Suspicion

To parody Burns and affection,
Or lull a confession to rest.

How often the friends we hold dearest,
Their sublime emotions conceal;
Let ours be a nobler ambition,
For base is the mind that suspects.

We none of us know one another,
All, and oft into error we fall;
Then let us speak well of our brother,
Or speak not about him at all.

THE RIGHT SORT OF RELIGION.

A writer in the *Congregationalist* who evidently believes, with the Apostle James, that faith without works is dead, thus describes the kind of religion which the times requires:

"We want a religion that goes into the family, and keeps the husband from being spiteful when the dinner is late, keeps the wife from fretting when the husband tracks the newly washed floor with his muddy boots, and makes the little troubles of the day rub each other smooth—keeps the mother patient when the baby is cross, and keeps the baby pleasant—amuses the children as well as instructs them—wins as well as governs—projects the honey-moon into the harvest moon, and makes the happy hours like the eastern fig tree, bearing in its bosom at once the beauty of the tender blossom and the glory of the ripened fruit. We want a religion that bears heavily, not only on the 'exceeding sinfulness of sin,' but on the exceeding rascality of lying and stealing—a religion that banishes all small measures from the counters, small baskets from the stalls, pebbles from the cotton bags, clay from paper, chicory from coffee, water from butter, beet juice from vinegar, alum from bread, strychnine from wine, water from the milk cans, and buttons from the contribution box.

"The religion that is to save the world will not put all the big strawberries at the top, and all the bad ones at the bottom of the basket.—It will not offer more baskets of foreign wines than the vineyards ever produced bottles, and more barrels of Genesee flour than all the wheat fields of New York grow, and all her mills grind. It will not make one half of a pair of shoes of good leather, and the other of poor leather, so that the first shall redound to the maker's credit and the second to his cash.

"The religion that is so sanctify the world pays its debts. It does not consider that forty cents returned from one hundred cents given, is according to the gospel, though it may be according to law. It looks upon a man who has failed in trade, and who continues to live in luxury as a thief. It looks upon a man who promises to pay fifty dollars on demand, with or without interest, as a man of truth and not as a liar."

HOT BUT GOOD.—A Georgia legislator tells a good story, as follows:

"The first day I got to Augusta I took dinner at the tavern, right beside me at the table sat a member from one of the back towns that had never taken dinner at a tavern before in his life. Before his plate was a dish of peppers; and he kept looking and looking at them, and finally, as the waiters were mighty slow bringing on things, he up with his fork and in less than no time soused down on it; the tears came into his eyes, and he seemed hardly to know what to do. At last spitting the pepper into his hand, he laid it down beside his plate and with a voice that set the whole table in a roar, exclaimed, 'Jist lie thar and cool.'"

COMING IT STRONG.—The State of South Carolina, which claims to be an independent government, is finding fault with the United States because the mails are irregular! It will not own our authority; but it kindly permits us to carry its letters for it! What a condescention in that sovereign State! The Post Office in South Carolina does not yield within some $300,000 a year of what it costs to carry the mails in that State, and therefore it is kind enough to throw that slight little burden on us. We have shouldered the burden; but we beg it not to scold us for being a little tardy in these warlike times.

A gentleman of Indianapolis says that on last Sunday, in that city, at the closing exercises of a meeting at one of the Methodist Episcopal Churches, Bishop Ames astonished and thrilled the congregation by the following prayer:

"We thank thee, O! God, that while treason stalks abroad in high places, there is one man who loves his country!—one man who will defend his country's flag! God bless and protect the gallant Major Anderson and his noble band!"

Sir Robert Peel, speaking of Lord Eldon, remarked that "even his failings leaned to virtue's side," upon which a gentleman observed that his lordship's failing resembles the leaning tower at Pisa, which, in spite of its long idelination, has never yet "gone over."

A man that hath no virtue in himself ever enviath virtue in others, for men's minds will either feed upon their own good or upon other's evil, and who wanteth the one will prey upon the other.

Those people who turn up their noses at the world, might do well to reflect that it is as good a world as they were ever in, and it must better one than the[illegible] likely ever to get into again.

Cunning is only the mimic of discretion, and may pass upon weak men just as pertness is often mistaken for wit, and gravity for wisdom.

If you are looking at a picture, you try to give it the advantage of a good light. Be as courteous to your fellow-creatures, as you are to a picture.

PUNCTUALITY.—The latest reported Yankee fun, says *Punch*, is that a tinker no longer mends a kettle either now, he "sennits" her.

UDOLPHO WOLFE'S AROMATIC SCHIEDAM SCHNAPPS

A SUPERLATIVE

TONIC, DIURETIC, ANTI DYSPEPTIC AND INVIGORATING CORDIAL

To the Citizens of New Jersey and Penn's.

APOTHECARIES, DRUGGISTS, GROCERS AND PRIVATE FAMILIES:

Wolfe's Pure Cognac Brandy.
Wolfe's Pure Maderia, Sherry and Port Wine.
Wolfe's Pure Jamaica and St. Croix Rum.
Wolfe's Pure Scotch and Irish Whiskey.

ALL IN BOTTLES.—I beg leave to call the citizens of the United States to the above Wines and Liquors imported by Udolpho Wolfe, of New York, whose name is familiar in this country for the purity of his celebrated Schiedam Schnapps. Mr. Wolfe, in his letter to me, speaking of the purity of his wines and Liquors, says: "I will stake my reputation as a man, my standing as a merchant of thirty years' residence in the City of New York, that the all the brandies and wines which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the proprietor's name on the wax, and a fac simile of his signature on the certificate. The public are respectfully invited to call and examine for themselves. For sale at Retail by all Apothecaries and Grocers in Philadelphia. *GEORGE H. ASHTON.*

No. 832 Market St., Philadelphia,
Sole Agent for Philadelphia.

