SCROFULA, OR KING'S EVIL, is a constitutional disease, a corruption of the blood, by which this find becomes viriated, weak and poor. Being in the circulation it perrades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrotulous taint is variously caused by mercurial disease, low living, discordered or unhealthy ford, impure air, fills and filthy habits, the depressing vices, and, above all, by the vonereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lung, liver, and internal organs, is termed tubercles; in the glands, awellings; and on the surface, cruptions or sores. This foul corruption which genders in the blood, depresses the energies of life, so that scrotulous constitutions not only suffer from serofulous complaints, but they haveffar less power to withstand the attacks of other diseases; consequently, vast numbers perially diseases which suffound in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this larking infection, and their health is undermined by it. To cleanes it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla.

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can decise for this everywhere prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Discases, St. Authony's Fire. Rose, or Erysipelas, Pimples, Pustules, Blot hes, Blains and Boils. Thunors, Tetter and Sait Rheum. Scald Head, Ringworm, Rheumatiem, Syphillitic and Metcurial Discases, Browy. Dyspepsia, Deblity, and indeed ALL Complaints arising from viliated or impure Blood. The popular behef in "Encentr of the Bood" is founded in truth, for Scrofula is decentration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regulates this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S CATHARTIC PILLS. FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properries search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its health; vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is a stom-shed to find his health or energy restored by a remedy at once so simple and inviting.

vanced stages of the disease.

So wide is the field of usefulness and so numerous are the cases of its cures, that almost every section of country abantols in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidute to employ for the distressing and dangerous affections of the pulmonary organs that are incident to contribute the what antidute to employ for remedies thrust upon the community have failed and been discarded, this has gained triends by every tild, conferred benefits on the afflicted they can never forget, and produced cure too numerous and too remarkable to be forgotten.
