#### Hostetter's Stomach Bitters.

Hostetter's Stomach Bitters.

In view of the fact that every member of the human family is more or less subjected to some complaint, besides innumerable other conditions in life, which, by the assistance of a little knowledge or exercise of common sense, they may be able so to regulate their habits of diet, and with the assistance of a good tonic, secure permanent health. In order to accomplish this desired object the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life; for this end Dr. Hostetter has introduced to this country a preparation bearing his name, which at his day is not a new medicine, but one that hos been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upyn the stomach, bowels and liver, restoring them to a healthy and vigorous action, and thus by the simple process of strengthening nature, enable the system to triumph over disease.

cess of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Billious Complaints, arising from a morbid inaction of the Sitmach or Bowels, producing Cramps, Dyseutery, Colic, Cholera Morbns, &c., these Bitters have not an equal.

Diarrhoea, Dysentery or Flux, so generally contracted by new settlers, and caused principally by the cange of water and diet, will be sheedily regulated by a brief use of this preperation. Dyspepsia, a disease which is probably more prevalent when taken in all its various forms, than any other, the cause of which may always be attributed to derangements of the digestive organs, can be cured without fall by using HOSTETTERYS STOMACH BITTERS, as per directions gon the bottle. For this disease every physician will recommend Bitters of some kind, then why not use an article to be infallible! Every country have their Bitters as a preventative of disease and strengthening of the system in general, and among themiall there is not to be found a healthier people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to advance the destiny of this great preparation in the medical scale of science.

Fryen And Adus.—This trying and provoking disease, which

advance the destiny of this great preparation in the medical scale of science.

FYVER AND AGUE.—This trying and provoking disease, which fastees its relentless grasp on the body of man, reducing him to a mere shadow in a short space of time, and readering him physically and mentally useless, car be defeated and driven from the body by the use, of HOSTETTER'S RENOWNED BITTER'S. Further, any of the above stated distances cannot be contracted when exposed to any ordinary conditions producing them, if the Bitters are used as per directions. And as it neither creates nausea, nor offends the palatt, and rendering unnecessary any change of died or interruption to usual pursuits, but promotes sound sleep and healthy digestion, the complaint is thus removed as speedily as is consistent with the production of a thorough and permanent cure.

healthy digestion, the complaint is thus removed as speedily as is consistent with the production of a thorough and permanent curs. For Persone is Advanced Years who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and needs only to be tried to be appreciated. And to a mother while invising, these Bitters are indispensable, especially whose the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hosetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and before so doing, ask your physician who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION,—We cantion the public against using any of the many initiations or counterfeits, but ask for Hosetter Tem's Celebrate Stomach Bitters' blown on the side by the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

SCROFULA, OR KING'S EVIL,

is a constitutional discase, a corruption of the blood, by which this fluid becomes vitiated, weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrutulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This food corruption which genders in the blood, depresses the energies of life, so that scrofulous continuitions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, wast numbers perish by disorders which, aithough not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous containation; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AVER'S Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder bare been discovered for the exputigation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Honce it should be employed for the ture of not only scroful, ibut also those other affections which arise from it, such as Eruptive and Skin Direases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blams and Boils, Tumors, Tetter and Sait likeun, Scald Head, Ringworm, Rheumatism, Syphilitic and Metcurial Discoves, Dropay, Dyspepsia, Debility, and indeed ALL Complaints arising from vitiated or impure Blood. The popular belief in "IMPURITY OF THE BLOOD" is founded in truly, for Scrofula is degeneration of the blood. The particular purpose and virtue of this Sarsapavilla is to purify and recentrate this vital fluid, without which sound health is impossible in contaminated constitutions.

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup. Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in ad-

So wide is the field of usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its knul is too apparent to escape observation, and where its virtues are known, the public no longer best tate what antidots to employ for the distressing and danger outs affections of the pulmonary organs that are incident to our climate. While many interior remedies thrust upon the community have failed and been discarded this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cure too numerous and too remarkable to be forgotten.
