Altogether the muster did not evince an extraordinary degree of "military pride and cir-cumstance;" nor could it be considered in the light of great promise for the future. Doubtless the unfortuaste state of the weather must be taken into considertion, as also the fact that the companies had not received their arms from the State. It was likewise the first general parade of the majority present.

Charleston improvised a company of "Fantastics," numbering upwards of sixty mounted men, whose equipments beggared description. They were quite moderate in their doings and did not intrude themcelves upon the "regulars." After the disbanding of the troops, which occurred at five o'clock in the afternoon of Friday, a fight or two among the speciators seemed to be inevitable. It fell out, however, that there was "more talk than cider" between the malcontents, and the skrimmage did not result in broker heads and bloody noses.

The Emira Daily Press of Thursday has a length.

The Elmira Daily Press of Thursday, has a lengthy and interesting account of the exposure of a bogus lottery concern in that place, resulting in the implication and arrest of P. B. Daily, ex School Commissioner of that county. The Press characterizes it as "one of the most astounding and audacious schemes for swindling the public that the records of fraud and forgery ever exhibited. It further says:

"The development indicates Philo B. Daily, late School Commissioner of this County, as the originator of the fraudulent scheme. It appears that two different advertisements have been forwarded to and published in public newspapers throughout the Southern lished in public newspapers throughout the Southern States' during the past six months—one purporting to be a plan whereby any young man could make from \$150 to \$200 per month, without labor, by enclosing \$1 to II. G. Winthrop, Geneva. N. Y.," for proper instructions &c.; the other purporting to be a Lottery Scheme of the "Lawrence Co., Lawrenceville Pa." which offered to purchasers of tickets the chance of obtaining a "Louisiana Sugar Plantation, worth \$50,000; a Kentucky Home, \$32,000; an Ohio Farm, \$25,000; eleven good Farms, \$20,000; sixteen Farms. \$16,000; 300 Land Warrants, and six hundred and \$16,000; 300 Land Warrants, and six hundred and seventy small Prizes in cash, making a grand total of \$200,000.

The fraud was exposed by a young man named Beers, with whom Daily became acquainted some two years since, and recently agreed to employ, at an ample remuneration, for certain service not specified in the writing. On the 12th inst., Dailey disclosed to Beers a "Grand Lottery Scheme" which he had originated and from which he expected to realize a fortune-in forming Beers that he had a large number of letters in the Geneva post office, directed to H. G. Winthrop" and desiring him to go and get them. This Beers did and brought back seventy-two letters containing \$64. Dailey then instructed Beers to go to Lawrenceville Tioga Co., Pa., and get certain letters there, directed to the "Lawrence Company."

Beers took the train for Lawrenceville on Tuesday morning-after consulting with a Millport lawyer under whose advice he was operating. Arrived there, he went to the Post Office and presented Dailey's orders for the letters. Suspecting something wrong, Mr. Parkhurst refused to deliver the letters, until Boers went and got Mr. Phelps, the Millport lawyer who had accompanied him, and who assured Mr. Parkhurst that they were there for the express purpose of ferret-ing out the fraud. Mr. P. then showed them 132 letters from various Southern States, containing sums from \$5 to \$50. Phelps took fifteen of the letters to use as evidence, and the two returned to Elmirs.

Dailey was arrested on Wednesday of last week an admitted to bail in the sum of \$1000.

Sir James Clarke, physician to Queen Victoria, has given
it as his opinion that

is opinion that

CONSUMPTION CAN BE CURED. CONSUMPTION CAN BE CURED.

The whole history of this medicine fully confirms the opin ion of that eminent man. Thousands can testify, and have testified, that when all other remedies had failed, this had completely cured; that when the sufferer had well night despaired, this had afforded immediase relief; that when the physician had pronounced the disease incurable, this has removed it entirely.

The virtues of this Balsam are alike applicable to cure a slight cold or a Commune Consumptor, and its power as a safe, certain, speedy, pleasant and effectual remedy cannot be equalled.

SCROFULA, OR KING'S EVIL, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scriptions taint is variously caused by increurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation," indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corapt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eraptions or sores. This foul oforrpion which genders in the blood, depresses the energies of life, so that scrodulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other discasses; consequently, was numbers periably by disorders which, aithough not scrofulous in their nature, are still rendered fatal by this tain in the system. Most of the consumption which decimates the human family has fix origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renorate the blood by an alterative medicine, and invigdrate it by healthy food and exercise. Such a medicine we supply in AYER'S

Hence it should be employed for the cure of not only scrofula, that also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erystipelas, Pluples, Pustuce, Blotchee, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Read, Ringworm, Rheumatism, Syphillite and Mercutial Diseases, Drupsy, Dyspepsia, Debility, and indeed al. Complaints arising from vitiated or impure Blood. The popular belief in "impurity or The Buodo" is founded in truth, for Scrofula is degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AVER'S CATHARTIC PILLS. FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

FOR ALL THE PURPOSES CF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penefrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its beatity vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanrc, colitaining certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stonach, Yausea, Indigestion, Pain in the Morbid Inaction of the Bowels, Flatulency, Loss of Appetite Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

vanced stages of the disease.

So wide is the field of usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been ristored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antiduct to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained triends by every trial, conferred benefits on the afficied they can never forget, and produced cure too numerous and too remarkable to be forgotten.

Specific Specific HOMOPATHIC REMEDIES, HOMOPATHIC REMEDIES, No. 562 BROADWAY. No. 562 BROADWAY.

