The Wallsbord ass Band has also been engaged to enliven the expionists on their journes, and we beleve the general tention is, to have a "good time." Of course everydy and his wife will be there, not to speak of the ging folks." From our knowledge of those who have charge the general arrangements, we do not hesitale guarantee a delightful time of it, if the weather ould prove at all favorable.

We learn that S. Pierce, Explormerly of Troy, this county, and now of Wellthough, Tioga county, has dome out for Lincoln and amin. Mr. P. has always been a strong Democratat like many others, has become disgusted with it, thus the work

goes on.—Argus.

We clip the above from the Argus, cast week, and have the pleasure to inform it that it boring under a mistake. We learn from a gentlering under teracity, that Mr. Pierce is as machingrised as his many friends of this county are average above announcement to the effect he had commit for Lincoln. He supports with a hearty good will, the gular Democratic nominees, Douglas and Johns. "Thus the work goes on"—Herald.

We hope our Towards friends; willot get by the ears over the politics of our friend Pre. We learn from "a gentleman of undoubted verity," that Mr. P. is going to vote for Breckinridge a Lane. Thus the work goes on. -

Suicing.—Early on Fridey moing last, Wm. Yahn, a German living in Delmir, out a mile west of this Borough, committed suicida shooting himself through the head with a past The deceased had been laboring under mental lession for a number of days, caused by demestic in monetary difficulties. It appears that he arose out half past five clock, built a fire in the kitches ve, ascended the stairs to the bed room where his and three children lay asleep. He spoke to hit e, and asked her to get up, but on account of som prmer threats of violence she refused to do so, and fied her face from him. She then heard the report the pistol and on looking around, she saw him lyin ad upon the floor. In the afternoon a jury of interwas empanneled by Esq. Emery, and after examin several witnesses, corroborating the above facts, jury rendered the following verdict:

William Yahn at Delmar, he county of Tioga, on the 3d day of August instimulated spicide by shooting himself in the helpd h 3 pistol while laboring under a state of jempey insanity."

NEW PRESS. We hancy had in operation in this office for the last three caur weeks, one of Newbury's "Mountain Johb' and can knowingly speak of its morits. For ness, cheapness, durability and speed, we have lome if ever seen it equaled. With one acquain with its mode of oneration, it is an easy matter in off twelve or fifteen hundred impressions in an . Indeed, a hand in this office who had nover re seen one of these presses, the other day works ith comparative ease, twenty three cards a minuta he impression, without being heavy, is clear an stinct, and from two to ave hundred cards or cares can be worked with a single coloring—the last lession being invariably as good as the first. We passure our brethren of the country press who are hut of a two hundred dollar press for sixty dollar at they cannot do better than to purchase New's "Mountain Jobber and Card Press." Order eletters of inquiry, may be addressed to Mr. J. B.L., W. sboro, Pa.

-With our present facili having recently added largely to our stock of jet material, we are prepared to do any kind of pag neater and cheaper than any country office we New York. We only ask for a fair trial; our waill speak for itself.

The Concert of Midson Brothers, in this village, on Wednesday eve last, was largely attended. The exercises for that part were creditable, although some dissatisfactives expressed in regard to the execution of som the pieces. "Twenty Years Ago," a ballad upitaly admired, was spoiled by the introduction of tries, &c., by the one who personated "John." also considered poorly sung. The patriotic quai "We're many in One." is a beautiful production sung with much spirit, and loudly encored. "As Music in the Air," "Origin of Yankee Door State Spangled Banner," and other quartetti, allads, each received its share of applause. Me jers, one of the best Soprano singers we ever lin to received, perhaps, the most applause. "That to be Kemembered," a touching song composed und by him, was particularly pleasing, and graneral satisfaction, as did also the song and chorn the Hark I hear an Angel sing." Many buls pieces, which, by the way, were well selected, as mirably executed. "My Mary Ann," "Mrs. Lo. 21," "Man's a Vapor" and "Woman's a Vapas, each laughingly received. The latter, howers of ght scowls to the faces of the ladies. The Cong as concluded with a spirited quartette, entitled has our Union For-ever." Attogether, the "Hund pothers" is the best

ANOTHER METEOR.—At half past seven e'clock on Monday evening we were surprised by the appearance of another of those singular aerial travelers which at long intervals appear unberalded, and disappear again, leaving us lost in wonder at their beauty and brilliancy. Our attention was first called to it when it was in the zenith, so that we had a good opportunity to judge of its appearance. It was going in a direction nearly North and occupied about twenty seconds in its passage. It was exceedingly white and brilliant. It appeared to be half a mile high, its nucleus being divided into two stars distinctly separated from each other, followed by a long and streaming tail. A gentleman who witnessed the meteor two weeks ago, thinks that the last one would have appeared equal in size and brilliancy to the first, had it appeared two hours later in the evening. Its appearance by daylight, perhaps, explains its whiteness, or rather the absence of the various colors which characterized the first one. The Tribune of Monday gives a long and interesting account of the various meteoric phenomena which have astonished the scientific world at different times. From it we learn that there are some half dozen periods at which they are very abundant. They are April 22 to 25, July 17 to 26-during which the first meteor appeared; August 9 to 11during which the late meteor did not appear; Oct. 16 to 18, Nov. 12 to 14, and 27 to 29, and Dec. 6 to 12. We advise everybody to keep a good look-out for meteors as they are among the most beautiful of known phenomena, and history shows this month to be richer in them than any other.

