CONSUMPTION CAN BE CURED. The whole history of this medicine fully confirms the opin ion of that eminent man. Thousands can testify, and have testified, that when all other remelies had failed, this had completely cured; that when the ufferer had well nigh des-paired, this had afforded immediase relief; that when the physician had pronounced the disease incurable, this has re-

moved it cantrely. The virtues of this Balsam are alike applicable to cure a alight cold or a Covringence Consumption, and its power as a safe, cortain, speedy, pleasant and effectual remedy cannot be coupled equalled. 199 CAUTION! #### SCROFULA, OR KING'S EVIL,

SCROFULA, OR KING'S EVAL, is a constitutional disease, a corruption of the blood, by which this fluid becomes villated, weak and poor. Being in the cir-culation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrothlus tain is avaiously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the veneral infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rol of Him who says, "I will visit the iniquities of the fathers upon their children."

who says, "I will visit the iniquities of the fathers upon their children." Its effects commence by deposition from the blood of cor-rupt or ulcerous matter, which, in the lungs, liver, and in-ternal organs, is termed fubercles: in the glands, swellings; and on the surface, eruptions or sores. This foul corruption which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other disresses: consequently, vast numbers perish by disorders which, aithough not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cano-

Cause. One quarter of all our people are scrofnlous; their persons are invaded by this lurking infection, and their health is un dermined by it. To cleanse it from the system we must ren owner the blood by an alterative medicine, and inrigorate i by healthy food and exercise. Such a medicine we supply in AYER'S
