These BITTERS for the cure of Weak Stomache General Debility, and for Purifying and Enriching the Blood, are absolutely unsurpassed by any other remedy on earth. To be assured of this, it is only necessary to make the trial. The wine shelf is of a superior quality, being about one-third stronger than other wines; warming and invigorating the whole system from the head to the feet. As these Bitters are tonic and alterative in their character, so they strengthen and invigorate the whole system and give a fine tone and healthy action to all its parts, by equalizing the circulation removing obstructions, and producing a general warmth They are also excellent for Diseases and Weakness peculiar to Females, where a Tonic is required to strengthen and brace the system. No. Lady, who is subject to lassitude and faintness, should be without them, as they are

SEWING MACHINES

FOR PANILY AND MANUPACTURING USE, 495 BROADWAY, NEW YORK.

Agencies in all the principal Cities and Towns in the United States. The Grover and Baker Sewing Machine Company are now manufacturing; and have on exhibition at their differen, salesrooms, machines making the Shuttle or Lock-Stitch, o the same patterns and at the same prices as their celebrated Grover and Baker Stitch Machines, thus affording the publi the advantage of comparing the stitches of the two leading machines and exercising their own judgment as to their respective merits. This is the only company that manufacture both kinds of machines, and therefore the only one that can offer this privilege to the purchaser.

We speak from experience when we say that, after having tried all the principal Sewing Machines, we must accord to that of Grover and Baker the pre eminence. Those indispen sable features of sewing, strength, uniformity and elasticity. all of which are brought out in this incomparable invention make it the first sewing machine in the country. Others have their good points, but this combines all, and possesses every characteristic necessary to make it most desirable."-N. Y. Christian Advocate and Journal.

" MERIT VS. PRETEXCE .- We perceive that the Grover and Baker Sewing Machine is every day growing more and more in favor, both for manufacturing and family purposes-bu specially as adapted to all the requirements of family use Other machines, by dint of brazen puffery and conniving with committees at annual fairs, have been thrust forward into the first place; but they are fast losing this unmerited posion. The real merits of the Grover and Baker Machine are beginning to be known in a practical way, and daily is the demand for them increasing, while the demand for heretofor better known, but inferior machines, is proportionally de creasing. So it turns out in this, as in many other instances, that 'honesty is the best policy,' and the right, in the end

comes uppermost. "A trial of over two years enables us to any with the great est confidence that there is no better machine for general family use than Grover and Baker's Sewing Machine Co. It makes a beautiful clastic seam that does not rip with wear of washing, runs almost noiselessly, is plain, simple, easy to work, and not liable to get out of repair, fustens the ends of its own thread, and uses threads and slike directly from the spools on which they are bought."-N. Y. Leader.

Grover and Baker's Machines' work in their peculiar stitch and fabrics but together by it, may wear and drop to pieces from original weakness or hard usage, but come apart or give way at the seams, they can not; they will hold together when the cloth or calico around them hangs in rags and tabters .- N. Y. Daily News.

"The points we conceive most necessary and important to acct the wide range of requirements in a machine for family sewing, we find more fully combined in the Grover and Ra ker, viz., extent of capacity, simplicity of construction, case of management, advantage of using thread from two specia without re-winding, strength of work, elasticity, durability and regularity of stitch, and quietness of movement. We therefore mark award to the Grover and Baker."-Report of Tennessee State Fair of 1860—also of St. Louis State Frir of
