Notice-Thos. Allen. Notice-1408. Attell. Van Amburga & Co. The New York Tribune. The New Lora Griet Mills H. S. Johnston. Shingles-H. S. Johnston.

The excellent sermon preached last Sabbath nothing in the Presbyterian Church by the Rev. Dr. Mitchell, of Binghamton, on the Subject of the War, Michelly be repeated by request of the congregation at till be repeated this evening. Few offour people will nies the opportunity to hear this able liscourse.

The following should be read by every one to has neglected to take the paper published in his ace or the one nearest to him: "Breathes there a min with soul so dead—who never to himself hath aid-I will my county paper take-beth for my own and family's sake? If such there be let him repent and have the paper to him sent—and if he'd pass a uppy winter—he in advance should pay the printer."

We publish clsewhere an interesting letter om our Regular Correspondent in Sapt. Holland's Company, and an equally interesting private letter on one of the "Invincibles." Sergeant Ramsdell's duties during the sickness of Sergeant; Pratt were so nerous that he had not the time to spare to keep us hosted regularly. Our readers will regret this as much posted regularly. Our readers with regret this as much as ourselves. Mr. R. rays that when his comrades get all well, we shall hear from him again. Our letters from the "Boys" make the Agiraroz much sought fier, and this feature of itself, furnishes a good rea-ea why every body in the County should take their own County paper.

We are requested to state that Mr. Asaph Bacon, will deliver an Educational Address to the Teachers and friends of Education generally, in the allowing places:

Delmar. Sept. 23d, Brewster School House. Charleston, Sept, 24th, Dartt-Seffiement School

Charleston, Sept. 25th, Culver School House. Delmar, Sept. 26th, Heise School House. Shippen, Sept. 27th, Pine Grove School House. Stony Fork, Sept. 30th, Steam Mill School House. Morris, Oct. 1st, Babb's School House. Liberty, Oct. 2d, Block House.

The Republicans of Bradford County have mainsted the following excellent County ticket.
In President Judge, Ulysses Mercur who has also en unanimously nominated in Suggerhanna, the oly other county in that district; for Associate ledge, Volney M. Long; for Represent tives, H. W. Incy and C. T. Bliss (who represented that district et year;) for Treasurer, Francis Wags.

The Democrats have nominated a separate ticket, as they knew that the "Union dodge," would not will them in that County. They have wisely saved heir organization its consistency, which is about all there is left of it.

The Republicans of Potter County tet in convenfon. Sept. 10th, and put in nomination the following ficket: For President Judge-Hon. R. G. White, manimously by acclamation; For Assembly-A. G. Omsted; For Associate Judges—G. F. Colvin and Clas. S. Jones; for Commissioner—S. L. Robertson; for Auditor—E. O. Austin; for Coronen W. C. Blakese. The convention was harmonious gand the resoutions of the right stamp.

23 Beckuiting in Farmington.—Eriend Young. A few lines from Farmington may be interesting to mand the readers of the ACITATOR, in the most intersting topic of the day. Last Tuisday evening, there was a meeting for the purpose of receiving volanteers at the Hall School House. It was conducted is good order. Mr. R. Scheiffelin, of Tioga, was ulled upon to open the meeting, and state the cause far which they met. Mr. C. O. Etz, of the same place, ri next called upon to address the Audience, in which he complied. He is a fine speaker and he did justice to the all absorbing trpic. He spoke firmly and eloquently on the great national ir uble of this mud republic, and related incidents and aneedotes, thich told that his whole soul was er thusiastic and mapathetic with the impending orisis, and urged all Joong men to go to help save the Union. His remarks an hour's length were listened to by quiet, but anxhas people, save four or five drunken rabel sympathiers, who now and then disturbed the meeting; sme one ought to have taken them, in hand and given them Jesse.

Next the Rev. H. B. Turk, was called upon to acdres them. He spoke a few minutes in a style arproved by the audience and spoke well. He related Nue anecdotes that were quite amusing, as that is his Mure. At the meeting, Levi Robb, John Greenfield, ed Sampson Gardner enlisted to go in the army.-Cros Mann and Reuben Cloos had previously enlated to go, and there are others intending to go. If Eumpson Gardner had the strength of Sampson of old, then would not the earth quake and those rebels becrushed at one blow? but Sampson Gardner does to take after Sampson of the Bible, nor I fancy does tot look much like him, for his head is minus hair. May success attend our soldiers whorever they go, indoing their duty to help save the Union. May they hie to enjoy this noble Constitution the rich boon for thich they are fighting, in peace and prosperity.

GROVER & BAKER'S

CELEBRATED NOISELESS SEWING MACHINES FOR FAMILY AND MANUFACTURING USE,

495 BROADWAY, NEW YORK.

Agencies in all the principal Cities and Towns in the United States. The Grover and Baker Sewing Machine Company are now anufacturing, and have on exhibition at their different salesrooms, machines making the Shuttle or Lock-Stitch, of the same patterns and at the same prices as their celebrated Grover and Baker Stitch Machines, thus affording the public the advantage of comparing the stitches of the two leading machines and exercising their own judgment as to their respective merits. This is the only company that manufacturs both kinds of machines, and therefore the only one that can offer this privilege to the purchaser.

and nearly all the luxuites used in the people of Tioga County in particular. Among these are such articles as

"We speak from experience when we say that, after having tried all the principal Sewing Machines, we must accord to that of Grover and Baker the pre eminence. Those indispen. sable features of sewing, strength, uniformity and elasticity all of which are brought out in this incomparable invention, make it the first sewing machine in the country. Others have their good points, but this combines all, and possesses every characteristic necessary to make it most desirable."—
N. Y. Christian Advocate and Journal.

