E THE AMBRICAN CENTRAL ASSOCIATION OF RELIEF, NO. 314 } The Executive O mittee have received the following letter fru a Mr. Olmsted, Secretary of the United States Smitary Commission, in answer to various questions and objections, which their correspondents meet with when usking for hospital sug lies, viz:

\* Isthere he limit to your demands?" "Why, with so fee wounded, do you need so

What will you de with the accumulation?" "Is it true that goods are wasted by the soldiers? and are they idd by them?" Mr. Olmsted's lett ir contains so much infor-

mation interesting to the public, as well as most instructive, the the Committee hope that the press throughou the loyal States will give it a prominent place in their columns. By order. Geo be F. Allien. Secretary.

United States S. RITARY Connission, ) Washington, L C. Nov. 16, 1861. Mrs. George F. t HUYLER-Madam: Your Tavor of the 8th inst, demands specific reply to inquiries which you ecrive, in common with

us, from parties not t grizent of the extent of want in our Military Hospitals, regimental and Regarding the in niry, "If our demands

are to continue?" It mote as my own deliberate judgment, the words of the Rev. Dr. Bellows, in a letter to his Excellency, G.v. Morgan: "Whatever amount of money the Govern-

ment may possess, an whatever activity in the ence of 500,000 soldi is in camp and field, in a Their new used to the care of such vast numbers, will create wants which ale the spontaneous liberality of all the women in the country, added to all that the best Adi inistration can do, will not be able to prevent from becoming cruel in their pressure on the soldier. He will be softimes cold, wet, and suffering, do the utmost we can in the Governt jest, and out of the Government. All large a mies have been so, and must continue to be st. The utmost liberality, the most systematic exertions, can only alle viate, not cure, the hor ors of war, and the sufferings of the soldiers in the field, in Winter and the heat of Sunt pr. I as-ert, therefore, our wamen can do wil he required under any circumstances of effici ney on the part of the Government, and I be ever that this need will exist just as long as the war exists."

What can occasion i great a demand? The average number of de to each regiment of 1,-000 men is not far fro. 80. If one-fourth of these are provided wit dospital clothing, there would be at least 80 at jets and 40 shirts wantled for each regiment. We have received from the Wiman's Central Relief Association of New York, our chieff hannel of supply, altogether during the year; up to Nov. 1st. less than 8.000 shirts of all kilds-cotton. linen, and flannel and about 20 0 sheets, and from allother sources, 7.700 shifts and 4,000 sheets .-You will readily see if it we have not yet received nearly enough for one moderate supply of these articles: to she regimental hospitals | HPON HIGH PRICES & LONG-CREDITS! now existing.

But beside the sick in the regiments, there are the general hospital to be supplied. These now (east of the moun hins) contain about 3, completely in all ease. The quantity which we actually have suppled to this time is much sugars. less than four sheets, we shirts, two towels, two handkerchiefs, and two pairs of socks to men, demanding freque it changes.

There is no need, the fefure, to suppose that igoods are wasted or girin away to patients ileaving hospitals to at improver extent. In fact, not one quarter ar thus supplied whom it would be desirable to st aply.

Respecting weste, we have in no single case (so far as known) supplied goods a second time, except increused sickne a or losses in battle accounted for the demand. We have no knowledge that goods supplied by us have been misused, as yin state is ported, in any single case. We usually impose on the surgeons the necessity in their use, if it our Inspeciors could hardly fail to detect an igross waste, fraud, or reckles-ness. We shou I not re-capuly a regiment without an investigation, and if there had been wrong, should complain to head quarters against the Surged

There has been, you will see, up to this time, no room for accumulation, yet accumulation it is very desirable to secure. For example, a demand last week for the liting up of new hosnitals (900 beds in the barregate.) entirely exhausted yer supply of havers. Naval Expeditions, of which we may expect more than one to be soon fitted out may require to be suddenly provided with Julie supplies, and thus any day completely exhibit our stock.

