OXYGENATED BITTERS.

For the cure of Dyspepsia on Indicators, Liver Complaint, Asthma, Costiveness, Loss of Appetite, Fever and Ague. Heart Burn, Water Brish, Acidity, Sea Sighness, Scurry, Nausea, Headache, Ennui. and Godera I Debility, or any discase having its origin in imperfect disection.

These Bitters as all classes of our fellow citizens, including Members of Congress. Lawyers, Physicians, Clergymen, Planters, Farmers and others testify, are the oily safe, certain and sovereign specific for the immediate relief and permanent cure of the many crule complaints which in some planses for other of Dyspepsia afflict our race.

These Bitters were discovered by Dr. Gronge B. Green, and in their formula differ eitirely from that of any other preparation of medicine. Containing no alcohol—no mineral—no poison—no accious drug,—in their nature tonic, not stimulating,—retaining their virtues in any clime; they are a "combination and a form indeed" of Medicine which knows no rival in exterminating disease and restoring the system to its pristine vigor and health. No matter of how long standing, or however induced or chronic in its character the disease may be—no matter that it has baffled the skill of the physician, and resisted the efforts of Medicine, a single tria of those Bitters will satisfy the sufferer that his disease sil amenable to the proper remedy.

In testimony of the many cures effected by this Remedy reference is had to the written certificates from distinguished individuals known all over the land.

From among the many letters we are constantly receiving we take the following.—

"GENTLEMEN"—I have used the Oxygenated Bitters in my practice with decided success in Debility and General Propriation, and confidently recommend it in cases of General Debility or Derangement of the Digostive Organs.

This medicine has been used with like success by A. Hobard of Richmond; Miss Mary A. Snover of Covington, and Miss Catharine Beck of Liberty.

Hostetter's Stomach Bitters.

Hostetter's Stomach Bitters.

In View of the fact that every member of the human family is more or less subjected to some complaint, besides manumerable other conditions in life, which, by the assistance of a little knowledge or exercise of common sense, they may be able so to regulate their habits of diet, and with the assistance of a good tonic, ecure permanent health. In order to accomplish this desired object the true course to pursue is certainly that which will produce a natural state of things at the less thazard of vital strength and life; for this end Dr, Hostetter has introduced to this country a preparation bearing his name, which at this day is not a new medicine, but one that hos been trued for years, giving satisfaction to all who have used it. The Bitters operate powerfully upyn the stomach, bowels and liver, restoring them to a healthy and rigorous action, and thus by the simple process of strengthening nature, enable the system to triumph over disease.

orer disease.

For the cure of Dyspepsia Indigestion, Nausea, Flatulency Loss of Appetite, or any Billious Complaints, arising from smobile insertions of the Stumen or Bowels, producing Cramps Pysentery, Colic, Cholera Morbus, Ac., these Bitters have no an equal. n equal. Diarrhoca, Dysentery or Flux, so generally contracted by Distribuca, Dysentery or Firx, so generally contracted by new settlers, and caused principally by the cange of water and diet, will be sheedily regulated by a brief use of this preparation. Dysen-sia, a disease which is probably more revalent when taken in all its various forms, than any other, the cause of which may always be attributed to derangements of the digestive organs can be cined without fail by using HOSTETTER'S STOMACH BITTER'S, as per directions on the bottle. For this disease every physician will recommend litters of some kind, then why not use an article to be infallible? Every country have their litters as a preventive of disease and strengthening of the system in general, and among them all there is not to be found a heafther people than the Gerbuna, from whom this preparation chanated, based upon securitie experiments which have rended to advance the destiny of this giant preparation in the medical scale of secures.

advance the destiny of this great preparation in the medical scale of science.

Fiven and Aure.—This trying and proposing disease, which firstees its relenitess grasp on the body of man, reducing him to a mere shadow in a short space of time, and reinfering him physically and mentally useless, cur be defeated and driven from the body by the use of HUSTETTER'S RENOWNED BITTER'S. Further, any of the above stated diseases cannot be contracted when exposed to any ordinary conditions producing them, if the Ditters are used as per directions. And as it neither creates naise, nor offends the platt, and rendering unnecessary any change of died or interruption to usual pursuits, but promotes sound sleep and healthy digestion, the complaint is thus removed as speadily is is consistent with the production of a thorough and permanent cure.

nanent (ure.
For Persons in Advanced Years who are suffering from an according constitution and infirm body, these Bitters are in For Personz IN Advanced Years who are suffering from an enfectived constitution and infirm body, these litters are invaluable as a restorative of strength and vigor, and needs only to be tried to be appreciated. And to a mother while nvesing, these litters are indispensable, especially where the mother's neurislinent is inadequate to the demands of the child, consequently her strength must yield-and here it is where a good tonic, such as Hostetter's Stomach litters, since seed to impart temporary strength and sight to the system Ladies should by all means try this remedy for all cases of debulty, and before so doing, set your physician who, if he is acquainted with the virtue of the litters, will recommend then use in all cases of weakness.

CAUTION.—We caution the public against using any of the many innations or counterfeit, but ask for Hostetter's Caution who, is the words "Dr. J. REVOLUTIONS W HETHER in Government or fashions never go buckwards. "Old Fogylsm" may frown down every exhibition of youthful fancy, yet every issue from the Press of Fashion shows that some new advance has been made in this branch of

Science and the Arts. Recognizing this principle of progress in his depart-ment of Trade,

J. NYE ROBINSON has not sought to keep up with, but to go a little l'a nuvance of the ideas and wants of the community in which he lives both as regards the style and location of his business or the whereabouts and how he does it. t.

Believing that houesty of purpess and a strict.

will under ordinary circumstances insure success he undertook to manufacture for this community a pertion of their CLOTHING.
