Dr. Wistar's Balsam of Wild Cherry.

WHERE the above preparation is known, it is so well established as an infallible Remedy for the curé of-Coughs, Colds, Sore Throat, Hoarsingss, Broschita, Spring of Blood, Pain in the Breaks, Crour, Whooping Goron, and every form of Pulmonary Compilaint, that it were a work of supercrugation to speak of its merits.

Discovered by a celebrated physician more than twenty years since, it has by the wonderful cures it has effected been constantly appreciating in public favor, until its use and its reputation are alike universal; and it is now well known and cherished by all (and their manners legion") who have been restored to health by its use as the Great Remedy for all the diseases which it professes to cure.

Set James Clarke, physician to Queen Victoria, has given it as his opinion that

CONSUMPTION CAN BE CURED. The whole history of this medicine fully confirms the opin ion of that eminent man. Thousands can testify, and have testified, that when all other remedies had failed, this had completely cured; that when the sufferer had well uigh despaired, this had afforded immediase relief; that when the physician had pronounced the disease incurable, this has respond it outfalls.

### Hostetter's Stomach Bitters.

IN VIEW of the fact that every member of the human family is more or less subjected to some complaint, besides innumerable other conditions in life, which, by the assistance of a little knowledge or exercise of common sense, they may be able so to regulate their habits of diet, and with the assistance of a good tonic, secure permanent health. In order to accomplish this desired object the true course to nursue is certainly that which will meduce a matterd state of things at the least hazard of vital strength and life; for this end Dr. Hesetter has into denode to this country a preparation bearing his name, which at this day is not a new faction to all who have used it. The Bitters operate powerfully uppyn the stomach, bowels and liver, restoring them to a healthy, and vigorous action, and thus by the simple process of strengthening nature, cambic the system to trumph over disease.

a health, and vigorous action, and thus by the simple process of strengthening nature, enable the system to trumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Billions Complaints, arising from a morbid inaction of the Stimach or Bowels, producing Gramps, Dysontery, Colic, Cholera Morbus, &c., these Bitters have not an equal.

Diarrhoca, Dysonlery or Flax, so generally contracted by new sectilers, and caused principally by the cauge of water and diet, will be sheedily regulated by a brief use of this preperation. Dyspepsia, a disease which is probably more prevalent, when taken in all its various forms, than any other, the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions gut he bottle. For this disease every physician will, recommend Bitters of some kind, then why not use an article to be infallible? Every country have their Bitters as a preventative of disease and strengthening of the system in general, and among them all there is not to be found a healther people than the tiermans, from whom this preparation emanusch, based upon scientific experiments which have tended to advance the deskiny of this great preparation in the medical scale of secience.

FYER ADA ACEE.—This trying and provoking disease, which is a released and mentally uscless, can be defeated and driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Turther, any of the above stated disted disease; cannot be contracted when exposed to any ordinary conditions producing them, if the Bitters are used as per directions. And has it neither creates nausea, nor officials ted disease; cannot be contracted when exposed to any ordinary conditions producing them, if the Bitters are invaluable as a restractive of attempth and vigor, and needs only to be tried to be appreciated. And to a mother while has it consistent with the production of a thorough and permanent cure.

VARIOUS Styles of Dental work. The continuous gam or Porcelain, the most natural, beautiful, and superior to any other system. Also a new style very beautiful and cheap, just introduced. Particular attention is requested to the artificial Bone for filling teeth, it being the color and nearly as hard as the teeth and in many cases superior to any metallic substance. Also, by a new process of electro-metalurgy, those having silver plates can have them heavily plated with gold on very reasonable terms. No cheap humbugs introduced. His system of practice is the result at the experience of the best members of the profession. (orning. Nov. 10, 1859. CORNING, N. Y.
