Congress .- LD. AGITATOR.

From the Lewisburg Chronicle. The reply of Hon. Galusha A. Grow to the challenge of an insolent Carolinian, on account of words snoken in debate in defence of the Constitution and of the rights of the people, thrills the hearts of good men everywhere! When a Northern Member of Congress-instead of weakly yielding (as did Cilley and Broderick) to a supposed galling necessity to commit a crime stamped with the condemnation of the human and divine law-takes the patriotic, courageous, manly and religious view of the custom which Mr. Grow has, it indicates progress in the right direction. We think Mr. Grow is not a church member, but it is evident that he has not forgotten his childhood's pious instructions, and that Christian influences have a permanent hold upon him. His vivid recogbody of which he is a Member, also shows the sterling integrity and honesty of the man. In this event, he has displayed high moral courage -- a nobler and better quality than mere animal fearlessness-a quality, too, much needed in our day and time. Mr. Grow's life is not his own. He owes it to his widowed mother-to his generous and confiding constituents-to his native and adopted State-and above all to the Homes. Let him and all others maintain the sound and honorable position he has taken, and the horrid barbarism of duelling will soon become extinct, and the duelist will be executed like any other assassin.

From the Wash, Cor. of the N. Y. Independent. duello-but that he was ready at all times to meet an assault. He went freely about the city vesterday and to-day, and it was expected by his friends that he would be attacked by Branch; certainly a dozen opportunities were given, as Mr. Grow wished it to be distinctly understood that he was not to be intimidated | principles and your vote at the polls, are not by any Southern bully in Congress.

I think the entire people of the Free States will give Mr. Grow their unqualified praise for his moral courage in refusing to accept the challenge. He is a brave, fearless, almost reckless man in his courage, and no fear of personal consequences would deter him one moment from going upon the field. It was the simple and carnest belief that to participate in a duel is to commit murder in the sight of God and all good and just men, that deterred him from an acceptance of the challenge, and he has exhibited a much higher degree of moral courage in declining the challenge than he would of physical courage if he had accepted it. Elder Nelson of Tennessee, a righteous old man, several days ago, when addressed in menacing language by Pryor, a duelist, declared frankly that he did not acknowledge the code, but would defend himself in and out of the House.

Let us hope that at let duelling is getting out of fashion, even in Washington, and that Feligion and Civilization will soon drive it from the land.

From the Cor of the Chicago Journal,

I regard Galusha A. Grow, of Penn., as one of the strongest, if not the ablest man on the 35 years of age. But a few grey hairs have whiskers and well-formed moustache are as black as the riven's wing. He is about 5 ft. Il mehes high, rather slim, but straight as an arrow. Republicans of Tioga: An avowal of right the only duties you owe to your party. These duties on every proper occasion ought not to be neglected. But there are other duties of the utmost importance if you desire success.

As we stated last week, the best method of promulgating true principles is through the influence of newspapers. A good Republican journal which finds its way into the family circle, weekly or oftener, is worth more than a bushel of partizan speeches of the ablest and best men in the country. These are not without their influence, but they are regarded as partizan appeals, and do little to remove the prejudices of those who would be benefitted by their perusal if no prejudices existed. But the weekly newspaper educates its recipient often unconsciously to himself. Toleration for adverse opinions succeeds in his mind to the place once held by bitter prejudice; doubts as to the soundness of his former opinions spring up, and are succeeded by convictions of Right on the right side. The Locofoco chrysalis, under the influence of a steady light is thus often Republican side. He is a tall man, of about transformed into a true and consistent Republican; while the glare and heat of an occasionerept in among his glossy black hair, while his al partizan speech would only have served to activations and usurpations constitute the very bake his shell and make it harder than ever.

The news from Harrisburg is not interesting. On the 10th inst., the Speaker announced the Standing Committees. THE DRIFT OF THE OPPOSITION SENTIMENT IN BALTIMORE. -- A National Republican Convention embracing

Republicans. Members of the People's Party of Penn'a. Members of the Opposition Party of New

And all others. who are willing to co-operate in support of the candidates, then and there to be nominated for President and Vice President, has been officially called to assemble at Chicago on the 13th of June, 1860-delegates from each Congressional District, and four from the State at large, are to constitute the representatives.

