three o'clock in the afternoon, and about six, some children returning from school found her in her house dead. No one was with her except an idiot daughter, who is incapable of giving any account of the matter. An inquest was held the same evening by E. P. Youghman, Esq., and a verdict rendered by the jury of death from natural causes. The deceased was formerly the wife of a Mr. Kinley who died some years ago. A short time ago she was married to Jos. Kibbie, but matters not suiting her taste she left him and had been living alone with her unfortunate daughter at

her old residence. THE FREEZE.—Saturday last was decidedly cold and disagreeable for the fourth day of Summer, and was followed by a "right smart" frost on Sunday and Monday mornings. It inped the beans in our gardens but was not heavy enough to do any other damage. On Friday during the storm, we learn it both hailed and snowed on the mountains north of us.— Muncy Luminary.

"Rejoice and be glad all ye citizens of Lock Haven, for your worthy Fathers, the Town Council, have at last aroused from their death like slumbers, and made one effort for the benefit of their constituents, by passing a law, which was brought to their notice by this paper, compelling the owners of all dogs, whiffets, curs or terriers, to either the or muzzle the same, to prevent them from biting persons who may be unfortunate enough to come in contact with the aforesaid canine animals. The Watchman says that in Millford in this State recently, one Dr. Charles Bonneville, a Frenchman, after abiding in jail a few days on charge of being the father of a forthcoming offspring of a colored girl, "compromised" the matter by forming a matrimonial "union" with her. As he is a good Democrat, the Shamocrat papers make no fuss about it.

THE FREEZE.—On Sunday morning it was discovered that there had been a prety severe frost which had done considerable damage to the gardens. It was found necessary to have fire in the churches in order to make them comfortable. Since that time it has moderated some, and at the present writing the weather is pleasant. We see by our exchanges that hailstorms have occurred in many parts of the country.—

M¢KEAN.-On Monday night last the Dwelling House of John Dexter situated about 2 miles below Port Allegany toward Larabee's, was burned to the ground. That it was the work of an incendiary the people in that vicinity generally believe. There was no fire in the house after 4 o'clock in the afternoon.— About midnight Mr. Dexter was aroused by the crack-ling noise of wood burning, and upon getting up and opening the back door he discovered his wood house in opening the back door he discovered his wood house in flames. There was no stove in that part of the house, neither was there any substance from which a fire would be very apt to start unless created by human agency. Most of the property in the House was destroyed with it.

P. S.—Since the above was in type we learn that a man by the name of Robbins has been arrested on suspicion and lodged in jail.—Citizen.

Chewing Tobacco.

-AN-IMPORTANT IMPROVEMENT.

In putting up FINE CUT CHEWING TOBACCO,

has been adopted by Messrs. E. GOODWIN & BRO., of New York City.

Tobacco, of the best quality, is selected, neatly

wrapped in Tin Foil, and Patent Pressed.

The great advantages of this over other brands consist in the size of the packages, rendering it more convenient to carry in the pocket, and by being Pressed Solid it keeps Moist and Fresh, and improves in quality as it is used; while in other brands, as soon as the package is opened the quality rapidly deteriorates-the tabacco growing dry-and littering the pocket, to the great annoyance of the consumer. The Dressing which the Fine Cut Tobacco undergoes in the process of manufacture, frees it from all grit or impurities so objectionable in the use of Plug Tobacco. Chewers will do well to give the Patent Pressed a trial

and judge for themselves.

For sale by H. Westcott & Co., who receive it direct from the Manufacturers. E. GOODWIN & BRO., June 9, 1m. 207 & 209 Water st., New York.

Mausea, Headache, Ennui, and General Debility, or any disease having its origin in imperfect digestion.

These Bitters, as all classes of our fellow citizens, including Members of Congress, Lawyers, Physicians, Clergymon, Planters, Farmers and others testify, are the only safe, crain and sovereign spectro for the immediate relief and permanent cure of the many cruel complaints which in some phase or other of Dyspersta afflict our race.

These Bitters were discovered by Dr. George B. Green, and in their formula differ entirely from that of any other preparation of medicine. Cortaining no alcohol—no mineral—no poison—no noxions drug,—in their nature tonic, not stimulating,—retaining their virtues in any clime; they are a "combination and a form indeed" of Medicine which knows no rival in exterminating disease and restoring the system to its pristine vigor and health. No matter of how long standing, or however induced or chronic in its character the disease may be—no matter that it has baffled the skill of the physician; and resisted the efforts of Medicine, a single tria of these Bitters will satisfy the sufferer that his disease sil anienable to the proper remedy.

In testimony of the many cures effected by this Remedy reference is had to the written certificates from distinguished individuals known all over the land.

These Machines sew from two spools, as purchased from the store, requiring no re-winding of thread; they em, Fell, Gather, and Stitch in a superior manner, finishing each seam by their own operation, without recourse to the hand-needlo, as is required by other machines. They will do better and cheaper sewing than a seamstress can, even if she works for ONE CENT AN HOUR, and are, unquestionably, the best Machines.
