CCAL AND MISCELLANEOUS Wellsboro, Wednesday, June 26, 1861.

New Advertisements. Executor's Notice, - Estate of John Berry.

To Courseondents. Blossburg." Your letter is a good one, but a little too personal for our colnms. Our fighting editor has gone to Camp Curtin-"Susie," Lawrenceville.—Xour poetry is not good. A good rule for beginners is to write and burn five hundred poems; then send No. 501 to the press. "Georpiana." Your "Lines to Lieut. Genl. Scott" is delined. The General does not take the Agraron and would not see them. "Nioga," We asked Capt. Sherwood yesterday if ex resa packages to soldiers went free, and he said the did if directed in care of the Captain of the Company to which the soldier belongs, so that our statement last week was correct. Your package lacked the proper directions.

We are requested to state that Rev. W. Bulard will lecture on the War Question, at Lawrencerille, on Saturday evening, June 29th, and at Westfield on Sunday, June 30th, at 3 o'clock P. M.

The letter from Mr. Ramsdell our regular orrespondent at Camp Curtin, in to-day's paper, will read with more than usual interest. Also the article from the Warren Mail describing how the boys

We had a visit yesterday from Capt. Julius Sherwood, who spent a day at his home and started for Camp Curtin this (Tuesday) morning. He is in accellent health and spirits himself, and reports his ompany all welf.

Our friend "Kirk" sands us a biscuit all the way from Camp Curtin, to let us see what kind of bread soldiers eat. It is of the best quality of ship brend, and requires sound teeth to gnaw it. With good butter and coffee and such bread, the boys will make out a tolerable breakfast, even if they should have nething else.

Capt. G. B. OVERTON of the Buck-tail Rifles Potter County, has been commissioned by the resident as a Captain in the Fourteenth Regiment Infantry in the regular army. This compliment s well-deserved. Capt. Overton was among the first who responded to the call of the President for troops t the beginning of the war. He will make an excelent officer and a good soldier.

FOUNDLING .- An unmarried gentleman residing in Rush township found, a few mornings since, an infant in a basket in his woodshed. The one who placed the little embryo woman there must have had passionate love of poetry, for accompanying it was following:

"Take me in, and une me well,
For under this roof my father dwells." No doubt the writer of this couplet will, ere long, chezle the literary world with some other brilliant production .- Montrose Republican.

Two other Celebrations.—In addition to the celebrations of National Independence, already appounced to take place in different parts of the Counwe are requested to state that a celebration will be held on quite a grand scale in Covington. There will be a procession, martial music, an oration, and a din-

LIBERTY TOWNSHIP is going it on her own hook this year, also. We have not room for the entire programme of this celebratic , but we will state that a sordial invitation is exter led to all who hold dear the memory of the patriotism of the Revolutionary Fathers. Arrangements have been made on a grand scale. C. F. Veil, Esq., is to be resident, and Gen. Harding, Marshal of the day.

GROVER & BAKER'S

CELEBRATED NOISELESS

SEWING MACHINES FOR FAMILY AND MANUFACTURING USE, 495 BROADWAY, NEW YORK.

Agencies in all the principal Cities and Towns in the United States. The Grover and Baker Sewing Machine Company; are now nanufacturing, and have on exhibition at their different salesrooms, machines making the Shuttle or Lock-Stitch, o the same patterns and at the same prices as their celebrated Grover and Baker Stitch Machines, thus affording the public the advantage of comparing the stitches of the two leading machines and exercising their own judgment as to their respective merits. This is the only company that manufacturs both kinds of machines, and therefore the only one that can

offer this privilege to the purchaser.

"We speak from experience when we say that, after having tried all the principal Sewing Machines, we must accord to that of Grover and Baker the pre eminence. Those indispen sable features of sewing, strength, uniformity and elasticity. all of which are brought out in this incomparable invention. make it the first sewing machine in the country. Others have their good points, but this combines all, and posses every characteristic necessary to make it most desirable. 1—N. Y. Christian Advocate and Journal.

"MERIT VS. PRETENCE.—We perceive that the Grover and Baker Sewing Machine is every day growing more and more in favor, both for manufacturing and family purposes-but especially as adapted to all the requirements of family use. Other machines, by dint of brazen puffery and countying with committees at annual fairs, have been thrust forward into the first place; but they are fast losing this unmerited position. The real merits of the Grover and Baker Machine are beginning to be known in a practical way, and daily is the demand for them increasing, while the demand for heretofore better known, but inferior machines, is proportionally de-creasing. So it turns out in this, as in many other instances that 'honesty is the best policy,' and the right, in the end omes uppermost.

"A trial of over two years enables us to say with the great est confidence that there is no better machine for genera family use than Grover and Baker's Sewing Machine Co. It makes a beautiful clastic seam that does not rip with wear or washing, runs almost noiselessly, is plain, simple, easy to work, and not liable to get out of repair, fastens the ends of its own thread, and uses threads and silks directly from the spools on which they are bought."-N. Y. Leader.

Grover and Baker's Machines' work in their peculiar stitch, and fabrics put together by it, may wear and drop to pieces from original weakness or hard usage, but come apart or give way at the seams, they can not; they will hold together when the cloth or calico around them hangs in rags and tatters .- N. Y. Daily News.

"The points we conceive most necessary and important to meet the wide range of requirements in a machine for family sewing, we find more fully combined in the Grover and Ba ker, viz., extent of capacity, simplicity of construction, ease of management, advantage of using thread from two spools without re-winding, strength of work, elasticity, durability and regularity of stitch, and quietness of movement. We therefore mark award to the Grover and Baker."-Report of Tennessee State Fair of 1860—also of St. Louis State Fuir of May 15, 1861.—ly.
