Potter-Cowan, of the Warren Mail, was one of DRY GOODS the Senatorial Conferees from Warren county. Here is what he says of his visit to Coudersport:

4-Coudersport, situated on the Allegbeurg, nine miles from its source, is a beautiful village. It is cosily nestled among the hills, built compactly and with more than ordinary (aske. Everything around it bears the marks of a public spirited refinement and good order. A large and elegant Court House stands nearly in the middle of the village in the steeple of which is a town clock in sight of nearly every house or place of busi-ness. No taverus are licensed in the County, and though we were there in the crowd of Court week, we though we were there in the crowd of Court week, we didn't see or hear of a single fight or a man drunk, which is praise enough for any place. This, we take it is somewhat owing to the fact that the Sons of Tem-perance are in good working organization there.— They have a beautiful and well furnished Hall which was very kindly opened for the use of our conference The Journal, T. SCROFULA, OR KING'S EVIL, SURGETULA, UR RAILU'S LYAL, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitated, weak and poor. Being in the cir-culation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrothous taint is variously caused by mercurial disease, low living, dis-ordered or unbealtby food, inpure air, filth and filthy habits, the depressing vices, and, above all, by the veuerent infection. Whatever be its origin, it is hereflitary in the constitution, descending 'from parents to children unto the third and fourth geueration;' indeed, it seems to be the rod of lim who says, 'I will visit the injuities of the fathers upon their children.'

who anys, "I will visit the iniquities of the fathers upon their children." Its effects commence by deposition from the blood of cor-rupt or ulcerous matter, which, in the lungs, liver, and in-ternal organs, is termed tubercless in the glands, swellings; and on the surface, eruptions or sores. This foul corruption which genders in the blood, depresses the energies of lite, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perisfi-by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its vrigin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, bran, and, indeed, of all the organs, arise from or are aggravated by the same of all the organs, arise from or are aggravated by the same

Cause. One quarter of all our people are scrofulous; their persons are invaled by this lurking intection, and their health is un-dermined by it. To cleanse it from the system we must ren-ovate the blood by an altorative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in GENTLEMEN'S FURNISHING AYER'S

It is combined from the most active remedies that have heen discovered for the expurgation of libits foul disorder from the blood, and the rescue of the system from its de-erructive consequences. Hence it schould be employed for the cure of not only scrofula, lbut also those other affections which arise from it, such as Eruptive and Skin Diseases.
