HOUSEHOLD FURNITURE. ALL KINDS, can be found at the store of E. D. WELLS, LAWRENCEVILLE.

PHOTOGRAPHY UPON PORCELAIN. A Novelty in the Art World! Secured by Letters Patent in the United States, England, France, and Belgium.

THE AMERICAN PHOTOGRAPHIC PORCELAIN COMPANY, No. 751 Broadway New York, having secured their novel and ingenious invention by American and European patents, are fully prepared to execute all orders for

MINIATURE LIKENESSES OF PERSONS OF COLOR. presenting all the attractive and advantageous features of ordinary photography, the brilliancy and finish of a water-color drawing, and a permanent quality of durability by being rendered as imperishable as the natural production of the articles upon which they are transferred.

As the patented process of the Company enables the reproduction of photographs, not only on plain surfaces, but upon such as are round or of any degree of irregularity—portraits can be reproduced with the same accuracy and delicacy of delineation, upon porcelain ware of any description and in such cases used as articles of luxury or of household utility, such as

Urns, Vases, Breakfast Cups, Toilet Articles, &c. thereby securing faithful portraits and furnishing an unique and exquisite style of ornamentation of articles in domestic use.

In order to furnish facilities for the gratification of the popular taste, and to meet the wants of those patrons of the Fine Arts desirous of having portraits on porcelain, the Company have imported from Europe a collection of superior porcelain goods, manufactured to their own order, which they sell at cost price.

As the American Company are owners of the patent right, and consequently the only proprietors of the process, they have determined, in order to afford people in every section of the Union an opportunity to possess

FOURTEEN DOLLARS, to make the following proposition to Residents in the Country, who are unable to visit personally the Atelier and Galleries in New York.

Persons sending a photograph, ambrotype or daguerreotype to the office of the Company in New York, accompanied by FIVE DOLLARS, will receive in return, free of charge, A richly ornamented Breakfast Cup and Saucer, with the portrait transferred thereon.

By transmitting a daguerreotype and TEN DOLLARS, they will receive in like manner, A handsome French Vase, or Toilet Article, with the portrait reproduced by the patented process. By sending a pair of daguerreotypes and FIFTEEN DOLLARS, they will receive in return

A pair of rich Sevres Vases, with the portraits executed equal to miniature paintings; and, in like manner, portraits can be reproduced on porcelain vases or Yases of every quality of finish, ranging in price from twenty to one hundred dollars the pair.

N. B.—Be particular in writing the address, town, county and State distinctly. All orders to be addressed to "Manager, American Photographic Porcelain Co.," 751 Broadway, New York.

PALMER'S PORTABLE CHALLENGE CLOTHES DRYER! EQUALLED BY NONE—EXCELLED NEVER.

READ the following enumeration of advantages over any Dryer ever before offered to the public. The truthfulness of its claims to these advantages can be attested by hundreds who have used them.

1st. The facility for spreading at any point of elevation most convenient for hanging on the clothes, and then raising by a simple, yet powerful, spring-jack, well up out of the way. All will readily see the great importance of this arrangement. Many stationary machines are fitted up with a rack and pinion, or other expensive and cumbersome device, for raising the frames, costing from \$10 to \$20. But here we get this very desirable facility in a manner more effective and simple than ever before devised, and that in connection with the Portable Dryer, and all at an expense not exceeding a trifle.

2d. The facility for hanging on the clothes so low as to be in the way of everything passing beneath, and yet so high as to make the hanging and taking off the clothes, a work of labor and inconvenience. For instance, to take off frozen clothes in the winter, it is necessary to have the clothes hanging high enough, but when it has got to be done standing on tip-toe, and reaching up, it is tedious in the extreme. The Challenge Dryer can be lowered as easily as it can be raised, by the same jack, so as to come within the reach of a child.

3d. The facility for raising the clothes so high as to be out of the way, and so low as to be within the reach of a child.

4th. The lower end of the center shaft or post, has fitted to it a taper iron thimble, fitted into an iron socket into the ground post, so that when the machine is set up, it has a joint as solid as iron can make and which is only improved by wear. The socket is so made as to act as a cap to preserve the post, and a ring to prevent its splitting, and is provided with a cover, to keep out water, snow and dirt. A change of the thimble shaft, or raising or lowering, is effected by getting into the socket when the Dryer is set, effectually precluding the possibility of its getting frozen in.

5th. It is the best made and most durable machine ever offered to the public. The arms are iron splitting—no shrinking by the weather—so as to bind on to the post. The iron work is covered with a heavy coat of varnish, thoroughly baked on. The arms and braces are joined to the hubs in a manner defying comparison for firmly in its construction. The cord and timber are of the best quality, and put together in the most substantial manner.

6th. In revolving, it runs iron on iron, hence requires very easily, a breath of air being sufficient to set it in motion, and new portions of the clothes are constantly being presented to the wind and sun, and the process of drying is thereby rendered more effective.

7th. In case of threatened rains, or in cold weather, the Dryer can be folded up with the clothes on, and taken into the house. If desired, it can be set up in the house in rainy or inclement weather. It requires no leveling of paths, or raising or lowering of frames, as the operator can put the clothes without moving from the ordinary path or stoop, as the case may be, as being portable it can be set up where a stationary Dryer would be in the way. Thousands have lost their clothes, and their health, by exposing them to wet paths or wet grass, which this Dryer renders unnecessary.

This is no humbug, but a substantial, staple machine, filling one of the most palpable and every day wants of every family in this country. It can be exceeded the favor with which they are received, and we refer to this and their rapidly increasing sales, and to the testimonials of those who have used them, as proof of their intrinsic value. One of the best proofs of their superiority is, that they are used by numbers of persons who had bought other Dryers, have thrown them aside and are using the Challenge Dryer. In every point of economy, convenience and durability, it challenges the world.

Township rights for sale in Tioga, Bradford and Lycoming Counties, by the undersigned, or by agents, from whom, also, machines can be procured. H. STOWELL, Jr., Wellsboro, 13w12

Machines can be procured at Wellsboro.
