The crowded state of our columns prevents us giving our usual summary of "News from Ad-Counties."

2 The 3d lecture in the Temperance course of Reform Club. was delivered by Rev. J. F. CALKis last Friday evening: The audience was large and gentire, and the lecture instructive and profitable. HIGH YOUNG will deliver the Fourth lecture of the care this (Thursday) evening. Subject :: "The Poon of Whiskey." The Philharmonic Society will te in attendance.

The "Red Jacket" is the aboriginal name of a new Oyster Saloon, just opened over the store of flidreth & Landis, by John Kirkpatrick. We presume that the name of the chief will be a recommendstion to all who love a good dish of oysters served up n proper style. The public will always find "Old hirk" at the wigwam, where if they go once they cant help calling again.

We "barked up the wrong tree" last week in slluding to the Town Clock. The County Commissjoners had nothing to do with it. The Fathers of our Ecrough authorized the change against which we protested. We are led to believe that the white face and black figures are only the priming for the original colors. The members of the Council are men of taste. and will no doubt make it all right again. At least πe hope so.

BIG YIELD OF POTATOES .- Mr. D. G. Edwards, of Charleston is one of the most enterprising and successal farmers in our county. He informs us that he has ast secured a crop of 700 bushels of marketable potaness from eight bushels of seed! The potatoes are very large and but very few rotted.

We think the premium for raising potatoes must be swarded to Mr. Edwards; at feast, until some competgar shall give us the facts and figures of a crop larger man this, Mr. E. is entitled to the first place.

Should any farmer desire to learn anything concern-22 Mr. E.'s method of raising potatoes, he can do so raidressing him by letter, directed to Wellsboro.

We noticed some weeks since an invention rade by Loren Wetmore for catching animals, and bely patented by him. We have now to record an grention made by Mr. D. K. Barnhart of Gaines, Toga Co., Pa., which we think is a little shead of the cher though a little more complicated, In Barntant's trap the unfortunate rat sees a piece of cheese cother enticing food directly in front, and between am and a window which admits the light. He walks and to his surprise he finds the door shut after him. mianother door opens into a large chamber or box trepared for his reception. As the food which he has a protected by a wire screen, he turns in disgust again, but not succeeding there, he goes grough the open door (into the large chamber) which one after him also. As the rat goes into the large camber the first door springs open and the trap is may far another visitor. We think Barnbart's Selfourg Trap the most ingenious thing in that line we lare ever seen. He has applied for a patent.

REVOLUTIONS

WHETHER in Government or fashions never go backwards. "Old Fogyism" may from down every exhibition of youthful fancy, yet every issue from the Press of Fashion shows that some new ad-

rance has been made in this branch of Science and the Arts. Recognizing this principle of progress in his depart-ment of Trade,

J. NYE ROBINSON has not sought to keep up with, but to go a little in advance of the ideas and wants of the community in which he lives both as regards the style and location of his business or the whereabouts and how he does

Believing that honesty of purpose and a strict Attention to Business

Corning, N. Y., Nov. 10, 1859. Hostetter's Stomach Bitters.

Hostetter's Stomach Bitters.

In View of the fact that every member of the human family is more of less sabjected to some complaint, besides innumerable other conditions in life, which, by the sasistance of a little knowledge or exercise of common sense, they may be able so to regulate their habits of diet, and with the assistance of a good tonic, secure permanent health. In order to accomplish this desired object the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life; for this end Dr. Hostetter has introduced to this country a preparation bearing his name, which at this day is not a new medicine, but one that hos been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upyn the stomach, bowels and liver, restoring them to a healthy and vigorous action, and thus by the simple process of strengthening nature, enable the system to triumph over disease.

cess of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia Indigestion, Nausea, Flatulency, Loss of Appetite, or any Billious Complaints, arising from a morbid nat tion of the Stimach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c, these Bitters have not an equal.

Diarrhooa, Dysentery or Flux, so generally contracted by new settlers, and caused principally by the cange of water and dict, will be abeculy regulated by a brief use of this preperation. Dyspepsia, a disease which is probably more prevalent when taken in all its various forms, than any other, the cause of which may always be attributed to derangements of the digestive organs, can be cared without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recom-

ments of the digestive organs, can be cared without fail by using HOSTETTER'S STOMACH BITTERS, as per directions go the bottle. For this disease every physician will recommend Bitters of some kind, then why not use an article to be infallible? Every country have their Bitters as a preventative of disease and strengthening of the system in general, and among them all there is not to be found a healthier people than the Germans, from whom this preparation emansted, based upon scientific experiments which have tended to advance the destiny of this great preparation in the medical scale of science.

FYVER AND AGEL—This tiying and provoking disease, which fastese its relentless grasp on the body of man, reducing him to a mere shadow in a short space of time, and rewiering him physically and mentally useles, car be defeated and driven from the body by the use of HOSTETTERS RENOWNED BITTERS. Further, any of the above stated discussive cannot be contracted when exposed to any ordendancy conditions producing them, if the Bitters are used as per directions. And as it neither creates nauses, nor offends the palast, and rendering unnecessary any change of died or interruption to usual pursuits, but promotes sound sleep and healthy digestion, the complaint is thus removed as speedly as is consistent with—the production of a thorough and permanent utre.

For Persone in Advanced Years who are suffering from an

For PERSONE IN ADVANCED YEARS who are suffering from an enfected constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and needs only to be tried to be appreciated. And to a mother while invising, these Bitters are indipensable, especially where the mother's mouri-liment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is

the child. con-equently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and before so doing, set your physician who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakners.

CAUTION.—We cantion the public against using any of the many inn ations or counterfeits, but ask for Hostetters to ELEMBATED STOMACH BITTERS, and see that each bottle has the words "Dr. J.
