SCROFULA, OR KING'S EVIL,

SCROFULA, OR KING'S EVIL, is a constitutional disease, a corruption of the blood, by which this fluid become vitrated, weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is tree from its stracks, in ris thene one which it may not destroy. The scroulous that is variously caused by mercurial disease, low living, discolerated or unhealthy to 1, impure air, fifth and filthy habits, the depressing vices, and, above all, by the veneral infection. Whatever be its origin, it is hereditary in the constitution descending "Kom purents to children unto the third and fourth generation." Inclead, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt on the contraction of the children on the surface, eruptions or sores. This foul corruption which genders in the blood, depresses the energies of life, so this kerofinlous constitutions not only suffer from scrothous complaints, but they have far less power to withstand the attacks of other diseases; consequently, was numbers perish the disonders which, aithough not secrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this serofulous contamination; and many destructive diseases of the liver, kidnoys, brain, and, indeed, of all the origins, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by the lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active requelles that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, lbut also those other affections which arise from it, such as Eruptive and Skit Discusses, St. Authony's Tire. R.s.e., or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Sait Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Discusses, Dropy. By spepia, Debility, and indeed AII. Complaints arising from vitated or impure Blood. The popular belief in "Exput.in" of The Brood' is founded in truth. Or Scrofula is degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound heatth is impossible in contamunate's constitutions.

varieed stages of the disease.

So wide is the field of usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other me incine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesistic what antidore to employ for the distressing and dangeries affections of the Julimonary organs that are incident to our climate. While in my interfor remedies thrust upon the community have failed und be of discarded, this has guine tremathable to be fordered benefits on the afflicted they can mover forget, and personal about the first position.
