EDUCATIONAL: From the instances... although an individual... deprived of all talents... of all the privileges... affords, yet if they are... and temperate, they may... to acquire a good education... requires energy, perseverance... These are the essential... of the successful student... look for success in the... Let us look a little more...

21. Energy: This is... important in the acquisition... of knowledge. A good education... is something that we must... obtain by hard labor... If we have it at all, we... must put forth in a stirring... and energetic manner... It will not do to sit down... and fold our arms as though... we had nothing to do, but... to get up and do it with a... will and a show to the world... that we consider a good... education to be a treasure... to be lost by our want of... energy. It would be just as... foolish for a student to try... to obtain an education without... putting forth his whole... energies as it would be for a... general to attempt to take... "Gibraltar" with a few men...

22. Perseverance: "Perseverance... conquers all things" is an old... saying but none the less... true, for it is a fact which... we see demonstrated every... day in our lives in every... pursuit of life, but in no... case more clearly than in the... life of the student. Obstacles... great, numerous and varied... are placed in the path of the... student, some in one form... and some in another. One... of the most impediments... is indolence. When the student... looks at the vast amount of... learning which has been... acquired by the wise of the... earth and then to his small... amount which he has already... acquired, his heart is apt to... sink within him, and he... gives way to a feeling of... indolence and discouragement... but perseverance comes to his... relief and whispers "Hop up... and try again." He is urged... by its soul inspiring tones... and pursues his course with... renewed vigor. This most... essential quality is what makes... our Washingtons, Jeffersons... Lincolns, &c., men who have... arisen by their perseverance... from obscurity to the heights... of fame. Without perseverance... the most brilliant talents and... all the advantages that... wealth can bestow fail to give... to the professor the coveted... reward of fame.

23. Temperance: There has... always been a great deal... said about temperance in... eating and drinking, but very... little about it in studying... It is a very common idea... among men that if a scholar... sits pouring over his books... day and night, that he will... inevitably become a great... man. A scholar that does... this must have a strong... constitution in order to live... to be a man. What is it that... gives the student's cheek to... grow pale, and his eyes to... burn with an unearthly luster... unless it is intemperance in... studying. What is it that... causes consumption to seize... upon him with its deadly... grasp unless it is the same... cause. The intemperate... pursuit of knowledge has... been the means of destroying... a great many valuable... lives. The student should... attend to his physical as well... as his mental education... and strengthening his body... should also be his endeavor... to have a vigorous mind... and one that is capable of... grasping great and intricate... subjects that the student... should have a vigorous body... if he does not his mind will... wear out his body and then... the mind must suffer decay.

THE LOWER CLASS: Who are they? The toiling millions, the laboring men and women, the farmer, the mechanic, the artist, the inventor, the producer? Far from it. These are nature's nobility—God's favorites—the salt of the earth. No matter whether they are high or low in station, rich or poor in self, conspicuous or humble in position, they are the "upper circle" in the order of nature, whatever the fictions of distinction of fashionable society. It is not low; it is the highest duty, privilege, pleasure, for the great mass and the whole-souled woman to earn what they possess, to work their way through life, to be the architects of their own fortune. Some may remark the classes we have alluded to are only relatively low, and in fact the middle classes. We insist that they are absolutely the very highest. Is there a class of beings on earth who may properly be denominated low? If so, it is composed of those who consume without producing, who dissipate the earnings of their fathers or relatives without laboring or doing anything themselves.

I understand that you are now in the milk business, Bones. "Yes, Sam," said Bones, "I'm now in the milk business—first-rate business—pays well." "Glad to hear it, Bones." "But a fellow met me the other day, and says he, Bones, you order stinging dem cows of yours." "Shingle your cows? Why what in de world did he say to you to stingo dem cows for?" Bones took a long breath and casting a wry glance at Sam, he answered, "to keep de water from running into de milk."

A CHRISTIAN TURK: A Sultan of Turkey has behaved more like a Christian toward us than any other sovereign. If a man is not satisfied with a little, it is very certain he will never have enough. A clear conscience is sometimes sold for money, but never bought with it. The captain of a vessel is not governed by his mate, but a married man generally is.

