MME. DEMOREST'S

RUNNING STITCH \$5 Sewing Machine,

THE embodiment of practical utility, and a marvel of simplicity: makes the running stitch very rapidly and perfect, uses a common needle, and will last a lifetime. At the New York State Fair, its simplicity, efficiency, and great practical utility, was confirmed by the award of the First Premium. It will gather, ruffle, shirr, tuck, run up breadths, etc., with a single or double thread on any material adapted to the running stitch. The thinnest, usually the most difficult to stitch by other sewing machines, being sewed the ensiest. For ladies' and children's

apparel, and other articles made of light fabrics, it will therefore be found almost invaluable. It is altached to the table like a sewing bird, and having no tension, and requiring no lubrication or change of stitch, is always ready for operation, and such a marvel of simplicity that a child of six or eight years can understand and use it successfully.

It is not at all liable to get out of order.

Each muchine is put up in a neat box, accompanied with full and explicit directions, and twenty five needles.
