A Novelty in the Art World! PHOTOGRAPHY UPON PORCELAIN. Secured by letters patent in the United States, England, France, and Belgium.

THE AMERICAN PHOTOGRAPHIC POROBLAIN COMPANY, No. 781 BROADWAY NEW DRE having secured their novel and ingenious invention American and European patents, are fully prepared to ex-

MINIATURE LIBERESSES OF PERSONS ON CHINA; MINIATURE LIKENIESES OF PERSONS ON CHINA;

presenting all the attractive and advantageous features of ordinary photographs, the brilliancy and finish of a water-color drawing, and a hitherto unattained quality of durability,
by being rendered as imperishable as the natural properties
of the articles upon which they are transferred.

As the patented process of the Company enables the reproduction of photographs, not only on plain surfaces, but upon
such as are round or of any degree of irregularity—portraits
can be reproduced with faultless accuracy, and delicacy of
delineation, upon percalain wares of any description and dimension used as articles of luxury or of household utility,
such as

Urns, Vases, Breakfast Cups, Toilet Articles, &c. thereby securing faithful portraits and furnishing an unique and exquisite style of ornamentation of articles in domestic

use. In order to furnish facilities for the gratification of the popular taste, and to meet the wants of those patrons of the Fine Arts desirous of having portraits on porcelain, the Company have imported from Europe a collection of superior porcelain goods, manufactured to their own order, which they sell at cost prices. As the American Company are owners of the patent right

ind.consequently the only persons authorized to use the pro-test, they have determined, in order to afford people in eve ry section of the Union an opportunity to possess PORTRAITS ON CHINA,

to make the following proposition to Residents in the Country, who are unable to visit personally the Atelier and Galleries in New York.

Persons sending a photograph, ambrotype or daguerree type to the office of the Company in New York, accompanied by Five Botlass, will receive in return by express, free of charge, A richly ornamented Breakfast Cup and Saucer, with the portrait transferred thereon.

By transmitting a daguerrecty pe and TEN DOLLARS, they wall secure in like manner, A handsome French Vase, or Toilet Article, with the portrait reproduced by the patented process. By

ending a pair of daguerreotypes and FIFTEEN DOLLARS, they will receive in return

A pair of rich Sevres Vases, A pair of rich Sevies vases,
with the portraits executed equal to ministure paintings;
and, in like manner, portraits can be reproduced on porceian wares or Vases of every quality of finish, ranging in
price from twenty to one hundred dollars the pair.
N. B.—Be particular in writing the address, town, county
and state distinctly.
All letters to be addressed to
"Mannager. American Photographic Porcelain Co.,"
781 Broadway,

PALMER'S PORTABLE CHALLENGÈ

CLOTHES DRYER: EQUALLED BY NONE-EXCELLED NEVER.

READ the following enumeration of advantages over any Dryer ever before offered to the public. The truthfulness of its claims to these advantages can be attested by hundreds who have used them:

be attested by hundreds who have used them:

1st. The facility for spreading at any point of elevation most convenient for hanging on the clothes, and lhon saising by a simple, yet powerful hoisting jack, well up and out of the way. All will readily see the great importance of this arrangement. Many stationary machines are fitted up with a rack and pinion, or other expensive and cumbrons devices, for raising the frames, costing from \$10 to \$20. But here we get this very desirable facility in a manner more effective and very desirable facility in a manner more effective and simple than ever before devised, and that in connection with the Portable Dryer, and all at an expens but nominal. Dryers without this, necessarily bring the clothes so low as to be in the way of everything passing beneath, and yet so high as to make the hang ing on and taking off the clothes, a work of labor and inconvenience. For instance, to take off frozen clothes in winter, from a common line, in easy reach, is bad enough, but when it has got to be done standing on tip-toe, and reaching up, it is tedious in the extreme. The Challenge Dryer can be lowered as easily as it can be raised, by the same jack, so as to come within the easy reach of a child. The operation of hoisting and lowering is as simple as that of working a pump han-

2d. The lower end of the center shaft or post, has fitted to it's taper iron thimble, fitting into an iron socket, let into the ground post, so that when the ma-chine is set up, it has a joint as solid as iron can make and which is only improved by wear. The socket is so made as to act as a cap to preserve the post, and a ring to prevent its splitting, and is provided with a cover, to keep out water, snow and dirt. A flange on the thimble shods the rain, so as to prevent the water rom getting into the socket when th feetually procluding the possibility of its getting fro-

3d. It is the best made and most durable machine ever offered to the public. The hubs are iron—no splitting—no shrinking by the weather—so as to bind on to the post. The iron work is covered with a heavy coat of varnish, thoroughly baked on. The arms and braces are joined to the hubs in a manner defying comparison, for simplicity, strength and durability.— The cord and timber are of the best quality, and put together in the most substantial manner.

4th. In revolving, it runs iron on iron, hence re-volves very easily, a breath of air being sufficient to set it in motion, and new portions of the clothes are constantly being presented to the wind and sain, and the process of drying goes on very rapidly, and clothes will dry one-third quicker than on the streight line.

6th. In case of threatened rains, or in cold weather the Dryer can be folded up with the clothes on, and taken into the house. If desired, it can be set up in the house in rainy or inclement weather. It require as the operator can put the clothes without moving from the operator can put the clothes without moving from the ordinary path or stoop, as the case may be, as being portable, it can be set up where a stationary Dryer would be in the way. Thousands have lost health and life, by exposures in snow and imperfect paths or wet grass, which this Dryer renders unnecessary.
This is no humbug, but a substantial, staple ma-

chine, filling one of the most palpable and every day wants of every family in city and country. Nothing can exceed the favor with which they are received, and we refer to this and their rapidly increasing sales, and to the testimonials of those who have used them, as proof of their intrinsic value. One of the best proofs of their superiority, is found in the fact that numbers of persons who had bought other Dryers, have thrown them aside and are using the Challeng Dryer. In every point of economy, convenience and durability, it challenges the world.

Township rights for sale in Tioga, Bradford and Lycoming Counties, by the undersigned or his agent, from whom, also, machines can be procured. Address H. STOWELL, Jr., Wellsboro. Or J. J. MILLER, Williamsport, Agent for Lycoming

Machines can be procured at Wellsboro.
