THE METEOR.—The sensation of the past reek has been the meteor or aerolite which was seen about half-past nine o'clock on Friday night last. Its passage over this borough was from a few points North of West in an easterly direction. In this particular all who saw it are agreed; but as to other particulars there are as many conflicting accounts as a phenquenon of this kind could well furnish. The meteof a visit this week from Joseph Hall, Esq., whilem or itself is generally described as being very white, editor of the Schoharie Republican. He is on a visit resembling iron in a white heat, with a tail formed of to his friends, and looks as if he enjoys life with a clear | small and vari-colored stars. Its motion was quite slow-the time of passage being variously estimated at from one-half of a minute to two minutes, the forvisage of Hull, of the Bath Courier, who looked in- mer perhaps being nearest correct. It was quite luminous, so much so, that many people who were indoors, ran out supposing their neighbors' houses to be on fire. Although it was high above the clouds, (cumulus), yet the general impression was that it was quite near the earth. It was followed by a noise as of the rushing of a heavy body of water; and some assert that they heard a noise like distant thunder, and believed it to be the sound of its explosion.

It caused some fun. One man said it struck his side hill; another said it was so 'close he could have struck it with his cane. We hear of a girl who saw it coming and "dodged." One man near Blossburg said it lit in his elearing; while another, on the Cowanesque, says the same thing. A fellow sitting in a grocery in Corning ran out and "hollered fire!" The correspondence of the New-York dailies show that it traversed other longitudes that ours. Writers in Albany, in Brooklyn and other places describe it as being quite as close, apparently, to them as it was to us.

In September, 1841, a shower of many millions of meteoric stones, the greater number of which were not larger than small hailstones, occurred in Hungary, their chief ingredients being oxydate of iron, oxyde of iron, and oxybydrate of iron, with flint, lime, and clay earth.

Hostetter's Stomach Bitters.

In VIEW of the fact that every member of the human family is more or less subjected to some complaint, besides innumerable other conditions in life, which, by the assistance of a little knowledge or exercise of common sense, they may be able so to regulate their habits of dick and with the way to be able to the common sense, they may be able so to regulate their habits of dick and assistance of a little knowledger exercise of common sense, they may be able so to regulate their habits of dict, and with the assistance of a good tonic, secure permanent health. In order to accomplish this desired object the true course to pursue is certainly that which will produce a natural state of things at the least lazard of vital strength, and life; for this end Dr. Hostetter has introduced to this country a preparation bearing his name, which at this day is not a new medicine, but one that hos been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully uppy the stomach, bowels and liver, restoring them to a healthy and vigorous action, and thus by the simple process of strengthening nature, enable the system to triumph over disease.

cess of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia Indigestion, Nausea, Flatulency, Loss of Appetite, or any Billious Complaints, arising from a morbid inaction of the Stimach or Bowles, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have not an equal.

Distributes, Dysentery or Flux, so generally contracted by new settlers, and caused principally by the cange of water and diet, will be sheerilly regulated by a brief use of this preparation, Dyspepsia, a disease which, is probably more prevalent when taken in all its various forms, than any other, the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions gut the bottle. For this disease yeary physician will recommend Bitters of some kind, their why not use an article to be infallible? Every country have their Bitters as a prayentative of disease and strengthening of the system in general, and among them all there is not to be found a healthier people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to advance the destiny of this great preparation in the medical scale of science.

Fyera And Acue.—This tying and provoking disease, which

advance the destiny of this great preparation in the medical scale of science.

FFYER.AND AGUE.—This to ying and provoking disease, which factors its relentiess grasp on the body of man, reducing him to a mere shadow in a short space of time, and rendering him physically and mentally useless, can be deficated and driven from the body by the use of HOSTETTER'S RENOWNED BITTER'S. Further, any of the above stated distances cannot be contracted when exposed to any ordinary conditions producing them, if the Bitters are used as per directions. And as it neither creates masses, nor offends the plants, and rendering unnecessary any change of died or interruption to usual pursuits, but promotes sound sleep and healthy digestion, the complaint is thus removed as speedily as is consistent with the production of a thorough and permanent cure.

as is consistent with the production of a thorough and permanent ure.

FOR PERSONE IN ADVANCED YEARS who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and needs only to be tried to be appreciated—And to a mother white nursing, these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stamath, Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, sind before so doing, asky your physician who, if he is acquainted with the virtue of the Bitters, will recomined their use in all cases of weaknes.

GAUTION.—We cantion the public against using any of the many inn.attons or counterficies, but ask for HOSTETTE'S CRIEBRATED STOMACH BITTERS, and see that each bottless the words "Dr. J. OXYGENATED BITTERS.

OXYGENATED BITTERS.

For the cure of DVSFEPFIA OR INDICESTION, Liver Complaint, Asthma, Coativeness, Loss of Appetite, Fever and Ague, Heart Burn, Water Brish, Acidity, Sea Sickness, Scurvy, Aatsea, Rhydache, Enuni, and General Debility, or any disease haying its origin in imperfect digestion.

These BITTERS, as all classes of our fellow citizens, including Members of Cohgress. Lawyers, Physicians, Clergymen, Planters, Farmers and others testify, are the only safe, certain and sovereign SPECITE for the immediate relief and permanent cure of the many cruel complaints which in some phase or other of DVSEPSIA afflict our race.

These BITTERS were discovered by Dr. Geong B. Guers, and in their formula differ entirely from that of any other preparation of medicine. Contaming no sleohol—no mineral—no poiso—no no acous drug,—in their nature tonic, not stimulating,—retaining their virtues in any clime: they are a combination and a form indeed of Medicine which knows no rival in exterminating disease and restoring the system a "combination and a form indeed" of Medicine which knows no rival in exterminating disease and restoring the system to its pristine vigor and health. No matter of how long standing, or however induced on chroine in its character the disease may be—no matter that it has haffled the skill of the physician, and reasted the efforts of Medicine, a surgle trin of these Bitters will satisfy the sufferer that his disease sil amenable to the proper remody.

CONSUMPTION CAN BE CURED.

The whole history of this medicine fully confirms the opin ion of that eminent man. Thousamls can testly, and have testified, that when all other remedies had lailed, this had completely cured; that when the suffers had well migh desphised, this had afforded immediase relief; that when the physician had pronounced the disease incurable, this has removed it entirely.

The virtues of this Balsam are alike applicable to cure a slight cold or a Confirmer Consumption, and its power as a safe, certain, speedy, pleasant and effectual remedy cannot be equalled. equation!
