EVANS & WATSON'S SALAMANDER SAFES. 304 Chestnut Street,

PHILADELPHIA. ANOTHER TRIUMPH!

Рип. адецина, Sept. 29, 1859.

PHILADELPHIA, Sept. 29, 1859.

To the President of the Pennsylvania Agricultural Society:—The subscribers, your committee to examine the contents of a Saiamander Safe of Evans & Watson, after being exposed to a strong fire on the Fair Grounds for eight hours, respectfully represent—

That, after seven cords of oak wood and three of pine had been consumed around the Safe, it was opened in the presence of the committee, and the contents taken out, a little warmed, but not even scorched.

Several Silver Medals heretofore received by the manufacturers, and a large quantity of documents were in the Safe, and came out encirely uninjured.

The experiment satisfied us of the capacity of Safes of this kind to protect contents from any fire to which they may be exposed.

The Committee award a Diploma and Silver Modal.

STILL ANOTHER.

WILMINGTON. Del., Sept, 17, 1859.—Messrs. Evans and Watson, Philadelphia.

Geatlemen: The Salamander Fire-Proof Safe of your manufacture, purchased by us from your Agent, Perris & Garrett, of our city, some nine months ago, was severely tried by burglars last Saturday night, and although they had a sledge hammer, cold chisels, drill, and gunpowder, they did not sucreed in opening the Safe. The lock being one of Hall's Patent Powder-proof," they could not get the powder into it, but drilled a hole in the ilwer panel and forced in a large charge, which was ignited, and although the door, inside and out, howed the explosion not to have been a small one, it was not forced open. We suppose they were the greater part of the night at work on it. We are much gratified at the result of the attempt to entef it, and if the above lacts are of any service, you are at liberty to use them.

GREAT FIRE!—ANOTHER TRIUMPH.

Kyoxville, Text.-ser. March 15th. 1859.—Messrs.

Evans & Watson, Pinladelphin:

Gentlemen: It affords me great pleasure to say to
you that the Salamander Sale, which I purchased of
you in February, 1858, proved to be what you recommended it—a sure protection from fire. My storehouse together with several others, was burned to the
ground in March last. The Sate fell through into the
cellar, and was exposed to intense heat for six or
eight-hours, and when it was taken from the ruins and
opened, all its contents were found to the in a perfect
state, the books and rangers not being injured in the opened, all its contents were found to be in a perfect state, the books and papers not being injured in the least. I can cheerfully recommend your Safes to the community, believing as I do, that they are as near fire-proof as it is possible for any Safe to be made. THUMAS J POWELL.