Miss Washburn advertises herself as a trance nedium and lectures through the country-the audi ence, at her request, choosing a subject for her before she begins. On Monday evening last, she visited Wellsbore and held forth in the Court House to a tolerably good audience. The meteor, which had passed over our berough about half an hour before, suggested these phenomena as the subject of her lecture. The medium, a neatly-dressed girl about twenty-five years old, arose in the desk, rolled her eyes and otherwise distorted her countenance; and proceeded in a discourse of about an hour and a half in length. What it was all about would puzzle almost anybody to tell, but it certainly was not about meteors. There was any amount of such phrases as constitute the stock in trade of all the religious humbugs of the day. She talked about the "earlier periods of fime," the "unalterable laws of Nature," of "Confuctous and the Grecian, Chaldean, Hindoo and Egyptian priesthood"thus affecting to be very learned in Ancient History and Grecian mythology. She also talked incessantly of "Nature's volumes of inspiration," of "man's sur roundings and creative fullness," of the "myriad of worlds," and of the "world of mankind;" also of the 'material earth" and "the God-given faculties of expansion,";of the "epochs of time" and "the meteor lights of inspiration," whatever they are. If she repeated these meaningless and clap-trap phrases once, she certainly did at least twenty times, mixing them up occasionally with stale platitudes and illogical deductions from her own assertions until the audience | st got tired out, and the boys began to manifest their impatience. We would respectfully advise Miss Washburn to turn her attention to some business for which UNION ACADEMY, JULY 23, '60. she is more fitted by the "unalterable laws of Nature" than that of a public speaker for which, in our humble opinion she is wholly unfitted both by culture (of the want of it) and talent. If she is the medium of another intelligence than her own, as she claims to be, she would do well to dismiss her present familiar spirit and engage the services of another and more sensible one. We conclude this notice of her with the single remark, that all religious denominations have their Chadbands and humbugs, and it is but justice to say that it is nothing to the discredit of Spiritualism that she claims to be one of its teachers.

The side-walks were thronged with little knots of men and boys, some trading jook-knives, some talking politics and canvassing the charces of their favorite candidates, and some concert troupe that has visible laboro, for a long prepared themseves by the inspiration of lager to enwere evidently bent on having a little fun, and had

He could lick anybody in Wellsboro-he said, or else he would get licked; the crowd (which had now increased) might depend on that One young fellow, with a blue shirt and good-natured face, went smilingly up to Mr. Green Spectacles and signified his willingness to oblige him by hitting him a slap on the chops, with his dexter mauley unclosed. Green Specks considered this a declaration of war, and prepared to go in. Blue Shirt came up smiling, and planted his sinister bunch of fives lightly on Green Specks' sneezer. G. S. looked surprised, not to say mortified, not to say disgusted and struck boldly out in the direction of his opponent; but as he was now minus his spectacles he was not clear as to distances, and the force of his own blow at wacancy brought him to grass,

Round second was not so interesting. Both came to time, but contrary to all rules of the P. R. Blue Shirt got hold of Green Spectacles by the hair of the head, twifled him round and round like a top, "warmed his ear wax" with his open hand, and concluded by kicking him about eight inches below the ornamental buttons on his coat-tail. The sponge, was thrown up and the fight was over, Mr. Green Spectacles retiring from the Ring, "a sadder and a wiser man." -A word or tv o seriously. It was evident that the

The law strictly forbids those who sell liquors by license to sell under any circumstances to those under age, and makes it a misdemeanor with a penalty. Yet some one had sold this young fellow enough word-fish whiskes to make himself foolish with, to the great annoyance of nearly everybody. We trust that those whose duty it is to see that the laws are strictly enforced, will not fail to ferret out and report such violations to the next Grand Jury. It is bad enough to see drunken men in our street, but it is

In order to accomplish this desired object the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital istrapth and life; for this end Dr. Hostetter has introduced to this country a preparation bearing his name, which at this day is not a new medicine, but one that hos been tried for years, giving satisfaction to all who have used it. Dysentery, Cohe, Cholera Morbna, act, these Bitters have not an equal.

Durrhoes, Dysentery or Flux, so generally contracted by new settlers, and caused principally by the cange of water and diet, will be absorbly regulated by a brief use of this preparation, Dyspopsia, a disease which is probably more prevalent when taken in all its various forms, than any other, the cause of which, may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S TONACH BITTERs. as per directions go the bottle. For this disease every physician will recommend Bitters of some kind, then why not use an article to be infallible! Every country have their Bitters as a preventative of disease and strengthening of the system in general, and amongs them all there is not to be found a healther people than the Germans, from whom this preparation emanated, based upon setten life experiments which have tended to advance the deatiny of this great preparation in the medical scale of science.

Peyer was dange—This trying and provoking disease, which

advance the deatiny of this great preparation in the medical scale of science.

FFYER AND AGE.—This trying and provoking disease, which fastees its relentless grasp on the body of man, reducing him to a mere shadow in a short space of time, and rendering him physically and mentally useless, can be defeated and driven from the body by the use of HOSTETIER'S RENOWNED BUILTERS. Further, any of the above stated disted diseases cannot be contracted when exposed to any ordinary conditions producing them, if the Bitters are used as per directions. And as it neither creates nauses, nor offends the palatt, and rendering unnecessary any change of died or interruption to usual pursuits, but pipmotes sound sleep and healthy digrestion, the complaint is thus removed as speedily as is consistent with the production of a thorough and permanent cure.

For PERSONE IN ADVANCED YEARS who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and needs only to be tried to be appreciated. And to a fighter while marring, these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hosterter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Lades shouldby all means try this remedy for all cases of debility, and before so doing, ask your physician who, if he is acquainted with the virtue of the Bitters, will recommend their nee in all cases of weaking's.

if he is acquainted with the virtue of the Bitters, will recommend their use in all cuses of weakings.

Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic car covering the cork, and observe that dur autograph signature is on the label.
