- A blooming lass of sweet sixteen
- A shooming has or sweet streets
 First roused my admiration,
 With looks so mild, I thought that she
 Loved me—like all creation;
 My boyish heart at last found words
 Its tale of love to tell her,
 And listened when she fondly swore
 She loved—some other feller!

- The next had charming, golden curls,
 Around her shoulders floating,
 With lip and eye and voice so sweet,
 I scarce could help from courting,
- So mild, so gentle too, was she—
 So little touched with evil,
 But when I made my motive known,
 She proved a perfect d—coquette!
- I tried again, with like results,
- The lower and the higher—
 Each beauty seemed to dote on me
 Until I came to try her.
 So here's a toast to one and all
- The female population;
 I'll keep my pictures, books, and rings,
 And quit the occupation.

REVOLUTIONS

WHETHER in Government or fashions never go backwards. "Old Fogyism" may frown down every exhibition of youthful fancy, yet every issue from the Press of Fashion shows that some new advance has been made in this branch of Science and the Arts.

Recognizing this principle of progress in his department of Trade, J. NYE ROBINSON has not sought to keep up with, but to go a little in advance of the ideas and wants of the community in which he lives both as regards the style and location of his business or the whereabouts and how he does

EVANS & WATSON'S SALAMANDER SAFES 304 Chestnut Street,

PHILADELPHIA. ANOTHER TRIUMPH!

ANOTHER TRIUMPH!

PHILADELPHIA, Sept. 29, 1859.

To the President of the Pennsylvania Agricultural Society:—The subscribers, your committee to examine the contents of a Saiamander Safe of Evans & Watson, after being exposed to a strong fire on the Fair Grounds for eight hours, respectfully represent—

That after seven cords of oak wood and three of pine had been consumed around the Safe, it was opened in the presence of the committee, and the contents taken out, a little warmed, but not even scorched. Several Silver Medals heretofore received by the manufacturers, and a large quantity of documents were in the Safe, and came out encirely uninjured.

The experiment satisfied us of the capacity of Safes of this kind to protect contents from any fire to which they may be exposed.

they may be exposed.

The Committee award a Diploma and Silver Medal GEO. W. WOODWARD, JOHN W. GEARY, J. P. RUTHERFORD, ALFRED S. GILLETT.

STILL ANOTHER. WILMINGTON. Del., Sept, 17, 1859.—Messrs. Evans and Watson, Philadelphia. Gentlemen: The Salamander Fire-Proof Safe of

Gentlemen: The Salamander Fire-Proof Safe of your manufacture, purchased by us from your Agent, Ferris & Garrett, of our city, some nine months ago, was soverely tried by burglars last Saturday night, and although they had a sledge hammer, cold chisels, drill. and gunpowder, they did not succeed in opening the Safe. The lock being one of Hall's Patent Powder-proof," they could not get the powder into it, but drilled a hole in the lower-panel and forced in a large charge, which was ignited, and although the door, inside and out, showed the explosion not to have been a small one, it was not forced open. We suppose they were the greater part of the night at work on it. We are much gratified at the result of the attempt to enter it, and if the above facts are of any service, you are at liberty to use them.

Yours, truly, BAYNARD & JONES.

GREAT FIRE!—ANOTHER TRIUMPH.

KNOXVILLE, TENESSEE, March 13th, 1859.—Messrs.

Evans & Watson, Philadelphia:

Gentlemen: It affords me great pleasure to say to you that the Salamander Safe, which I purchased of you in February, 1858, froved to be what you recommended it—a sure protection from fire. My storehouse together with several others, was burned to the ground in March last. The Safe fell through into the cellar, and was exposed to intense heat for six or eight hours, and when it was taken from the ruins and opened, all its contents were found to be in a perfect opened, all its contents were found to be in a perfect state, the books and papers not being injured in the least. I can cheerfully recommend your Safes to the community, believing as I do, that they are as near fire-proof as it is possible for any Safe to be made.
