BT PAUL WARD.

Bir Isaac having weighed the laws Of gravitation and attraction, Their av'ry "wherefore" and "because," Disposed of to his satisfaction; (Vainglorious of his knowledge clear On subjects of the Fall and Apple!)
Felt drawn to matrimony's sphere,
And dared with Woman's Love to grappie!

A dame was found who thought the sage

Would a celestial body deem her,
Who sought to make the Knight her page,
Her wekeful slave, the star-struck dreamer.
But ah! her conquest, boasted loud,
Proved of an absence most provoking,
Forever wrapped within a cloud—
In fact her flame was always smoking! One day her hily hand he seized,

(A thing he might have thought of scener);
A thrill of hope the cameel seized,
He'd now descend to thoughts sub-lunar! But, stead of pressing it with lip,
As would have been but right and proper,
Its dainty little finger-tip

The lady screamed—the knight implored:
No! twas an insult naught could wipe out.
His tears she scorned, his gifts restored,
And put. for good and all, his pipe out. The story proves (a moral's yoke,

If thread so slight has strength to carry,)

Either that husbands shouldn't smoke, Or dreamy smokers shouldn't marry.

He used -as a tobacco stopper !

To the President of the Pennsyleaniu Agricultur

To the President of the Pennsylvania Agricultural Society:—The subscribers, your committee to examine the contents of a Saiamander Safe of Evans & Watson, after being exposed to a strong fire on the Fair Grounds for eight hours, respectfully represent—

That after seven cords of oak wood and three of pine had been consumed around the Safe, it was opened in the presence of the committee, and the contents taken out, a little warmed, but not even scorehed. Soveral Silver Medals heretofore received by the manufacturers, and a large quantity of documents were in the Safe, and came out encirely uninjured. The experiment satisfied us of the capacity of Safes

STILL ANOTHER.

WILMINGTON, Del., Sept, 17, 1859.—Messrs. Evans and Watson, Philadelphin.

Gentlemen: The Salamander Fire Proof Safe of your manufacture, purchased by us from your Agent, Ferris & Garrett, of our city, some nine months ago, was severely tried by burglars last Saturday night, and although they had a sledge hammer cold chisels, drill, and gunpowder, they did not succeed in opening the Safe. The lock being one of Hail's Patent Powder-proof," they could not get the powder into it, but drilled a hole in the lower panel and forced in a large charge, which was ignited, and although the door, inside and out, showed the explosion not to have been a small one, it was not forced open. We suppose they were the greater part of the night at work, on it. We are much gratified at the result of the attempt to enter it, and if the above facts are of any service, you are at liberty to use them. STILL ANOTHER.

KNOXVILLE, TENESSEE, March 13th, 1859.—Messrs.

Evans & Watson, Philadelphia:

Gentlemen: It affords me great pleasure to say to you that the Salamander Safe, which I purchased of you in Pebruary, 1858, proved to be what you recommended it—a sure protection from fire. My storehouse together with several others, was burned to the ground in March last. The Sate fell through into the cellar, and was exposed to intense heat for six or eight hours, and when it was taken from the ruins and opened, all its contents were found to be in a perfect state, the books and papers not being injured in the state, the books and papers not being injured in the lenst. I can cheerfully recommend your Safes to the community, believing as I do, that they are as near fire-proof as it is possible for any Safe to be made.