Read the following from the new York Courier:

ENORMOUS BUSINESS FOR ONE NEW YORK MERCHANT.—We are happy to inform our fellow citizens that there is one place in our city where the physician, apothecary, and country merchant can go and purchase pure wines and liquors, as imported, and of the best quality. We do not intend to give an elaborate description of this merchan's extensive business, although it will well repay any stranger or citizen to visit Udolpho Wolfe's extensive warehouse, Nos. 18, 20, and 22 Beaver street, and Nos. 17, 19 and 21, Marketfield street. His stock of Schnapps on hand ready for shipment could not have been less than thirty thousand cases; the brandy some ten thousand cases—Vintages of 1836 to 1856, and ten thousand bases of Madeira, Sherry and Port Wine, Scotch and Irish Whiskey Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars filled with Brandy, wine, &c., in Casks, under Custom House key, ready for bottling. Mr. Wolfe's sales of Schnapps last year amounted to one hundred and eighty thousand dozen, and we hope that in less than two years he may be equally successful with his brandies and wines.

His business merits the patronage of every lover of his species. Private families who wish pure wines and Liquors for medical use, should send their orders direct to Mr. Wolfe until every apothecary in the land make up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe's pure wines and Liquors.

We understand Mr. Wolfe, for the accommodation of small dealers in the country, puts up assorted cases of wines and liquors. Such a man, and such a merchant, should be sustained against his tens of thousands of oppodents in the United States, who sell nothing but imitations, ruinous alike to human health and happiness. 6m6

IMPORTANT TO THE LADIES.

WASHING NO MORE A DRUDGE.

The undersigned would announce to the citizens of Tioga County, that they have purchased the right of manufacturing and selling

MECAY'S WASHING MACHINE,

which for simplicity of construction, utility and cheapness, exceeds any other machine in use. It needs no other recommendation than to see it work. A boy, ten or twelve years of age, can do the washing of a family IN AN HOUR. Any person in want of a good labor-saving washing machine, can take one of these home and do their washing with it, and if not perfectly satisfied, they can return it.

Recollect, this machine is no humbug, but an article indispensable in every family. It does not wear or tear the clothes to pieces like hand washing.

PRICE, FIVE DOLLARS. Machines for sale at ROE & CO.'S Store. Manufactured and sold at D. STURROCK'S Shop, near the Academy.

LARGE OVEN

SUMMER AND WINTER AIR-TIGHT

COOKING STOVE.

FOR WOOD & ANTHRACITE OR BITUMINOUS COAL—IMPROVED IN 1859—*With New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.*

Attention is invited to the following points of superiority:

1st. *Durability.*—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

2d. *Manufacture.*—Every portion of the stove is thoroughly constructed. Each stove is submitted to a critical test, and none leave our works unless completely and perfectly finished.

3d. *Capacity.*—Baking, broiling, boiling, roasting and all other culinary operations performed at the same time. A barrel of flour baked into bread at a single fire.

4th. *Economy.*—Saving the cost of the stove in 2 or 3 years in the item of fuel.

5th. *Ventilation of Oven.*—In the Stewart stove alone the *front doors* open directly into the oven, protected by letters patent, securing a direct draft through the top of the oven, by means of perforated holes in the doors and back flues. It will be borne in mind that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

6th. *Easy Control of Heat.*—The heat generated by the stove, may be held therein and used or thrown into the room at pleasure.

7th. *The Double Sheet Bottom Flue.*—By which a compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

8th. *Broiling.*—Performed on the top and without the possibility of smoke entering the room.

9th. *Hot Water reservoir and Warming Closet.*—Both useful and convenient, supplied by the waste heat and without extra fuel.

10th. *Water Back.*—An arrangement for supplying hot water for the bath room equal to any range.

Sold by all dealers, on a trial of 3 months, with a written guaranty for that period if asked.

Beware of the numerous worthless imitations now in market. See that the names of P. P. Stewart and of the manufacturers are on each stove. None other is genuine.

IMPROVED WINDLASS

PATENTED MAY 8, 1860.—The subscriber is now manufacturing and offering for sale the above improvement in such a manner that articles attached to the rope, such as buckets, &c., may be lowered, raised, and the latter held at any point of the windlass's revolution, and the improvement is simple, durable, and not liable to get out of order. It is also so constructed that the operator can, by a simple contrivance, control the descending movement of the article being lowered. The invention is applicable to various purposes; its use in connection with wells may be mentioned as an instance, in which the buckets, after being raised and emptied, may be easily lowered, and their movement retarded at the proper point, so that they will not violently strike the water. *Scientific American.*

For the purpose of Raising and Lowering Buckets in Wells, it is decidedly

THE GREATEST IMPROVEMENT OF THE AGE.

The Brake acts as a check upon the backward motion of the bucket, without turning the crank, (the brake acting as a brake, by pressing inward at the handle.) All who examine this machine, will at once acknowledge its

PRACTICABILITY AND SUPERIORITY.

Over every other machine in use. The operation of the windlass is easily controlled with, and requires ONE HAND. It combines all the advantages of the old fashioned with the self-emptying bucket, and in many new and useful improvements. It can be adapted to wells of any depth, and will raise as much in ordinary furning. *Five Buckets of water per minute* from wells of ordinary depth, and in the same proportion to the depth of two hundred feet.

The windlass and brake is also applicable to raising and lowering any kind of weight, and in every case is far superior to those heretofore in use.

Having purchased the right for the Counties of Tioga and Potter, Pa., the undersigned are prepared to offer for sale township rights for the manufacture and sale of the above improvement, on reasonable terms.
