particle stages of the disclass. So wide is the field of usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesi-tate what antidote to employ for the distressing and danger-ous affections of the pulmonary organs that are incident fo our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained trands he verer trial, conferred benefits on the afflicted they community have tailed and been discarded. this has galact frends by every trial, conferted benefits on the afflicted they can never forget, and produced cure too numerous and too remarkable to be forgotten.
