-CHALLENGE TO M. BLONDIN BY THE "LOCAL" CHALLENGE TO M. He will then un-load himself, and immediately go to bed. After a snooze of 15 minutes, he will rise, dress himself, take a glass of beer, milk the cow, kill the hog and dress it, cook fresh pork for breakfast, after which he will eat a wolf's meal. SCROFULA, OR KING'S EVIL,

SCROFULA, OR KING'S EVIL, is a constitutional disease, a corruption of the blood, by which ithis fluid becomes viriated, weak and poor. Being in the cir-cultation if perrades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrobulous taint is variously caused by mercurial disease, low living, dis-ordered or unhealtby food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who asys, "I will visit the iniquities of the fathers upon their children." Its effects commence by deposition from the blood of cor-rupt or ulcerous matter, which, in the lungs, liver, and in-ternal organs, is termed tabercles; in the glauds, awellings; and on the surface, eruptions or sores. This foul corruption which genders in the blood, depresse the energies of life, so that acrofulous constitutions not only suffer from scrofulous complaints, but they have'far less power to withstand the attacks of other diseases; consequently, vast numbers periah by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

of an tue organs, arise from or are aggravated by ine same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is un-dermined by it. To cleanse it from the system we must ren-ovate the blood by an alterative modicine, and invigorate it by healthy food and exercise. Such a medicine we supply in AYER'S Compound Extract of Sarsaparilla.

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this corrywhere prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescae of the system from its de-structive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Biotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Merca-rial Diseases, Dropsy, Dyspepsia, Debility, and indeed AL Complaints arising from vitiated or impure Blood. The pop-ular behef in "IMPENTY or THE BLOOD" is founded in truth, for Scrofula is degeneration of the blood. The particular purpose and witne of this Sarsaparilla is to purify and re-generate this vital fuid, without which sound health is im-possible in contaminated constitutions. AYER'S CATHARTIC PILLS.

AYER'S CATHARTIC PILLS. FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleause, and invigorate every portion of the humau organism, correcting its diseased action, and restoring its healthy vitalities. vanced stages of the disease. So wide is the field of usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesi-tate what antiduct to employ for the distressing and danger-ous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained triends by every trial, conferred benefits on the afflected they can never forget, and produced cure too numerous and too remarkable to be forgottem. SPECIFIC

HUMPHREYS'

THE GREAT FEATURE Of this series of Domestic Remedies is that each par-ticular medicine is a SPECIFIC for the particular disease or class of diseases whose name it bears, and may be relied upon for the cure of that particular affection. Hence, persons suffering from a chronic disease or long-standing ailment, in buying a case of HUX-FHRETS SPECIFIC, obtain the particular one desired in their case, and thus themselves make a cure which otherwise would cost them many dollars, and no small amount of time and medical attendance, if, indeed, it could be obtained at all. Thus multitudes suffer from Dyspensia, Bilious Con-dition, Costiveness, Bad Tastc, Coasted Tongue and De-bility, which is perfectly controlled and cured by the DYSPEFSIA SPECIFIC.

DYSPEPSIA SPECIFIC. DYSPEPSIA SPECIFIC. There is scarcely a phase or form of this disease which is not promptly controlled and ultimately cured by the use of this Specific. Thousands who have suffered for years with this. "Billous condition" having purchased a case of these Specifics, have obtained perfect cure and immunity from their old complaint.

Many cases of long standing Bronchitis and irritating Coughs have been perfectly cured by this specific. But more! many persons have a specific liability to colds and take them from the least exposure. This will be entirely relieved by the use of Cough Pills, as scores can testify from experience. So

Catabrii Catarrh

CATARRH is one of our most common and most troublesome dis-eases, against which the Old School Modicines and even Homopathic prescriptions, are of very little use. Yet hundreds of persons have been cured of not only recent and fresh, buteven long standing and obstinate cases of Catarrh by the use of this specific. One aged lady in Syracuse was thus perfectly cured of a Catarrh, which had annoyed her all her life. And a young lady at one of our first class boarding schools, who was so afflicted with this disease as to require more than forty handkerchiefs 'a week, was entirely cured in a single week by this Specific.

PILES,

True, time is required; but the Specific is pleasent to take, requires ueither diet nor restraint, and being followed up, a perfect cure is the result. Hundreds of persons, in purchasing a case of Specific here a obtained a in purchasing a case of Specifics, have obtained a cure for this most trying and obstinate form of disease, which has been worth to them ten times the cost of the entire set. Cases of over twenty years' standing have been cured with this simple Specific, and wo be-liars all work to much be support to the start of the set. lieve all may be cured by perseverance. It prevents or protocts upon the samo principles that vaccination provents small.pox or bella-dona prevents scarlet fever, by pre-occupying the sys-tem with the true Specific. Hundreds have been thus pretected and agued protected and cured.

THE OPHTHALMY SPECIFIC has proved a most invaluable remedy for Sore Eyes and Eyelids, and for Weak and Blurred Sight. One lady in Indiana, who had been a sufferer from sore oyes for many years, and for two years was entirely blind, was cured perfectly by the Ophthalmy Specific alone.
