WELLSBOROUGH, PA.,

Thursday Morning, Aug. 2, 1860.

S. M. Perrevoill & Co., 119 Nassau St., New York, aid 10 State St., Boston, are the Agents for the Apitator, and the most influential and largest circulating Newspapers in the United States and the Canadas. They are authorized to contract for us at our lowest rates.

We stop the press to acknowledge the receipt of a nice mess of green corn from our friend G. D. Keeney, Esq., of Keeneyville. If he don't steep sound, it isn't because a printer's bill troubles his conscience. Long life to him.

The County Superintendent-H. C. Jours; Esq., -informs us that he will not be able to visit all the schools during the present Summer session, in consequence of his not receiving his commission until very recently. When he received his commission; only about six weeks remained before the close of a mojority of the schools.

A meeting was held on Monday night in Roy's Hall for the purpose of organizing a Fire Company, and taking measures to procure an engine. J. N. Bache Esq. was chosen Pres't., and R. Jenkins, Sec'y-The meeting was addressed by Messrs. Wilson, Shakespeare, and others. On Tuesday night an adjourned meeting was held in the same place, at which it was resolved to petition the Borough Fathers to levy a tax for the purpose of procuring an engine.

The Guardian is the name of a new and neatly printed Republican newspaper, just started in Phoenixville, Chester County, Pa., by Dr. J. H. Puleston, formerly of the Pittston Gazette. Mr. P. is an exceldent writer and thinker, and gets up a paper worth reading. We wish the Guardian all success.

A new Republican paper, The Times, has just been started at Olean by L. M. Gano. It starts out with a good advertising patronage, and looks well. Success

To Correspondents .- All communications intended for the Agiraron must be received by us as early as Tuesday noon, otherwise they will be laid over to the next week. We go to press on Tuesday night, in order to get our paper into the maits-the intention being that every subscriber in the County will receive his paper by at least Friday night. In order to bring this object about, we shall next week change the publication day from Thursday to Wednest day of such week.

The Executive Committee of the Tioga County Central Republican Club requests us to state, that a meeting of said Club will be held in the Court House in this Borough on Tuesday evening next (August 7th), at half-past seven o'clock. Hos. A. Humphrey, B. B. Strang, S. B. Elliott, S. F. Wilson and other speakers are expected to be present. It is intended to arrange a series of weekly meetings of the Club in different parts of the County. A general attendance is requested. The ladies are cordistly invited, and we trust that they will be largely represented.

22 Early on Sunday morning last, a gentle rain commenced falling, which continued at short intervals all day. It was much needed by our farmers, and benefitted all our garden and field crops. We had also some pleasant showers on Tuesday.

From our own section of country as well as from all parts of the South and West, we hear and read of bountiful harvests. Cereals and roots of all kinds are abundant, and fruit never was so plentiful before .-There will be, we expect, a better display of fruits at our Fair than there has been at any provious one which is saying a great deal.

New SESSATION.—It is reported that the Prince of Wales will pass through Elmira, on his visit to Washington.—Ilmira Press.

-In which case he will pass within thirty miles o Wellsboro. Great sensation to our people. It is quite probable that the Prince will take the other route, via Pittsburgh, on his way from Canada to Washington. It is also probable that he may pass through Wellsboro on his way to the "Izaak Walton House," in Gaines, if he should want to go to the best trout-fishing grounds in the United States. In that case the sensation folks of Elmira will have to come here.-Grent sensation to our Wellsboro folks, and tremendous sensation to the Prince. If he comes here we We shall expect both Vax and Buyars to stop with us, and we would pure of red oxen, supposed to be 7 or 8 years old; a branch of the red oxen, whether the Prince cames branch out the left horn of each ox. The owner be glad to see either of you, whether the Prince comes

AN EXTENSIVE SAW MILL.—The Williamsport Gazette, in the course of an article in relation to the extensive lumber establishment of Langdon & Diven in that town, says:-"It contains at this time one flat gang of 24 saws, one slabbing gang of 10 saws, one flat gang of 25 saws, one round gang of 16 saws, one flat gang of 30 saws, one slabbing gang of 8 saws, one flat gang of 18 saws, three English gates (a, single saw each), one lath gang of 2 saws, and 1 bolting saw-in all one hundred and forty-two saws-and is capable of manufacturing two million feet of lumber per month. With one gate, one day last week, T. J. Gilmore, one of the employees, cut 47 logs, the smallert of which contained 350 feet, in 41 hours. Attacked to the mill are piling grounds for 7,000,000 ft. of lumber. These grounds are ramified by a railroad -branching from a main trunk, which starts in the mill-upon which the lumber is taken from the saws -to the piles. The power at command to drive the machinery is equal to about 200-horse-rather more than less that-and about seventy men are employed around the mill."

THE MURDER AT TROY .- We learn from the Elmira Press that a coroner's inquest was held on Tuesday upon the body of Benjamin Clark, the child so brutally murdered at Troy by Seth Brigge. It appears that Briggs was much addicted to drinking, and on the morning of the murder had so inhumanly treated his wife as to oblige her to flee to the neighbors for protection, subsequently making an ineffectual attempt to destroy his own life, by using the same means .-Raiggs and his wife were very much attached to the child, and it is singular, if not unaccountable, that he should destroy its life. The jury found a verdict of willful murder, and the poar inebriate was committed to the Towarda jail, pending his trial at the next

-If we have heard the facts correctly, we can hardly see how a jury can find a verdict of willful murder; and we seriously doubt that the man is as guilty before God as those who sold him the poison which caused him to commit the horrible deed. The Incbriate Asylum would be a far more appropriate place for him than the confines of a jail. The case is but one more addition to the already extensive list of the ; demoniac effects of rum. The same tribunal that permits its sale and use, a ill punish its unhappy victims for deeds committed while under its influences, while the demon itself is allowed to stalk unmolested throughout the land.