The basis on which this convention is called, according to the terms of the notification, is Opposition: "I. To the policy of the present Administra-

2. To Federal corruption and usurpation;3. To the extension of slavery in the Terri-

4. To the new and dangerous political doctrine that the Constitution, of its own force car-

5. To the re-opening of the African Slave-Trade;

6. To any inequality among citizens: 7. And who are in favor of the admission of Kansas under the constitution recently adopted by its people;

8. Of restoring the Federal Administration to a system of rigid economy, and to the principles of Wushington and Jefferson;

9. Of maintaining infiolate the rights of the States, and defending the soil of every State

and Territory from lawless invasion; 10. And of preserving the integrity of the Union, and the supremacy of the Constitution and laws passed in pursuance thereof, against the conspiracy of the leaders of a sectional party to resist the majority principle as established by this government, even at the expense of its existence.'

The first ground of opposition, it seems to us, would have been all sufficient, and had we had the authority, we would have limited the call to this comprehensive proposition, for it is broad enough to combine all the elements of hostility to the ruling dynasty, which is little more than an expression in itself of every conceivable sort of mal-administration and heresy against the Constitution and our institutions as established by the fathers. But as the authors of the call have deemed it wise to amplify somewhat, let us look into these specifications, and see what they really mean. Every one will understand the first and sec-

and specifications. Open and unblushing corexistence of the Administration policy, and the only way to save our institutions from positive and final destruction is to drive the dynasty out of power with a universal shout of indig-nation. It has earned the wages of political sin, and nothing remains but to discharge the obligation. Let it be consigned speedily to the political death that it merits.

The third and fourth propositions, it will be seen embrace good old Henry Clay whig doctrines on this subject. He was utterly opposed to the extension of slavery into free Territories. his shoulder, before he would lift in support of any such policy. And though the black heresy reared its black head distinctly above the horizon, yet Mr. Clay foresaw it, and mot it on a hundred occasions, in his public speeches directly and indirectly, with withering denunciations and irregistible demonstrations of its unsoundness. But we are content to rest the falacy of this outrageous doctrine upon the Hon. Reverdy Johnson's recent arguments against it. Inspired with the principles of the great American master of political economy, at whose feet he sat for so many years, with such eminent distinction to himself and his teacher, he leaves the heretic at the head of the government, and his Attorney Black, not an inch of ground to stand upon. Well may the Chicago Oppositionists call for a Union, in support of these indestructible principles. We know of no Opposition man in the whole country, who will refuse to sustain these propositions.

The 6th specification is one that every Amercan citizen ought to approve by his vote and his acts. It is a timely assertion of the right of every foreign-born citizen to be protected by the whole power of the Government, should he chance to return to the country of his birth, or when he is traveling abroad. He is entitled to as much protection as a native born citizen. for he has been made a citizen without reservation. No more shameful LeClere letters, we hope, will ever emenate from the State Department, let the Secretary be who he may. There must be no more inequality in the rights of citizens, when they are in foreign countries. We must either assert the entire right of a foreigner to absolve himself from military allegiance, which is a political duty, or surrender it at once. Justice to our naturalized citizens demands action on this subject, and this issue

should be boldly made next fall. No man in the Opposition to the corrupt dynasty at Washington, can be so perverse as to disagree to the proposition against reviving the African slave trade, or that in favor of admitting Kansas, and getting her out of the way; or that of bringing back the government to a system of honesty and rigid economy. If there be any such man, he ought to go over to the enemy at once,

Gov. Wise's extreme doctrine on this subject, and the party or parties that will stand by this resolution cannot fail to win the respect, if not the support, of even Southern fire-eaters. This is marching straight up to the requirements. which from day to day we have been pointing out as necessary to the preservation of our interstate relations. Mr. Buchanan can see no power in the Constitution to authorize him to put a stop to lawless invasions of the States Davis, led our forces in Mexico, and thank God stock company, and to entirely ignore the muand Territories, except upon terms, the execu- he still lives, perhaps to lead a Southern Army. tual principle.

which it is the duty of the President to resort to whenever the occasion rises, let the invasion come from what quarter it may. We are glad

no idle distinctions.

