OXYGENATED BITTERS.

OXYGENATED BITTERS.

For the cure of DVSPLESLA OR INDIGESTION, LIVER COMPIGINE, Asthma, Costiveness, Loss of Appetite, Fever and Ague, Heart Burn, Water Brush, Acidity, Sea Stechness, Scurvy, Nausea, Headache, Ennui, and General Debility, or any disease having its origin in imperfect digestion.

These Bitters, as all classes of our fellow citizens, including Members of Congress, Lawyers, Physicians, Clergymen, Planters, Farmers and others testify, are the only safe, certain and sovereign specific for the immediate relief and permanent cure of the many cruel complaints which in some phase or other of Dyspless and Congress, Lawyers, Physicians, Clergymen, and in their formula differ entirely from that of any other preparation of medicine. Containing no alcohol—no mineral—no poison—no noxions drug,—in their nature tonic, not stimulating,—retaining their virtues in any clime: they are a "combination and a form indeed" of Medicine which knows no rival in exterminating disease and restoring the system to its pristine vigor and health. No matter of how long standing, or however induced or chronic in its character the disease may be—no matter that it has haffled the skill of the physician, and resisted the efforts of Medicine, a single tria of these Bitters will satisfy the sufferer that his disease sil amenable to the proper remedy.

E. A. SMEAD'S PATENT,

EL SMEATS PATENTA For Converting Rotary into Reciprocating Motion, and Vice Versa.

PATENTED FEBRUARY 15, 1859. PATENTED FEBRUARY 10, 1859.

10 Manufacturers, this Invention is of great importance, as either motion is converted into the other by a simple arrangement of means, and with the least possible loss or absorption of power by friction, and applicable to every Machine where these two motions are required. The Cut shows the principle as applied to Common Dash Churns. The undersigned have purchased the Patent Right for this county, and are manufacturing and selling at the low price of \$5. It is conceded to be the best arrangement for churning Milk or Crean ever invented.
