THE AGITATOR.

LOCAL AND MISCELLANEOUS.

Wellsboro, Wednesday, July 17, 1861.

New Advertisements.

Notice.—M. N. Allen.,

Stray Heifer.—J. G. Dartt.

Mansfield Classical Seminary.

Announcements.—J. C. Whittaker, Chauncey Ferry, Victor Case, E. S. Seeley.

☞ To CORRESPONDENTS.—The lines on "Toil and Labor" are respectfully declined. When the balance of the story comes with the *real* name of the author we can judge whether it is fit for publication. "WESTFIELD" asks: What is meant by the Fabian policy of war, spoken of in the papers? It is that system of tactics which avoids an open conflict on the field, and seeks to harass the enemy by ambuscades, masked batteries, counter-marches and guerrilla warfare generally. It was practiced by Fabius Maximus, a Roman general, in his warfare with Hannibal.

☞ SUBSCRIBER.—The *Atlantic*, *Harper's*, The *Knickerbocker*, and all other first class magazines pay from $3 to $5 per page for original articles.

☞ "J. C." "The Tioga Invincibles" are now at Lancaster, Franklin County, Pa. We do not know how long they will remain there. The other companies from this county are at Cumberland, Md. Write all your letters the name of your correspondent, the name of the Post Office (with the County and State) which he is supposed to be the nearest to, the name of the Regiment he is in, and in care of the Captain of his company.

☞ On the run—Roy's Soda Fountain and the Secession Army.

☞ The Land of the West—in poetical parlance means the Tidecute Oil Region.

☞ Dream Land—a small town in Ohio called Berlin, where young folks go to dream out their opia.

☞ THE WEATHER—the never failing item for country local Editors—a subject about which the publick have never any desire to be informed.

☞ The Elmira *Press* states that Charles Philips, a wealthy farmer of Springfield, Bradford Co., Pa., hung himself last Thursday, in consequence of domestic troubles.

☞ AN IRISH BULL.—The Corning *Journal* says that the Post Master at that place received a letter from an Irish friend of his in this county commencing thus:

"FRIEND T.—If you are not at home, *hand* this to one of your clerks."

That is a very good one, but we have seen better.

The Comet! He is on his way,
And singing as he flies,
And whizzing planets shriek pro
The specter of the skies
Ah, well may regal orbs burn blue,
And satellites turn pale—
Ten million cubic miles of head—
Ten billion leagues of tail!—*Holmes.*

☞ FIRE.—On Monday night last, the barn of Mr. Barse in Gaines Township, was discovered to be on fire. The flames soon communicated with the House, and in a few hours all of the buildings were destroyed. We learn that the Hotel building was insured. As no lights had been in use in the barn on Monday evening, the fire is supposed to have been the work of an incendiary.

☞ *Editor of the Agitator:* The second Annual Meeting of the Tioga County Medical Society, was held at Smith's Hall, Tioga, June 19, and was a decided success. All the Officers were re-elected.

The attention of the Physicians of the County (and adjoining Counties where no society exists) is called to the adjourned session, which will be held at the same place, at 10 o'clock, Oct. 2, 1861.

D. BACON, M. D. Secretary.

Osseola, June 25, 1861.

☞ We publish in its appropriate column the Call of the Republican County Committee. A meeting of the Committee was held at the office of the Chairman, F. E. Smith, Esq., at Tioga Borough, on Friday last. There were present Messrs. Smith, Whitney of Charleston, King of Mansfield, Taylor of Covington, and Stanton of Lawrenceville. Absent: John E. White of Knoxville, and Jas. I. Jackson of Delmar. We believe the Committees of Vigilance for the several election districts will give general satisfaction.

☞ DRESS PARADE, PIC NIC, AND BALL.—The Wellsboro Cadets, together with the Company of Very Light Infantry, had a dress parade last Friday. About noon they marched to a grove adjoining the Borough, where they enjoyed themselves in true military style. A bountiful repast had been provided for them, after partaking of which they returned to town. In the evening the Court House was the scene of youthful revelry, and the Cadets seemed as expert in dancing as they are in Hardee's tactics, for their knowledge of which they have already become famous all over the County.

☞ SEEING THE COMET.—A chap who lives not more than a thousand miles from here, was met by a friend of ours on his way home about eleven o'clock one night last week. "Why, how d'ye do? Where are you been? Where are you going?" asked our friend who found he had run against an old acquaintance, said acquaintance being somewhat obfuscated. "Me! Why I am here! I have been here good while. I heard you had a comet in town and come to see it. Saw one about an hour ago—then another then two more—then one with two tails. Fact is Wellsboro's full of Comets. Le's go and get suthin!" Our friend concluded he didn't want to see more than one comet with one tail at one time, and so declined.

☞ Prof. M. N. ALLEN has resigned his Commission as 1st Lieutenant of the Tioga Invincibles. At a meeting of the Company at Camp Curtin on the 8th inst., the following preamble and resolutions were adopted:

WHEREAS, We have received with extreme regret the notice of the resignation of our worthy First Lieutenant, M. N. Allen; therefore,

Resolved, That while we are conscious that his duty calls him home, we nevertheless part with him with reluctance, well knowing and appreciating his courage as an officer, his aptness, his uprightness of character, and his honor as a man.