The tenth proposition is well taken. It meets a new state of things. It strikes right at the root of Abolitionism, that spits upon the Conroot of Abolitionism, that spits upon the Con- amount. When the assets same special and respected citizen, died on Sunday morta- stitution and refuses to bow to the will of ma- bilities, Potter county orders will be par. At old and respected citizen, died on Sunday mortajorities. It deals a stunning blow to the conspiracies of that Disunionism which has found some forty advocates on the floor of Congress within the present month. Every Unionist everywhere will not fail to welcome this expression of hostility to such a revolutionary spirit, from the Northern and Western Opposi tion parties. It can be responded to by the whole Southern Opposition, as sound doctrine.

Though the call of this Convention was made by the Republican National Committee, it must not be forgotten, that the extension of the invitation to the other two parties, mentioned by name, was made at the express desire of their representatives in Congress, so that, in thus opening the door to these parties, as well as to all others who may be willing to co-operate upon the basis set forth, the Convention divests itself of an exclusively Republican cast, and becomes to that extent a National Opposition one. It remains to be seen how the invitation will be responded to.

FROM THE PEOPLE.

Agreeably to a previous notice the Republicans of Middlebury met at the Briggs School House, Saturday eve., Jan. 21, for the purpose of nominating candidates to be supported at the was well represented and they all faithfully believe in the motto that "nee must strike down the allies of Slavery everywhere." Not a jot or tittle of the fire of '56 has abated. Once more our boys are ready to put on the armor of Right to fight against misrule and usurpation. a copy of the preamble to our Constitution which was adopted unanimously:

Officers elected: J. B. Potter, Presit. J. B. Niles and G. D. Keeney, Vice Prest's: R. C. Bailey and G. W. Potter, Secretaries; George P. Card. Treasurer.

Our Club at present will meet once in four weeks, and an effort will be made to place before every voter of Middlebury, documents setting trutlifully forth the corruption, inconsistency and impotency of the present administration. Should there not be a County Republican Club? Could it not be organized at Feb-Respectfully, "IRREPRESSIBLE." ruary Court?

To show that the factious obstinacy of the parties opposed to the Republicans is even confessed by their own organs to be the cause of the non-organization of the House, we append the following from the Washington States, (Democratic):

"In tacties it must be confessed that we are no match for our opponents. They have purpose, while we resort to make-shifts. Their candidate is just as fresh in the esteem of his supporters now as when he entered the arena. Ours, eminent as were his qualifications, was forced to retire, in order that inconsiderate experiments might be tested. South American diplomacy was at the bottom of it, and South American diplomacy has succeeded in getting the Democracy into such confusion that there is but little hope that it will ever regain the position which it attained on the first day of the session. There were perhaps no less than twenty Democratic members who believed that they could be elected by the odds and ends which Mr. Bocock failed to unite. Delusive expectation! But it had the effect to influence the over sensitive Virginian to voluntarily withdraw his weighty name from the contest. All has been chaos in our ranks, and so will likely remain until the plurality rule shall be adopted, when John Sherman will speedily be conducted to the Speaker's chair. But when will that occur, our anxious readers will inquire? Ah! that we cannot answer. It must be weeks-it may be months. But alas! it is inevitable.

THE DISUNIONISTS.—During the debates in the House of Representatives at Washington, more than a dozen Southern Democratic Members of Congress, have threatened to dissolve the Union, if necessary to sustain Slavery. Not a single Northern Democrat has dared to rebuke those treasonable speeches. But Democrats and fossil Americans in the free States are now professing great love for the Union, by holding meetings to denounce John Brown's visionary project, and yet have no words to censure their Members of Congress, who sit quietly in their seats while disunion sentiments are boldly avowed by their slaveholding fellow-members.