THE GREAT FEATURE THE GREAT FEATURE

Of this series of Domestic Remedies is that each par Of this series of Domestic Remedies is that each par-ticular medicine is a Sprcipic for the particular disease or class of diseases whose name it bears, and may be relied upon for the cure of that particular affection. Hence, persons suffering from a chronic disease or long-standing ailment, in buying a case of Hux-PHREYS' SPECIPIC, obtain the particular one desired in their case, and thus themselves make a cure which otherwise would cost them many dollars, and no small amount of time and medical attendance, if, indeed, it

amount of time and medical attendance, if, indeed, it could be obtained at all.

Thus multitudes suffer from Dyspepsia, Bilious Condition, Costiveness, Bail Taste, Coated Tongue and Debility, which is perfectly controlled and cured by the Dyspersia Specific. DYSPERSIA SPECIFIC.

There is scarcely a phase or form of this disease which is not promptly controlled and ultimately cured by the use of this Specific. Thousands who have suffered for years with this "Bilious condition" having purchased a case of these Specifics, have obtained a perfect cure and immunity from their old complaint.

COUGHS, COLDS AND SORE THROATS, COUGHS, COLDS AND SORE THROATS, which so frequently lead to BRONCHITIS AND CONSUMPTION.

BRONCHITIS AND CONSUMPTION, are all in their early stage secured by the Cougn Pills. COUGH PILLS. Many cases of long standing Bronchitis and irritating

Coughs have been perfectly cured by this specific. But more! many persons have a specific liability to colds and take them from the least exposure. This will be entirely relieved by the use of Cough Pills, as scores can testify from experience. So

CATARRII CATARRH is one of our most common and most troublesome discases, against which the Old School Medicines and
even Homopathic prescriptions are of very little use.
Yet hundreds of persons have been cured of not only
recent and fresh, but even long standing and obstinate
cases of Catarrh by the use of this specific.

One aged lady in Syracuse was thus perfectly cured
of a Catarrh, which had annoyed her all her life. And
a young lady at one of our first class boarding schools.

a young lady at one of our first class boarding schools, who was so afflicted with this disease as to require more than forty handkorchiefs a week, was entirely cured in a single week by this Specific.

PILES,

bleeding and blind, as one of those common and obstinate forms of disease which are so difficult to cure by the ordinary methods, but which find an entire and fundamental cures in the Piles Specific. True. time is required; but the Specific is pleasant to take, requires neither diet nor restraint, and being followed up, a perfect cure is the result. Hundreds of persons, in nurchasing a case of Specifics, have obtained a cure up, a perfect cure is the result. Interest of persons, in purchasing a case of Specifics, have obtained a cure for this most trying and obstinate form of disease, which has been worth to them ten times the cost of the entire set. Cases of over twenty years standing have been cured with this simple Specific, and we believe all may be cured by perseverance.

known. A remedy without any deleterious or poisonous substante, which not only cures the ague, and old, mismanaged agues, but may be relied upon as a prevontative when persons are residing in a fever and ague district. It prevents or protects upon the same principles that vaccination prevents small-pox or belladona prevents scarlet fever, by pre-occupying the system with the true Specific. Hundreds have been thus protected and cured. protected and cured.

THE OPHTHALMY SPECIFIC has proved a most invaluable remedy for Sore Eyes and Eyelids, and for Weak and Blurred Sight. One lady in Indiana, who had been a sufferer from sore eyes for many years, and for two years was entirely blind, was cured perfectly by the Ophthalmy Specific alone.

HEADACHES,

to which so many are subject, finds a curntive in the case. There is a specific which relieves at the time of the attack, and also one which corrects the condition of the system upon which it depends, and so destroys the predisposition to a return. The Specifics for the various forms of FEMALE COMPLAINTS

have proved invaluable. Old long standing Leocorrhoan or Whites, attended with debility or exhaustion, and for which other forms of medicine are of little value, are fully controlled and cured by the Female Pills; while the specific for irregularities control almost every form of scanty, painful, or irregular menstruation. struction. DIARRHOEAS AND SUMMER COMPLAINTS

in adults or children are controlled like magic by the Diarrhova Pills, while it may be averred without the possibility of successful contradiction, that the Dysen-tery Pills are the most perfect Specific for that disease

For the various forms of FEVERS, SCARLET FEVER, MEASLES

and other diseases of children, the Fover Pills may be safely and surely relied upon.

These Specifics are the prescriptions of Prof. Huy-runers, used for years in his extensive practice, and to the perfection of which he has devoted the resourto the perfection of which he has devoted the resources of extensive knowledge, experience and study.
The public may rest assured that during the life time of Dr. H. no one has been or shall be intrusted with the preparation of his Specifics, and he offers the guaranty of his professional life and reputation that they shall be just as he represents them.

They have now been before the public for five years, and have everywhere won golden opinions from the many thousands who have used them.

Simple free from intringery technicality or departs.

Simple, free from intricacy, technicality, or danger, they have become the ready recourse and aid of the parent, traveler, nurse, or invalid, and have become the family physician and medical adviser of thousands of families. Nowhere have they been tried without hav-ing been approved, and their highest appreciation is among those who have known them longest, and mos

Every family will find these Specifics all they have been recommended: prompt, reliable simple and effi-cient; often a friend in need and a friend indeed. LIST OF SPECIFIC REMEDIES.