Mr. DILLISTIN, the gentlemanly agent of the Tioga R. R. at Berry's Bridge, has favored us with a copy of the King William's Town Banner and Advertier, a newspaper printed in the English language in the Colony of British Kaffraria, in Southern Africa. It is filled chiefly with advertisements, which convey a good impression of King William's Town. (By the way, a newspaper, well patronized by advertisers, conveys a good impression of the business of any town.)

THE AGITATOR. The paper contains one or two good editorials: one on the progress of civilization in Refficient which we extract a paragraph or two. It says:

which we extract a paragraph of two. It says:

"The ladies, native Kaffir, discarding the use of red-clay and fat, now protect their fates from the solar rays by an umbrella. This is used, however, in the town only; on the road it is folded and balanced on the head: Does not this remind one of our Caledonian rustic beauties, who, on coming to the kirk don the shoes and stockings just as they come in sight, and with a due regard to economy pull them off again after service?

To the Republican Electors of Tioga County : The subscriber is a candidate for the office of Register and Recorder. He has not very often presented claims for office, generally preferring the independence of private life, but in the present instance, he is constrained to depart from his usual course of action for the following reasons:—1st. He needs the emoluments the following reasons:—lst. He needs the emoluments of the office for the support of that half of his family under fourteen—those above that age generally take care of themselves:—2d. He has many calls on his purse for contributions to religious, charitable, moral, literary, and political objects, which he finds'it impossible to answer with his present means, and thinks it but just that public patronnge should go to those who patronise the polic:—3d. The office is a very good one for the amount of labor bestowed upon it, averaging about one thousand dollars a year, and as the subscriber can perform the duties equally as well as the present incumbent who has had it six years, he thinks that Tioga Co. will take pleasure in bestowing it upon one who has for the last thirty two years, been fully identified with her interests, and improvements.

He of course submits his claims to the Republican County Convention.

Hostetter's Stomach Bitters,

INSIGUEUR'S SUOMACH BILLIORS.

In VIEW of the fact that every member of the human family is more or less sabjected to some complaint, besides innumerable other conditions in life, which, by the assistance of a little knowledge or exercise of common sense, they may be able so to regulate their habits of diet, and with the assistance of a good tone, secure permanent hoalth. In order to accomplish this desired, object the true course to pursue is certainly that which will produce a natural state of things at the lesst hazard of vital strength and life; for this end Dr. Hostetter has introduced to this country a preparation bearing his name, which at this day is not a new medicine, but one that hos been tried for yearth, giving sittifaction to all who have used it. The Bitterf operation werfully upps the stomach, bowels and liver, restoring them to a healthy and vigorous action, and thus by the simple process of strengthening nature, enable the vision to triimph over disease.

For the cure of Dyspepsia Indigestion, Nadea, Flatulency, Loss of Appetite, or any Billious Complaints, arising from a morbid inaction of the Stimuch or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbins, &c., these Bitters have not an equal.

Diarrhoea, Dysentery or Flux, so generally contracted by new settlers, and caused principally by the cange of water and diet, will be sbeedly regulated by a brief use of this preparation, Dyspepsia, a disease which is probably more pravalent when taken in all its various forms, than any other, the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions gan the bottle. For this disease every physician will recommend Bitters of some kind, then why not use an article to be infallible! Every country have their Bitters as a preventative of disease and strengthening of the system in general, and among them all there is not to be found a healthier people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to advance the destiny of this great preparation in the medical scale of science.

These Bitters, as all classes of our fellow citizens, including Members of Congress. Lawyers, Physicians, Clergymen, Planters, Farmers and others testify, are the only safe, certain and sovereign spectric for the immediate relief and permanent cure of the many cruel complaints which in some phase or other of Dyspersia afflict our race.

These Bitters were discovered by Dr. George B. Grezz, and in their formula differ entirely from that of any other preparation of medicine. Containing no alcohol—no mither al—no poison—no noxious drug,—in their nature tonic, not atimulating,—retaining their virtues in any clime; they are a "combination and a form indeed" of Medicine which knows no rival in exterminating disease and restoring the system to its pristine vigor and health. No matter of how long standing, or however induced or chronic in its character the disease may be—ho matter that it has halfied the skill of the physician, and resisted the efforts of Medicine, a single trik of these Bitters will satisfy the sufferer that his disease sil antimable to the proper remedy.

In testimony of this many gares effected by this Remedy reference is had to the written certificates from distinguished individuals known all over the land.

Fyera AND ACUZ.—This trying and provoking disease, which fastess its relentless grasp on the body of man, reducing him to a mere shadow in a short space of time, and rendering him physically and mentally useless, car be defeated and driven from the body by the use of HOSTETER'S RENOWNED BITTER'S. Further, any of the above stated disted diseases cannot be contrarted when exposed to any ordinary conditions producing them, if the Bitters are used as per directions. And as it neither creates nusses, nor offends the palati, and rendering unnecessary any change of died or interruption to usual pursuits, but promotes sound sleep and healthy digestion, the complaint is thus removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persone in Advanced Years who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and needs only to be tried to be appreciated. And to a mother while invrsing, these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stohnach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and before so doing, ask your physician who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakners.