TO THE PEOPLE OF THE UNITED STATES: In the month of December, 1855, the undersigned for the first time offered for sale to the public Dr. J. BOVEE DODS' DOGS' CELEBRATED WINE BITTERS, and in this short period he has secured such universal satisfaction to the many thousands of persons who have tried them that it is now an established article. The amount of bodily and mental misery arising simply from a neglect of such complaints is surprising and it is therefore of the utmost importance that a strict attention to the least and most trifling bodily ailment should be had, for diseases of the body may imperceptibly affect the mind. The subscriber trusts that the trial of

DR. J. BOVEE DODS' DOGS' CELEBRATED WINE BITTERS: from all who have not used them. We challenge the world to produce their equal. These Bitters for the cure of Weak Stomachs, General Debility or nervousness, Enriching the Blood, are absolutely unsurpassed by any other remedy on earth. To be assured of this, it is only necessary to make the trial. The wine itself is of a superior quality, being about one-third stronger than other wines; warming and invigorating the whole system from the head to the foot. As these Bitters are tonic and alterative in their character, so they strengthen the bowels, purify the system and give a true and healthy action to all its parts, by equalizing the circulation, removing obstructions, and producing a general warmth. They are also excellent for Diets and Weakness peculiar to Females, where a Tonic is required; to strengthen and brace the system. No Lady, who is subject to lassitude and faintness, should be without them, as they are reviving their action.

THESE BITTERS Will not only Cure, but Prevent Disease, and in this respect are doubly valuable to the person who may use them. INFANCY CONSUMPTION. Weak Lungs, Indigestion, Dyspepsia, Diseases of the Nervous System, Paralysis, Piles, and for all cases requiring a Tonic. Dr. Dods' Celebrated Wine Bitters ARE UNSURPASSED! For Sore Throat, so common among the Clergy, they are truly valuable. For the aged and infirm, and for persons of a weak constitution—for Ministers of the Gospel, Lawyers, and all public speakers—for Book-keepers, Tailors, Seamstresses, Students, Artists, and all persons leading a sedentary life, they will prove truly beneficial. As a Beverage, they are wholesome, innocent, and delicious to the taste. They produce all the exhilarating effects of Brandy or Wine, without intoxicating; and are a valuable remedy for persons addicted to the use of excessive foreign drink, and who wish to refrain from it. They are pure and entirely free from the poisons contained in the adulterated Wines and Liquors with which the country is flooded. These Bitters not only CURE but PREVENT Disease, and should be used by all who live in a country where the water is bad, or where Chills and Fevers are prevalent. Being entirely innocent and harmless, they may be given freely to Children and infants with impunity. Physicians, Clergymen, and temperance advocates, as an act of humanity, should assist in spreading these truly valuable BITTERS over the land, and thereby essentially aid in banishing Drunkenness and Disease.

IN ALL Affections of the Head, Sick Headache, or Nervous Headache, Dr. Dods' Imperial Wine Bitters will be found to be most Salutory and Efficacious. FEMALES. The many certificates which have been tendered us, and the letters which we are daily receiving, are conclusive proof that among the women these Bitters have given a satisfaction which no other has done before. No woman in the land should be without them, and those who once use them will not fail to keep a supply. DR. J. BOVEE DODS' IMPERIAL WINE BITTERS Are prepared by an eminent and skillful physician who has used them successfully in his practice for the last twenty-five years. The proprietor, before purchasing the exclusive right to manufacture, and sell Dr. J. Bovee Dods' Celebrated Imperial Wine Bitters, had them tested by two distinguished medical practitioners who pronounced them a valuable remedy for disease. Although the medical men of the country, as a general thing, disapprove of Patent Medicines, yet we believe that a respectable Physician can be found in the United States, acquainted with their medical properties, who will not highly approve Dr. J. BOVEE DODS' IMPERIAL WINE BITTERS. In all early stages of disease, when there is a large quantity of decaying matter, which is a poisonous miasma created, these Bitters should be used every morning before breakfast. DR. J. BOVEE DODS' IMPERIAL WINE BITTERS Are composed of a pure and unadulterated Wine, combined with Barbary, Solomon's Seal, Comfrey, Wild Cherry Tree Bark, Spikenard, Chamomile Flowers, and Gentian. They are manufactured by Dr. Dods himself, who is an experienced and successful Physician, and hence should not be classed among the cheap nostrums which food the country, and against which the Medical Profession are so justly prejudiced. These truly valuable Bitters have been so thoroughly tested by all classes of the community for almost every variety of disease incident to the human system, that they are now deemed indispensable as a Tonic, MEDICINE and a BEVERAGE. PURCHASE ONE BOTTLE! It Costs but Little! Purify the Blood! Give Tone to the Stomach! Renovate the System! and Prolong Life! Price \$1 per bottle, 6 bottles for \$5. Prepared and sold by CHARLES WIDFELD & CO., SOLE PROPRIETORS, 78 William Street, New York. For sale by druggists and grocers generally through out the country. Sept. 25, 1861-1y.
