Wood,

We want ten cords of wood on subscription, all of which has been promised and is overdue. Should our forgetful friends naticel to deliver the wood soon we shall be obliged to purchase the same elsewhere, and so render it nece sary to collect the money to pay for it. We prefer of to do this. Wood is plentier than money.

HINT No. 2 .- The inquiry for the locale of the Supervisor is becoming general. As yet, nothing worse than broken toes and battered shins, have resulted from the disjointed state of our sidewalks. They are much better than wine at all, but not so good as they might be. Where, a the Supervisor?

WE give this we k the proceedings of the Teach ers' Institue at Tio a, furnished by a special correspondent. Owing t a press of duties we were unable to attend in person, however, we get a better report by proxy than oth twise we could have done. We are glad to learn that the anstitute was a success.

THE ACADEMY - We take pleasure in stating for the information of the public that the Spring term of the Wellsboro Acidemy opens with a flattering increase in attendance. We learn through its gentlemanly Principal, boof. Allen, that he has now between 70 and 80 pupils, F

We are requested to notify all persons who have friends buried in the Welfabero Cometery, that they will confer a favor upon all parties interested by leaving the names of the detected and the date of their burial, with Mr. I. T. B. PETERSON & BROTHERS, Philadelphia, publish a new card containing the official list of stamp duties under the Internal Revenue law and its amendments, with penalties for violating said law, also exemptions, or cases where no stamp is needed. It will prove invaluable to the business man, giving for the small price of ten cents a vast amount of information, which must otherwise be sought for in a voluminous law. We commend it to everybody.

MANSFIELD NORMAL SCHOOL .- The Spring term of this Institution will open on Wednesday, 29th inst. The trustees have engaged the following named persons as teachers : Acting Principal, Rev. W. D. Taylor, A. B.; Acting Propertiess, Miss. Harriet A. Farnsworth, a graduate of the Genessee Wesleyan Seminary: Professor of French and German, L. A. Ridgway, Teacher of Instrumental Music, Miss . Cochrane. Ather teachers will be employed. The solpool has the wishes of every friend of education for its success.

FOLLY OF HEARDING SHALL COIN .- Those people who now hoard cents and three cent pieces, do it, probably in the pelie! that they are much more valuable than the re pilar paper currency. We suppose they do not und retand that cents and three cent pieces are not wor in what they pass for, and that they are not a legel tender for the payment of debts amounting to some than thirty conts. A person may hoard three cei piece I to the amount of hundreds of dollars, but he cannt; pay debts with them or use them at all in busites transactions, beyond the amount specified, if o bets refuse to take them; and with cents the case is still worse. Such hoarding is foolish businers. The se small coins were made to circulate as change, ald they were made to pass for more than the are intrinsically worth, in order to beep them in circulation, therefore let them circulate. -Norristown Herald.

A Serious Joke. - A friend relates a good anecdote relating to the trans to of a batch of rebel prisoners from Camp Douglas through Elmira, one day last week. While the trein was standing on the Williamsport and Elmira traik, ajcopperheaded Irishman approached and began to condole with his fellow rebels He assured them that they were fighting in a good cause, added several complimentary flourishes, and wound up wit; a cheer for Jeff Davis. The officer in charge of the pris mers, very naturally concluding that Pat was one of is prisoners at large, ordered a file of men to arrest am Patrick protested, struck, kicked and ralled, but was finally taken aboard and carried off. When the thain approached the first station, thinking the joie that gone for enough, the orficer ordered the guard to give Pat'an opportunity to escape. This was done, and the rebel pro tem., took to his heels; His treubles were not ended however; for the office put two soldiers on his track, and the poor fellow only got off andly frightened and windbroken. Our informant says that Pat turned up in Elmira next day a first gate Union man.

Troca Court.-We hear most encouraging remorts from every section of the county in ragard to the boalthy sondition of the industrial interests and the prosperity of all anterprises connected therewith. We are led to belie that Tioga is pressing to the ran in the march of improvement. Enterprise, backed by labor and capital, is developing her resources and converting them into real wealth. Her coal fields are about to be warked to a greater extent than aver before, her pine forests are disappearing before the all-conquering as of the hardy woodman, and the erection of extensive tanneries has made the hemlock forests before of mominal value, valuable for their product of back. Wer is the agricultural interest far behind. As the pine disappears men are turning their attention itoward the improvement of their farms, in too many instances before neglected. Farming is not so mich subsidiary to lumbering, as it was when we first now the county. From the incident it he, arisen has the object; and in the multiplication of pred the improvement of fences and the disappearants dunsightly stumps, the record of real progrest is written. There is no good reason whillings of intrahould not become one of the richest in the Sixte. It has great mineral wealth, good water power, and a soil admirably adapted to grain growing. As an excouragement to the erection

WOOLEN FACTORY.

THE undersigned takes this method of informing the inhabitants of Steuben and Tioga forming the inhabitants of Steuben and Tioga counties and vicinity, that he has rented for a term of years, with the intention of purchasing the well known Woolen Factory at South Addison, (known as the Wombough Factory) where he will manufacture Wool by the yard, or on shares into Stocking-Yarn, Flannels, Cassimeres, Doe-Skins, and Full Cloths of all kinds. The Machinery is undergoing a thorough and complete repair, and new Machinery is being added to the Mill, which will enable it to turn off a style of work far superior to saything of the kind ever done in this section of the country. Also particular attention will be paid to Roll Carding and Cloth Dressing; which will be done in the neatest possible manner. The Roll Machine is also being fitted entirely new, and can be depended upon doing work satisfactorily.

The subscriber would here say, that he has been engaged in the business of manufacturing Wool for Farmers for the past fifteen years in the east, and is
