these facts. 1. That no rebellin was ever before inaugurated wherein the cor spirators could not even pretend that one of them had been damaged in person or estate by the Government they sought

to everthrow. 2 That there was never before a rebellion whereof the main impulse was devotioton Human Slavery. Men are conspired and rebelled for every kind of liberty but the liberty of enslaving their fello v men.

3. That never before did a strong Government allow a rebellion to proceed for months in a career of stealing money, arms, munitions, arsenals, armories, do., proceeding from investing to bombarding its most important fortresses, and usurping the collection of the revenue drer obethird of its country, before raising a

regiment or firing a gun in defence of its rights.
4. That never before did Twenty Millions of People, so long absorbed in the arts of Peace that, they had almost forgotten that of War, springing to arms this o general an alacrity, so hearty an enthu win, as did those of our patriot States upon leiving news of the capture of Sumter and the President's Proclamation thereupon.

5. That never till now was a Government embarrassed, perplexed, by the duty of accepting some and rejecting other of the regiments raised, equipped and tendered for its defence. eager to serve on its own terms till the end of

6. That no Administration succeeding to an empty Treasury, an inadequate Revenue, a demoralized Public Service-demoralized through treason and robbery perpetrated by the late Cab inet Ministers never till now found the people pressing Millions after Millious of dollars upon it, on its own terms, and insisting that it should take enough and never bolrow trouble with regard to its Finances.

-So much at least is secure. Whatever may hap, this cannot be ga ssayed. And now, if the Republic is allowed to go down, it will not be the fault of the people.—Tribune.

NEWPORT NEWS POINT .- The origination of the name of this Point, lately made notorious by the advance of Gen. Butler's force, is thus explained: "The early colony on James River was at one time reduced to a straitened condition, and some of its members started down the James River, with the intention of proceeding to England. They reached the bend in the river, which is at present an object of interest and paused for some days. When they were about to sail, they saw a ship coming upon the Roads, bearing the British ensign. They deayed till it should arrive. It proved to be Lord Newport's ship with his Lordship on board, who brought the intelligence that the ship which the colony had long before disputched to England for supplies, and which was many months overdue, was near at hand, bringing much needy relief, Meantime his Lordship distributed provisions among the colonists, who from these circumstances, named the place Newsport's News, on account of the good tidings which his Lordship brought of them.

Girlingon.-Let Lird Byron say what he will of brend and butter, girlhood is a beautiful seqson, and its love-its warm, uncalculating, devoted love-so exaggerating in simplicity-so keen from its freshness-is the very poetry of attachment; after years have nothing like it. To know that the love which once seemed eternal can have an end, destroys its immortality and thus brought to a level with the beginnings and endings, the chances and changes of life, common place employments and pleasure -and, alas from the sublime to the ridiculous there is but a step; our divinity turns out an idol; we are grown too wise, too worldly for our former faith, and we laugh at what before caused bitter tears. Such laughter is more bitter—a thousand times more bitter than death.

THE FIRST POST OFFICE.—The first post office established in France was in 1464; in England in 1581; in Germany in 1641-although one authority attributes the authorship of the modern postal system to the Emperor Maxamillian, of Germany, for the purpose of facilitating an espionage over his subjects through the medium of their correspondence, and also for the purpose of enriching himself by the profits of the enterprise. The first post office in America was established in New York in 1619, under the Colonial Government. In 1789 the direction of the postal business was conferred on Congress by the terms of the Constitution. At that time there were but 75 post offices in the Union; in 1825 there was 5677; in 1859 there were 58,578.

OAKLAND, Ind., 6th June, 1859. J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it invarious ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed the and arms; sometimes it in the ward and interessed at the atomach. Two years ago it broke out on my head and covered my scalp and care with one sore, which was pairfff and several physicians, but without much relief from any thing. In fact, the disorder grow worse At length I was rejoiced to read in the Gospel Messenger that you had prorejoiced to read in the Gorpel Messeuger that you had prepared an alterative (Sarsapatilla), for I knew from your reputation that anything you made must be good. I set to Cincianati and got it, and used it till it cured me. I took it, as you advise; it small does of a tenspoonful over a mouth, and used almost three bottles. New and healthy skin soon formed under the teab, which after a while foll off. My skin soon formed under thou thow by the feelings that field the disease has gone from my system. You can well believe that I feel what I am saying when I tell you that I hold you to be one of the apostles of the age, and remain ever gratefully, yours,

Syphilis and Mercurial Disease. NEW ORLEANS, 25th August, 1859.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent and report to you some of the effects I have realized with your Sarsaparilla.

I have cared with ti in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venercal and Murcureal Disease One of my patients had Syphilitic ulcers in his threat, which were consuming his paltae and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believed the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers heated, and he is well again, not of course without some diffiguration to his face. A woman who had been treated for the same disorder by nurcury was suffering from this poisom in her bones. They had become so sensitive to the weather that on a damp day she suffered exeruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your signet gay? the can this preparation from wing labertary must be a great sensely; consequently, those truly remarkable results with it have not surprised me.
