SCROFULA, OR KING'S EVIL, is a constitutional disease, a corruption of the blood, by which tails fluid becomes vitiated, weak and poor. Being in the circulation it pervades the whole body, and may bust out in disease on any part of it. No organ is free from its attacks, nin is there one which it may not destroy. The scrothlous sum is variously caused by mer, rail disease, low living, disoudered or unhealthy food, impure air, filth and filthy habits, the deputs-sing vitors, and, above all, by the veneral infection. Whatever be its origin, it is hereditary in the constitution, descending—from parents to children unto the third and fourth generation: 'indeed, it seems to be the rod of Him who says, 'I will visit the infaulties of the fathers upon their children.'

who says. "I will visit the infquities of the fathers upon their children." Its effects commence by deposition from the blood of correct or ulcerous matter, which, in the lungs, liver, and incend organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption which genders in the blood, depresses the energies of life, so that scrotineus constitutions not only suffer from scrotilous complaints, but they have far less power to withstand the himself of other diseases; consequently, vast numbers perish by diseasers which, aithough not scrotilous in their nature, are still rendered fatal by this tain in the system. Must of the consumption which decimates the human family has its origin directly in this scrotilous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same

of an the organs, most acceptance cause.

One quarter of all our people are scrofulous; their persons are invaled by this lurking infection, and their health is undermined by it. To cleause it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

ovate the blood by an alterative medicine, and inrigorate it by healthy food and exercise. Such a medicine we supply in AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can decise for this everywhere prevailing and fairly makes the decise for this everywhere prevailing and fairly makes the food, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scroula, but also those other affections which arise from it such as Empires and Skin Biseases, et al. Anthony's fire. Rose, or Erysipelas. Pimples, Pustules, Rich less thans and Boils, Tamors, Tetter and Salt Rusan. Scald Head, Ringworm, Rheumatism, Sphillitic and Mercurial Diseases, Dropeys, Dyspepsia, Debility, and indeed all Complaints arising from vitated or impure Blood. The popular beine in "invertury or rus motor" is founded in truth, for Scrofula is degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to pairly and recent this vital fluid, without which sound health is impossible in contaminated constitutions.

canced slayes of the disease.

So wide is the field of usefulness and so numerous are the cross of its cares, that almost every section of country alounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lung, by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hestitie what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to cur climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflected they earn even forget and produced cure too numerous and too recurrishible to be forgotten.