"MERIT VS. PRETENCE.-We perceive that the Grover and Baker Sewing Machine is every day growing more and more in favor, both for manufacturing and family purposes-but especially as adapted to all the requirements of family use. Other machines, by dint of brazen puffery and conniving with committees at annual fairs, have been thrust forward into the first place; but they are fast losing this unmerited position. The real merits of the Grover and Baker Machine are beginning to be known in a practical way, and daily is the demand for them increasing, while the demand for heretofore better known, but inferior machines, is proportionally decreasing. So it turns out in this, as in many other instances that 'honesty is the best policy,' and the right, in the end

"A trial of over two years enables us to say with the great est confidence that there is no better machine for general family use than Grover and Baker's Sewing Machine Co. Li makes a beautiful clastic seam that does not rip with wear or vashing, runs almost noiselessly, is plain, simple, easy to work, and not liable to get out of repair, fastens the ends of its own thread, and uses threads and silks directly from the spools on which they are bought."-N. Y. Leader.

Grover and Baker's Machines' work in their peculiar stitch, and fabrics put together by it, may wear and drop to pieces from original weakness or hard usage, but come apart or give way at the seams, they can not; they will hold together when the cloth or calico around them hangs in rags and tatters .- N. Y. Daily News.

"The points we conceive most necessary and important to meet the wide range of requirements in a machine for family sewing, we find more fully combined in the Grover and Baker, viz., extent of capacity, simplicity of construction, ease of management, advantage of using thread from two spools without re-winding, strength of work, elasticity, durability and regularity of stitch, and quietness of movement. We therefore mark award to the Grover and Baker."-Report of Tennessce State Fuir of 1860-also of St. Louis State Fuir of 1860. May 15, 1861,-lv.

THE NEW YORK TRIBUNE. NEW VOLUME.

Off the 7th of September, THE NEW-YORK WEEKLY TRIBUNE commenced the twenty-first year of its existence; THE DAILY TRIBUNE being some months older and THE SEMI-WEEKLY TRIBUNE some months older and THE SEMI-WEEKLY TRIBUNE somewhat younger. Eor more than twen y years, this journal has labored in what its conductors have felt to be the cause of Humanity, Justice and Freedom, endeavoring meliorate the condition of the oppressed and unfortunate, to honor and encourage wiseful exertion in whatever sphere, and, to promote by all means the meral, intellectual and material advancement of our country. It has aimed to be right rather than popular, and to espouse and commend to day the truth that others may not be willing to accept till to-mertow. In pursuing this course, mistakes have droubless been made and fashts committed: but, having in all things incited our readers to think and judge for themselves rather than adopt blindly our own or others conclusions, we believe we may fairly claim for this journal the cred to f having qualified claim for this journal the cred t of having qualified its readers to detect and expose even its own errors. To develop the minds of the young by the most general, thorough and practical Education, and to excourage and stimulate Productive Industry, through free grants of Public Lands to actual settlers and cultivators, as also through the protection of immature tryators, as also through the protection or peculiarly exposed branches from too powerful for-eign competition, are among the aims to which this journal has adhered through good and evil report, and which it steadlastly commends to American patriotism

and philanthrupy.

As to the Civil War now devastating our country, we hold it to have originated in a Rebellion more wanton, wicked, inexcusable, than was ever before known a Rebellion in the interest of the few against the many—a Rebellion designed to raise higher the walfs of casts and tighten the chains of oppression. Having done all we could without a surrender of vital principle to avoid this War, and witnessed the forbearance, meekness and avert its horrors, we hold it our clear duty, with that of every other citizen, to stand by the nation and its fairly chosen rulers, and to second with all our energies their efforts to uphold the Union, the Constitution, and the supremacy of the Laws. And though the Rebellion has become the Laws. And though the Rebellion has become through usurpation, deception, terrorism, and spoliation, fearfully strong, we believe the American Republic fat stronger, and that the unanimous, currest efforts of loyal hearts and hands will insure its over-throw. But on all questions affecting the objects, the stope; and duration of this most extraordinary contest, we defear to those whom the American People have clothed with authority, bolding unity of purpose and of action indispensable in so grave an emergency. In a crisis like the present, our columns must be largely engrossed with the current history of the War In a crisis like the present, our columns must be largely engrossed with the current history of the War for the Uniou, and with elucidations of its more striking incidents. We shall not, however, remit that attention to Literature, to Foreign Affairs, to Agricultural Progress, to Grops, Markets, &c., &., which has already, we trust, won for THE TRIBUNE au honorable position among its cotemporaries. Our main object is and shall be to produce a comprehensive newspaper, from which a careful reader may glean a vivid and faithful history of the times, not merely \$\frac{3}{2}\$ the domain of Action, but in that of Opinion also. As wivid and faithful history of the times, not merely ##
the domain of Action, but in that of Opinion also. As
our facilities for acquiring information increase with
years, we trust that an improvement in the contents
of our journal is perceptible, and that, in the variety
and fullness of intelligence afforded, we may still
hope to 'make each day a critic on the last." In
this hope, we solicit a continuance of the generous
measure of patronage hitherto accorded to our journal.
