AYER'S SARSAPARILLA, FOR PURIFYING THE BLOOD.

And for the speedy cure of the subjoined varieties of Disease Scrofula and Scrofulous Affections, such as Tumors, Ul-cars, Sores. Eruptions. Pimples. Postules. Blotches, Boils, Blains, and all Skin Di cases.

OAKLAND, Ind., 6th Jane. 1859.

J. C. Aver & Co. Gents: I feel it my duly to acknowledge what your Sarsaparilla has done for the. Having inherited a Scrufulous infection, I have suffered from it invarious tays for years. Sometimes it burst out in Ulcers on my hauds and aims; sometimes it burst out in Ulcers on my hauds and aims; sometimes it turned inward and distressed me at the stonach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was minful and last beorge beyond description. I keied many medicines and several physicians, but without much relief from any thing: In fact, the discarder grow worse. At length I was rejoiced to read in the Go-pel Messenger that you had prepared han alterative (Sarsaparilla), for I knew from your reputation that anything you made must be gaad. I sent to tincitnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over amounth and used almost three bottles. New and healthy skin som formes under the teab which after a while fell.off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am skying when I tell you that I hold you to be one of the apostles of the age, and remain ever gratefully, yours.

Dr. J. C. Ayer: Sir. I cheerfully comply with the request of your agent, and report to you some of the effects I have I realized with your sureaparilla.

I have cured with it in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venercal and Murcureal Disease One of my patents had Syphilitic alcers in his throm, which were comending his palate and the top of his mouth. Your Sarsanjarilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nase, and the ulteration had eaten away a considerable part of it, so that I believed the disorder would soon reach his brum and kill him. But it yielded to my administration of your Sarsanjarilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by nurcury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excundinting panin her joints and bones. She, too, was cured entirely by your sarsaparillar in a few weeks. I know from its formula which your agent gave me, that this preparation from your labratory cust be a great remedy; consequently these truly remarkable results with it have not surprised me.

Fraternally yours.
