SCROFULA, OR KING'S EVIL, a constitutional disease, a corruption of the blood, by which this finid becomes vitiated, weak and poor. Being in the circulation it pervales the whole body, and may burst out in disease on any part of it. No organ is tree from its attacks, nor is there one which it may not destroy. The scrothlous tant is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, alove all, by the venereal infection. Whatever be its origin, it is heredilary in the constitution, descending "from parents to children nuto the third and fourth generation!" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

who says, "I will visit the inquiries of the lathers upon thour children."

Its effects commence by deposition from the blood of operapt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles: in the clands, swellings and on the surface, cruptions or sores. This foul corruption which genders in the blood, depresses the energies of life, so that scrofiolous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other discass; consequently, was tumbers perish by disorders which, nithough not scrofulous in their nature, are still rendered fatab by this tain in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

On an incorpany must cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla.

Gompound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our mines can device for this everywhere prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of act only serofula, lbut also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Finples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheun, scald Hood, Ringatorm, Rheumati-m. Sphillitic and Mercural Diseases, Propy. Dyspepsia, Debrity, and indeed all Compilaints arising from vitiated or impure Blood. The popular behief in "instrumy or the shoon" is founded in truth or Scrotch is degenerated fits blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

So was is the field of usefulness and so numerous are the case, of its cures, that almost every section of country about do in prove publicly known, who have been restored from alternating and over desperate diseases of the lungs by its not. When over tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its varies are known, the public no longer has it to that antidote to employ for the distressing and danger one affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have fulled and been discarded this has gained trouds by every trial, conferred benefits on the afflicted they can never lorget, and produced cure too numerous and too markable to be for jotten. to be ingotten.

It is superior to all other Mowers and Reapers in use, in the following particulars: It is the lightest in use; is strong and durable; requires less draft than any other machine; has no side draft though it outs a wide swath; will work on rough ground where no other machine can follow it; very difficult to be elogged in any kind of grass, be it wet or dry; is simple in construction and not liable to get out of repair; is a perfect combined machine; working equally well, whether mowing or reaping; and is the CHEAPEST in price, the Mower being only \$105 and the combined machine \$130—making it altogether the most desirable Mower and Reaper in market.
