who says. "I will valt the iniquities of the fathers upon their children."

Ita affects commence by deposition from the blood of correct or allerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the grands, swellings; and on the surface, emphions or sores. This food corruption which genders in the blood, depresses the energies of life, so that scroftlous constitutions not only suffer from scroftlous compisints, but they, have far less power, to a kinking the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scroftlous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organ; a size from or are aggravated by the same cause.

One quarter of all our people are scrotulous; their persons are invaded by this tarking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and integorate it by healthy food and exercise. Such a medicine we supply in

AYER'S.

Compound Extract of Sarsaparilla. Compound Extract of Sarsaparilla.

The most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and futal mataly. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cuts of not only scrofula, that also those other affections which arise from it, such as Empire and Skin Diseases, St. Anthony's Fire. Rose, or Eryspelas, Pinples, Pustules, Blotches, Blains and Boils, Tunors, Tetter and Saft Rheum, Stabil Head, Ringworm, Rheumatism, Sphillitic and Mercutal Diseases, Dropy, Pryspeja, Delylity, and indeed ALL complaints arising from vitilated or Ampure Blood. The popular belief in "IMPLETT OF THE BLOOD" is founded in truth, or Scrofula is degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital flaid, without which sound health is impossible in contaminated constitutions.

AYER'S CATHARTIC PILLS. FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC. are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astomabed to fluid his health or energy restored by a remedy at once so simple and inviting.

Not only do they care the every-day complaints of every body, but also many formedable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanic, colitaining certificates of their cures and directions for their use on the following complaints: Costiveness, Hearthurs, Headche arising from disordered Stomach, Nausea, Indigestion, Pam in the Morbod Inaction of the Bowels, lattilency, Loes of Appetite Jaunilee, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

AYER'S CHERRY PECTORAL. FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup Bronchitis. Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

ranced stages of the disease.

So wide is the field of usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medienne of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidute to employ for the distressing and danger ous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded this has gained triends by every trial, conferred benefits on the afflicted they can never forget, and produced cure too numerons and too remarkable to be forgotten.
