For the dissemination and exposition of those principles which underlie the foundation of our government, and which deal so fairly and at the same time justly with all classes, we all worked, each in his degree, up to the hour when the polls closed, and the freemen of Pennsylvania had "thundered an efernal negative" against the oppression of Aristocracy, and the might of wrong. AFTER THE ELECTION. It is hardly necessary to speak of the anxiety which everywhere prevailed, up to Thursday morning, when the cheerful news of "30,000 majority for Curtin !" was hailed by the earnest people of our quiet valley as the sign of redemntion, and the herald of universal eman cipation, from the bonds of eternal slavery. Hardly had the train bearing the happy news passed, ere the echo of cannon thunder reverberated along the gentle Tioga and its tributary valleys, till it swelled far away upon the hills, and to free men, who had the cause at heart, wafted the joyful news upon the morning a through ticket until the propriety of changbreeze in tones of such solemnity as none can ing location is certified to by Dr. Vox Populi feel but those beneath the tree of liberty ;: Such | next November. Hox. G. A. GROW, This gallant champion of freedom has been re-nominated for Congress by the Republicans of the "Wilmot District." It makes every Pennsylvanian feel proud to delegation in Congress, and is to be returned. He is one of the true and tried men who have dared to stand up manfully against the aggressions of the Slave Power on all occasions.-Our people were delighted with his speech at Uniontown last Saturday, and will hail his reelection with great satisfaction. Freedom his no worthier, nobler son than Galusha A. Grow. -Fayette Patriot.

"Glorious Victory."

HUCH YOUNG, Esq .- The long looked for pe riod in the political history of Liberty township has arrived at last, Tuesday last was the memorable day when she emerged from the Egyptian-like Demogratic darkness that had hovered over her pil tical horizon for nearly a half a century. Yes, on that day, the people threw off the shackles of modern Mulatin De-mocracy, and declard by their votes not to be Warren ...... 700 Washington ..... 700led any longer by the would-be leaders of the rotten Democracy who flourished for some years in our township, and done their best to keep the members of their party as ignorant as themselves with regard to the true standing of their corrupt party. On the 9th of Oct., 1860,, we accomplished what we have been wishing and working to do for the last six years. But I can tell you, it has only been brought about by the well disciplined operations of the Republican Club, Had we not organized ourselves into an invincible spartan band, the glorious victory never would have been gained over the enemy. But we were determined to go into the work shoulder to shoulder, and if it were possible, to show the misled honest farmers of our township the inconsistency of their giving their support to a party that was sapping the very foundation of our government by their Free Trade system, why we would willingly spend our time in circulating documents and making speeches so that they might see the errors of their ways and turn over on to the side of that party which holds that immortal principle set forth in the glorious Declaration of Independence "that all men are created equal, and are endowed by their Creator with certain inalienable rights, that among these are life, liberty. and the pursuit of he ppiness." In conclusion I would say that by our labors for the last two months, we have brought about a state of things which we trust will tell on our community for years to come. Lincoln and Hamlin must, and shall, have a majority in old Liberty(in Novem-G. R. SHEFFER. ber next.

Twenty-one out of the twenty-five members of Congress chosen, are Republicans. We may add, however, that the election of Butler, (Rep.) in the 1st District, Philadelphia, will be contested by Lehman, (Dem.)

Three-fourths of the State Senate, and two thirds of the House, are also Republicans, ensuring the election of a Republican United States Senator, in place of Beef Bigler, a Sinte Treasurer, &c.

On the same day of the Pennsylvania election, elections for State officers were held in Ohio and Indiana.

Ohio has elected the Republican State Ticket by 20,000 majority, 13 or 14 Republicans tics in both branches of the Legislature.

Indiana elects a Republican Governor by on the Republican State Ticket. Seven Repub- torches, mutually to inspect the proportions of though, and fear he may not heed their friend-

The speakers each claimed that the power of Congress over the Territories was now established by the people who are the rightful sovereigns, and the only source of power. The people were all well pleased by the demonstrations of the evening, and were mirthfül, but not boisterous. After Mr. Numphrey had finished, it was announced, by suggestion of the band, " That as Dr. Humphrey and mentioned the fact of the death and burial of the Democratic Party, the band will play its dirge-the last knell of Sham Democracy-the song of the Democrats since the election of the 9th Oct. 1860." The band then performed a low, plaintive melody, and the audience dis persed. There then followed a general oyster upper, and the demonstration of our people in commemoration of the great event, which sealed the doom of Slavery extension in free America. It is now proposed to have a general torchlight parade, on the evening of Friday before the election in November. How well this undertaking will succeed, remains to be seen; but one thing is certain : It is comparatively without expense, and most certainly makes an excellen impression. It makes Democrats look paler than usual, and puts Republicans in high