Resolved, That in him we have always found an officer with independence to do his duty faithfully, fearing none, and treating all justly; and that wherever he may go, or in whatever business he may engage, he will carry with him the best wishes and kindest feelings of the whole company.

Resolved, That a copy of these resolutions be forwarded to the editors of the Tioga county papers, and the papers of this city, with a request that they be published.

☞ A correspondent at Canton writes us that nine "contrabands" from Maryland, passed through that village recently on their way to Canada. One of them asked G. for some food for himself and traveling companions, when the following conversation took place:

"You are from Maryland?" asked G.

"Yes, sar."

"Were you well treated? did you get enough to eat? and clothes to wear?"

"O yas sar—but den—"

"Well then, why did you run away? You may be glad to go back before a year is over."

By this time the "contraband" and his friends became convinced that there was no show for any help from G., and looking wistfully at each other and then at their interlocutor, the spokesman closed the colloquy by this remark:

"Look a h'yer, mass'r; my place down dar is waiter. If you wants it, yours welcome to it for all me. Good day sar."

We are most happy to be able to say to the friends and patrons of this Institution, and also to all within the range of its patronage, that the building will be finished and furnished for the accommodation of all who may apply for admission as students. The people of Mansfield, who have so long and sacrifizingly labored for this educational enterprize, Tioga and Bradford counties, Northern Pa., may now begin to reap the fruits of having in their midst, a First-Class Seminary of learning.

It is the design of the Faculty, which is composed of teachers of much experience and acknowledged ability, to make every possible effort to render this School one of the most desirable in the State, for those who desire a thorough, practical education. The building has a very desirable location on an eminence, about eighty rods east of the Tioga Railroad. It is a brick structure, 150 feet long, four stories high, built in the most modern style of architecture. There are two Literary Societies connected with the School, each having a room exclusively for its use. There is also a Library in the Institution for the use of students.

No student will be taken for less than a term, and any who enter will, therefore, be obliged to pay tuition for a full term. Tuition payable, one half at the commencement, and the remainder at the middle of the term.

The building having been erected at a great expense, the Trustees being anxious to keep it in the best possible state of preservation, think it not best to have any self-boarding in the building. Those who desire to board themselves, can procure rooms at a very reasonable rate in the village.

For further particulars address the Principal.

GROVER & BAKER'S

CELEBRATED NOISELESS

SEWING MACHINES,

FOR FAMILY AND MANUFACTURING USE,

495 *BROADWAY, NEW YORK.*

Agencies in all the principal Cities and Towns in the United States.

The Grover and Baker Sewing Machine Company are now manufacturing, and have on exhibition at their different salesrooms, machines making the Shuttle or Lock-Stitch, of the same patterns and at the same prices as their celebrated Grover and Baker Stitch Machines, thus affording the public the advantage of comparing the stitches of the two leading machines and exercising their own judgment as to their respective merits. This is the only company that manufacturs both kinds of machines, and therefore the only one that can offer this privilege to the purchaser.

"We speak from experience when we say that, after having tried all the principal Sewing Machines, we must accord to that of Grover and Baker the pre eminence. Those indispensable features of sewing, strength, uniformity and elasticity, all of which are brought out in this incomparable invention, make it the first sewing machine in the country. Others have their good points, but this combines all, and possesses every characteristic necessary to make it most desirable."—*N. Y. Christian Advocate and Journal.*

"MERIT VS. PRETENCE.—We perceive that the Grover and Baker Sewing Machine is every day growing more and more in favor, both for manufacturing and family purposes—but especially as adapted to all the requirements of family use. Other machines, by dint of brazen puffery and conniving with committees at annual fairs, have been thrust forward into the first place; but they are fast losing this unmerited position. The real merits of the Grover and Baker Machine are beginning to be known in a practical way, and daily is the demand for them increasing, while the demand for heretofore better known, but inferior, machines, is proportionally decreasing. So it turns out in this, as in many other instances that 'honesty is the best policy,' and the right, in the end comes uppermost.

"A trial of over two years enables us to say with the greatest confidence that there is no better machine for general family use than Grover and Baker's Sewing Machine Co. It makes a beautiful elastic seam that does not rip with wear or washing, runs almost noiselessly, is plain, simple, easy to work, and not liable to get out of repair, fastens the ends of its own thread, and uses threads and silks directly from the spools on which they are bought."—*N. Y. Leader.*

Grover and Baker's Machines' work in their peculiar stitch, and fabrics put together by it, may wear and drop to pieces from original weakness or hard usage, but come apart or give way at the seams, they can not; they will hold together when the cloth or calico around them hangs in rags and tatters.—*N. Y. Daily News.*

"The points we conceive most necessary and important to meet the wide range of requirements in a machine for family sewing, we find more fully combined in the Grover and Baker, viz., extent of capacity, simplicity of construction, ease of management, advantage of using thread from two spools without re-winding, strength of work, elasticity, durability and regularity of stitch, and quietness of movement. We therefore mark award to the Grover and Baker."—*Report of Tennessee State Fair of 1860—also of St. Louis State Fair of 1860.*
