GAMBLING SALOONS. An anonymous corresondent calls our attention to the fact that at two processes in this Borough whiskey is sold openly to frunken scalawags who canne get it at the taverns. Also that they permit gambling at all hours of the night. If our correspondent its booked as he proferres to be, and if he be a go id citizen and a man of moral courage, it is his madi and duty to bring suit against the proprietors of the muisnness referred to, against the proprietors of the fluisnices referred to, and crush them out by legal process. Ho need have no fears but that he will be so thined by the respectable part of the community. Last gambling and the selling of whiskey to drunkon to are crimes against society and misdemeanors in severe of the law, punished by severe pounities. THE PRINTER'S ESTANT.—The printer's dol-lan! Where are they? A distar here and a dollar there, scattered over numerous small towns, all over the country, miles and miles and how shall they be gathered together? The type founder has his hum dreds of dollars against the printer; the paper mater, the building owner, the jeurneyman compositor, the grocer, the tailor, and all assistants to him in car-ying on his business, have their demands, hardly, ever so small as a single doll. But the mites from here and there must be dilightly gathered and pa-tiently hearded, or the who ewith to discharge the large bills will never become bulky. We imagine the Printer will have to get up an Sidress to his widely scattered dollars something live the following: "Dollars, halves, quarters, dimes, and all manner of fractions into which ye are divide I, sollect yourselves and tome home! Ye are wanted to Combinations of all sorts of men, that help the i inter to become a proprietor, gather in such force and demand with such good reasons your appearated at his counter, that nething short of a sight of you will appears them. NEW BEE HIVE .-- Mr. Jacob Sharp, of Waterford, Eric County, showed us vesterday the "Patent Book Bee Hive," invented and patented by S. R. Bryant in October last. It gets its name from the fact that the frames can be opened and closed like the leaves of a book. It is evidently constructed with a view to the very best interests of the Apiarian, and we are assured that it has been thoroughly tested the past season by some of the most practical men in that section of the country, and has given entire satisfaction. The hive contains frames, with eyes placed In the outside of the back of the frame. There are also hooks driven into the inside board of the hive on which the frames are hung. In these frames the comb is built and attached to them and to nothing else; so each comb can be turned out or lifted off at pleasure. Our most practical Apiarians have become thoroughly convinced that in order to be successful in the bee culture, the movable comb hive is indispensable.

Mr. Sharp will remain here for a few days to dispose of township or county rights, and bee raisers will do well to call and see his model.

SINGULAR LAW SUIT .-- In Perry, Wyoming county, N. Y., a minister, the Rev. J. R. Page, sued a clerical brother of another denomination, the Rev. J. B. Wentwerth, A. M., formerly Principal of the Coudersport Academy, for the recovery of two sermons which he (Page the plaintiff) lost about two years ago, and which came into the possession of the defendant, who would not surrender them on demand. Both clergymen reside in Perry, and their quarrel which has been waged with great bitterness, apparently, has stirred up much feeling between their respective partisans. Last summer the case was put in the hands of a referee; and, after a long hearing of arguments, and the expenditure of enough legal research and effort upon it to determine an international question, has just been decided in an elaborate report of the referee. The plaintiff obtains judgment for the restoration of the sermons, which was what he sought by the suit, and the sermons are adjudged to have a pecuniary value of at least \$50—a sum sufficient to impose the entire cost upon the defendant. The costs of the suit are said to amount to about \$200.

We clip the following item of a case of sharp practice in a neighboring county from the Drawer of Harper's Magazine for April.

"The adjusters of losses under policies of insurance against fire sometimes have funny cases, or meet an exhilerating turn. A common method of measuring the damages is to inquire the cost of restoration or repair of the property injured. An adjuster of one of the Hartford companies was recently hurried out to Elmira to pay for the partial destruction of a steam-engine used in a saw-mill. The holder of the policy demanded six hundred dollars as an indemnity, and had procured the formal certificate for that sum. The adjuster had a survey by an expert, who engaged to repair all damages for two hundred and sixty dollars, and he proposed to pay the claimant that amount or repair the machine. Mr. Claimant was terribly aston-ished; he didn't believe any man living could repair the damage for that sum; protested earnestly against the injustice of asking him to take less than the original six hundred dollars; but on the whole, if he could have his cash that day, he would take four hundred dollars. Mr. Adjuster finally told him he must take one hand or the other, and he accepted the two hundred and sixty dollars. After the settlement was made, Mr. Adjuster offered claimant; the contract to repair for the sum paid, which he indignantly refused, with the delicate remark, "No, bang him! do it! There's a man up to Corning will do it for a hundred and fifty dollars!"

and for the speedy cure of the subjoined varieties of Disease Scrofula and Scrofulous Affections, such as Tumors, Ul-cers, Sores, Eruptions, Pimples. Postules, Blotches, Boils, Blains, and all Skin Di-eases.

J.C. AYER & Co. Gents: I feel it myduty to acknowledge what your Sarsaparilla has done for me. Having inherited & Scrofulous infection, I have suffered from it invarious ways for years. Sometimes it turned, inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and soveral physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoleed to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your rejutation that anything you made must be good. I sent to Gincinnati and got it, and used it till it cured me. I took it, say ou advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon formed under the toab, which after a while fell off. My skin, in owe clear, and I know by my feelings that the disease has OARLAND, Ind., 6th June, 1859. rimed under the cab. which after a white tell off. my skin now clear, and I know by my feelings that the disease has one from my system. NEW ORLEANS, 25th August, 1856.

Dr. J.-C. Ayer: Sir, I cheerfully comply with the request of your agent and report to you some of the effects I have mealized with your Sarsaparilla.

I have cured with it in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venereal and Murcureal Disease One of my patients had Syphilfite ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. And the ulceration had eaten away a considerable part of it, so that I believed the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by nurcury was suffering from this poison in her bones. They had become to sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was dured entirely by your Sarsaparilia in a few weeks. I know from its formula, which your agent gave me, that this preparation from your labratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours,

One bottle cured de in two weeks, and restored my general health so much hat I au far better than before I was attacked. I think it wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been affiftied for years with an affection of the Liver, which des-thoyed my health? I tried every thing, and every thing failed to relieve me; and I have been a broken down non failed to relieve me; and I have been a broken down nan for some years from no other cause than derangement of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God is has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough." Its univalled excellence for coughs and colist, and its truly wonderful cures of pulmonary disease, have mape it known throughout the civilized nations of the earth. Few are the communities, or even faunties among them, who have not same personal experience of its effects—some living trophy is their midst of its victory over the stuttle and dangerous disorders of the throat and lungs. As all know the dreadflift fatality of these disorders and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