There are at least 300 | DO, and perhaps 600. 000, men now standing the heatile array in Virginia and Maryland. that a decisive bails will be fought in this vicinity. If it is it is not to be sup posed that either side a livind without putting forth its whole avail the strength. Should the battle be contested with anything like the bravery displayed in the freat historical battles of Europe, experience will not allow us to reckon upon a less number of wounded to be provided for than one-tentle of the whole number engaged. (In some millern buttles one-third of the whole number have been wounded.) . If for only 40,000, it would take more than two years to accumulate, at the rate of supply of Ithe last fortnight, which is better than ever before, a sufficient provision of it, even if during that time we gave out wille at all. I need not say, then, that our accumulation is really very slow-even if you redu withese estimates one half, or three-fourths, still sadly slow.

I should add, in expligation of the reports to which you allude, this goods are sometimes sent, not to the Smitar i Commission, but directly to regiments or sumpanies in the field. Not unfrequently the sine regiment will receive goods within a good time from several sources, and thus have much more than they want; the men sometime, in this case, may teell the surplus, or bartiset for whiskey, or, if they are ordered to march has they cannot carry it, with them, give it av at, or throw it away The Commission is untarbedly linble to be imposed upon by calls from those who have already been supplied thingsh other channels: but when supplies pass buly through their hands, such imposition, shate or extravagance, as you speak of, is hardly possible. Your friend and servant.

### TO THE PEOPLE OF THE UNITED STATES!

In the month of December, 1858, the undersigned for the first time offered for sale to the public Dr. J. Bovec Dods' Imeprial Wine Bitters, and in this short period they have given such universal satisfaction to the nichy thousands of persons who have tried them that it is now inblished article. The amount of bodlly and mental miser; arising simply from a neglect of small complaints is surprising and it is therefore of the utmost importance that a strict attention to the least and most trifling bodily ailmen should be had; for diseases of the body must invariably affect the mind. The subscribers now only ask a trial of

DR. J. BOVEE DODS' MPERIAL WINE BITTERS!!!

from all who have not used them. We challenge the world

to produce their consi. These Birrags for the cure of Weak Stomachs, General Debility, and for Purifying and Enriching the Blood, are absolutely unsurpassed by any other remedy on earth. To be assured of this, it is only necessary to make the trial. The wine itself is of a superior quality; being about one third stronger than other wines; warming and invigorating the whole system from the head to the feet. As these Bitters are tobic and alterutive in their character, so they strengthen and invigorate the whole system and give a fine tone and healthy action to all its parts, by equalizing the circulation removing obstructions, and producing a general warmth They are also excellent for Diseases and Weakness peculiar to Pemales, where a Tonic is required to strengthen and brace the system. No. Lady, who is subject to Is withde and faintness, should be without them, as they are reviving their action.

### THESE BITTERS

For Sore Throat, so common among the Clergy, they are ruly valuable.

For the sged and infirm; and for persons of a weak constitution—for Ministers of the Gospel, Lawyers, and all pub lic speakers-for Book-Keepers, Tailors, Scamstresses, Stu dents, Artists, and all persons leading a sedentary life, they

will prove truly beneficial.

As a Beverage, they are wholesome, innocent, and delicious to the taste. They produce all the exhibitanting effects of Brandy or Wine, without intoxicating; and are a valuable remedy for persons addicted to the use of excessive strong drink, and who wish to refrain from it. They are pure and entirely free from the poisons contained in the adulterated Wines and Liquors with which the country of flooded. These Bitt rs not only CURE but PREVENT Disease, ar should be used by all who live in a country where the water

#### DR. J. BOVEE DODS' IMPERIAL WINE BITTERS

Are prepared by an eminent and skillful physician who has used them successfully in his practice for the last twenty-five years. The proprietor, before purchasing the exclusive right to manufacture and sell Dr. J. Bovee Dods' Celebrated Imperial Wine Bitters, had them tested by two distinguished medical practitioners who pronounced them a valuable remedy for disease.

Although the medical men of the country, as a general thing disapprove of Patent Medicines, yet we do not believe that a respectable Physician can be found in the United States, acquainted with their medical properties, who wil not highly approve DR. J. BOVEE DODS' IMPERIAL WINE BITTERS. In all newly
