who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings, and ou the surface, cruptions or sores. This foul corruption which genders in the blood, depresses the energies of life, so that scrolinous constitutions not only suffer from scrollous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrollous in their nature, are still rendered fath by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrollous contamination; and many destructive diseases of the liver, kidneys, beath, and, indeed, of all the organs, arise from or are aggravated by the same cause.

Cause.

One quarter of all one people are scrofulous; their persons are invaded by this turking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy feel and exercise. Such a medicine we supply in AYER'S

Compound Extract of Sarsaparilla.

compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this everywhere presulting and fatal maticip. It is embined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Emplive and Skin Diseases, St. Anthony's Fire. Rose, or Elyspelas, Thinples, Pustules, Betches, Blains and Boils, Tumors, Tetter and Sait Rheum, Scald Head, Bingworm, Rheumattem, Sphillife and Meccarial Diseases, Propsy. Dysjepsia, Deblity, and indeed AL Complaints arising from vitlated or impure Blood. The popular belief in "impurity or fire Rosen" is founded in truth, for Scrofula is degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vatal fluid, without which sound heath is impossible in contaminated constitutions.

vanced stages of the disease.

So wide is the field of us-fulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from maranta and even desperate diseases of the lings by its now. When once true, its superioury over every other medicine of its kind as too apparent to seepe observation, and where its virtues are known, the public no longer host its what naribote to employ for the distressing and dangerous affections of the palmonary organs that are incident to our climate. While many interior remelles thrust upon the community have failed and been discarded this has gained friends by every trial, conferred benefits on the uffleted they can never forget, and produced cure too numerous and two remarkable to be forgotten.

EVANS & WATSON'S SALAMANDER SAFES. 304 Chestnut Street,

PHILADELPHIA. ANOTHER TRIUMPH!

PHILADELPHIA, Sept. 29, 1859.

To the President of the Pennsylvania Agricultural Society:—The subscribers, your committee to examine the contents of a Saiamander Sale of Evans & Watson, of the behavior of the subscribers. the contents of a Saiamander Safe of Evans & Watson, after being exposed to a strong fire on the Fair Grounds for eight hours, respectfully represent—

That after seven cords of oak wood and three of pine had been consumed around the Safe, it was opened in the presence of the committee, and the contents taken out, a little warmed, but not even scorched.

Several Silver Medals heretofore received by the manufacturers, and a large quantity of documents were in the Safe, and came out encirely uninjured.

The experiment satisfied us of the capacity of Safes of this kind to protect contents from any fire to which they may be exposed.

hey may be exposed.

The Committee award a Diploma and Silver Medal. GEO. W. WOODWARD, JOHN W. GEARY, J. P. RUTHERFORD, ALFRED S. GILLETT.

STILL ANOTHER.

STILL ANOTHER.

WILMINGTON, Del., Sept, 17, 1859.—Messrs. Evans and Watson, Philadelphin.

Gentlemen: The Salamander Fire-Proof Safe of your manufacture, purchased by us from your Agent, Ferris & Garrett, of our city, some nine months ago, was severely tried by burglars last Saturday night, and although they had a sledge hammer, cold chisels, drill, and gunpowder, they did not succeed in opening the Safe. The lock being one of Hall: Patent Powder-proof," they could not get the powder into it, but drilled a hole in the lower panel and forced in a large charge, which was ignited, and although the door, inside and out, showed the explosion not to have been a small one, it was not forced open. We suppose they were the greater part of the night at work on it. We are much gratified at the result of the attempt to enter it, and if the above facts are of any service, you are at liberty to use them.

GREAT EIRE!—ANOTHER TRIUMPH.

GREAT FIRE!—ANOTHER TRIUMPH.

KNOXVILLE, TENESSEE, March 13th, 1859.—Messrs.

Evans & Watson, Philadelphia:

Gentlemen: It affords me great pleasure to say to you that the Salamander Safe, which I purchased of you in Fobruary, 1858, proved to be what you recommended it—a sure protection from fire. My storehouse together with several others, was burned to the ground in March last. The Safe fell through into the cellar, and was exposed to intense heat for six or eight hours, and when it was taken from the rains and opened, all its contents were found to be in a perfect eight hours, and when it was taken from the ruins and opened, all its contents were found to be in a perfect state, the books and papers not being injured in the least. I can cheerfully recommend your Safes to the community, believing as I do, that they are as near fire-proof as it is possible for any Safe to be made.
