Gendemen: The Salamander Fire-Proof Safe of Gentlemen: The Salamander Fire-Proof Safe of your manufacture, purphased by us from your Agent, Ferris & Garrett, of our city, some nine months ago, was severely tried by burglars last Saturday night, and although they had a sledge hammer, cold chisels, drill, and gunpowder, they did not succeed in opening the Safe. The lock being one of Hall's Patent Powder-proof," they could not get the powder into it, but drilled a hole in the lower panel and forced in a large charge, which was ignited, and although the door, inside and out, showed the explosion not to have been a small one, it was not forced open. We suppose they were the greater part of the night at work on it. We are much gratified at the result of the attempt to enter it, and if the above facts are of any service, you are at liberty to use them.

GREAT FIRE!—ANOTHER TRIUMPH.
KNOXVILLE, TENESSEE, March 13th, 1859.—Messes. Evans & Watson, Philadelphia:

Evans & Watson, Philadelphia:

Gentlemen: It affords me great pleasure to say to you that the Salamander Safe, which I purchased of you in Fobruary, 1858, proved to be what you recommended it—a sure protection from fire. My storehouse together with several others, was burned to the ground in March last. The Safe foll through into the cellar, and was exposed to intense heat for six or eight hours, and when it was taken from the ruins and opened, all its contents were found to be in a perfect state, the books and papers not being injured in the least. I can cheerfully recommend your Safes to the community, believing as I do, that they are as near fire-proof as it is possible for any Safe to be made.
