Last Thursday was probably the coldest and bitterest day of the season. All day a cutfing wind blew from the west accompanied with anow, and in the evening the mercury sank to zero. We had two fire alarms—the cause of which happily proved to be only the burning out of the accumulated soot in chimneys. The wind blew till about midnight. On Friday morning in this village the thermometer indicated eighteen degrees below zero—the lowest this winter. We see by the papers that the storm on Thursday was general. The poor in New York, Philadelphis, Boston and Ruffalo suffered a good deal, as no doubt they did everywhere. Reader, are there any poor people in your neighborhood? If so, see that they do not suffer from want; or exposure. Visit them and minister to them, remembering the assurance that

WARD TOWNSHIP, Feb. 9, 1861.

Editor of the Agitator 1 💛 Most of your readers are aware that our town is new—it being only nine years since it was set off and named. Seven years ago there were hardly inhabitants enough for town officers; but at the last Presidential election there were 127 votes polled.

In many parts thrift and industry are, apparent in new barns and fields well fenced. The coal beds in the north part of the town are now being worked, and an extensive business has been done in building shops, mills, houses for workmen, &c., &c., which gives our farmers a market near home. Our citizens in the south part of Ward are doing a good business in furnishing wood for the Elmira and Williamsport R. R. Co. This is a new source of labor and profit, as the Company are paying 25 cents more per cord than for-

merly.
Sleighing has been good since December 1st, Snow is over two feet deep, and if it does not thaw before sugaring time, it will be difficult gathering sap, and as a consequence our crop of maple sugar will be limited. The amount of sugar made in town is nearly equal to the grain crop when the spring is favorable

for it. Thursday night was the coldest of the season; the imber cracked in the woods near our house from the frost so as to resemble discharges of musketry. The mercury stood at 23 deg. below zero at noon on the east-side of the house. Many of the cattle in this neighbothood suffered severaly from the intense cold. and a steer belonging to Mr. Johnson was frozen to death.

A CARD.

We, the undersigned, having in use "P. P. Stew-art's Colebrated Summer and Winter Air Tight Cooking Stove, purchased of Parker Brothers, Wellsboro, take pleasure in lessifying to the complete satisfaction with which we have used them. For all the practical uses of a Cooking Stove, as well as for economy in fuel, they are unequaled by anything with which we have eged been acquainted. While in winter the amount of heat is amply sufficient for all purposes of health and comfort, its capacity for controling the heat is operfect that in summer all the operations of the kitches may be carried on, without incopyrenience from the heat, thus making it the most healthy and convenient, and by its perfect fitting, (ensuring duraoility) in our estimation the cheapest and best Stoven use.
