AVER'S SARSAPARILLA.

AYER'S: SARSAP-ARTILLA.

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an affective autidots for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens.—How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Sait Rheum Scald Head, Spphilis and Spphilitic Affections, Mercurdal Disease, Dropsy, Neuralgia or Tie Douloureux, Debility, Dyspepsia and Indigestion, Eryspelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from impurity of the blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will stive to rid itself of corruptions. If not assisted to do this through the natural channels of the body by an alterative medicine. Ceases out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or cores; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood.—Keep the blood healthy, and all is well; but with this paburally of the surface of the corruptions of it, but more because many preparations of it, partly bec

has won for itself such a renown for the cure of every variety of Throat and Lung Complaints, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant mee throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

THE Subscriber is selling this valuable machine and invites all who want a really good Mower and Reaper, to examine it before purchasing any other machine. It is superior to all other Mowers and Reapers in use, in the following particulars: It is the lightest in use; is strong and durable; requires less draft than any other machine; has no side draft though it cuts a wide swath; will work on rough ground where no other machine can follow it; very difficult to be clogged in any kind of grass, be it wet or dry; is simple in construction and not liable to get out of repair; is a perfect combined machine; working equally well, whether mowing or reaping; and is the CHEAPEST in price, the Mower being only \$105 and the combined machine \$130—making it altogether the most desirable Mower and Reaper in market. Call at the Tin and Stove Store and examine for yourselves.

233 This Reaper took the first prize at the State Fairs of New York and Indiana against all competitors. It also took the prize at the Tioga County Fair last Fall.

fully warranted the representations which have been made of them as rendering an undoubted security against the ter rific element: MESSES EVANS & WATSON.

MISSES EVANS & WATSON.—Gentlemen,—It affords us the highest satisfaction to state to you, that owing to the very protective qualities of two of the Salamander Safes which we purchased of you some two months since, we saved a large portion of our jeweiry, and all our books, papers, &c., exposed to the calamitous fire in Ranstead Place, on the morning of the 11th instant.

When we reflect that these safes were located in the fourth story of the building we occupied, and that they fell subsequently into a heap of burning rains, where the vast concentration of heat caused the brass plates to melt, we cannot but regard the preservation of their valuable contents as most convincing proof of the great security afforded by your Safes.
